Entrepreneurship and Entrepreneurship—Real Estate Emphasis

Entrepreneurship relies on creativity, new ideas and challenging existing products or services. Entrepreneurs may start a new business or revitalize current businesses through corporate ventures and new innovations.

The entrepreneurship program at WSU focuses on the creation of a new business and the management of growing a small business, including family-owned businesses. You will learn to recognize new opportunities and determine feasibility as well as small business financing and writing successful business plans.

The entrepreneurship-real estate option is for students interested in pursuing a career in property development or managing their own real estate company.

WSU is the only Kansas Board of Regents’ institution to offer a degree program in real estate. By providing an emphasis through four different majors, WSU allows you to customize your program of study in an unique way among real estate programs in the United States.

Admission

When you choose to major in entrepreneurship, you are admitted to the W. Frank Barton School of Business. An academic advisor from the Business Advising Center will help you enroll in an orientation course where you will learn to develop a study plan and specific requirements for degree completion.

Masters Program

The Barton School of Business also offers four master’s degree programs. The Masters of Accountancy (MACC), Masters of Arts in Economics (MA-Econ), Masters of Business Administration(MBA) with four different focus areas, and the Executive Masters of Business Administration (EMBA).
