Introduction

Introduction

A coalition of representatives from University Support Staff (USS) and Unclassified Professional Staff (UPS) organizations from six Regent Universities in Kansas asked the Docking Institute of Public Affairs to conduct a survey of USS and UPS employees. The six universities included Emporia State University (ESU), Fort Hays State University (FHSU), Kansas State University (KSU), Pittsburg State University (PSU), Wichita State University (WSU), and the University of Kansas (KU).

The survey was conducted during spring 2025 using Qualtrics on-line survey software. Email addresses for USS and UPS employees of the six universities during the spring 2025 semester were provided to the Docking Institute. Invitations to participate in the survey (including a link to an online survey) were emailed to all USS and UPS employees listed. This research project was submitted to the FHSU Institutional Review Board (IRB) for review. Survey questions were developed in collaboration with the coalition of representatives from the USS and UPS organizations. The survey instrument is provided as Appendix A.

This report shows results from WSU USS survey respondents (WSU USS Employees) and all the USS respondents (Statewide USS Employees).

Methods

Email requests were sent to 9,613 USS and UPS employees at the six universities. The Institute received 3,516 usable completions on the online survey, a response rate of 36.6%. Since the lists provided by each university included all USS and UPS employees, no margin of error is calculated. The initial email invitation was sent April 2, 2025. Multiple follow-up email requests were sent to non-responding employees between then and the close of data collection on May 8, 2025.

For Wichita State University, emails were sent to 1,951 USS and UPS employees. The Institute received completions from 31 USS and 486 UPS employees, for an institution response rate of 26.5%.

Data were downloaded into SPSS software for analysis. Email addresses and the names of employees were deleted from the SPSS file. Only grouped data were analyzed, and no attempt was made to link individual responses to individual respondents.

Summary

This report is for Wichita State University. Responses to each survey question are provided for all (Statewide) USS Employees and WSU USS Employees. Responses are shown in tables and figures.

The Docking Institute's independent analysis shows the following:

- Compared to Statewide USS Employees, a slightly smaller percentage of WSU USS Employees have been employed at their university for 20 years or more.
- When asked to rank (from first to fourth) the importance of various items, “amount of pay or compensation” was ranked first among most respondents (87.1% of Statewide USS Employees and 89.3% of WSU USS Employees). The item with the next highest percentages ranking it first is “recognition for work performed” at 6.7% among Statewide USS Employees and 7.1% among WSU USS Employees. Similar percentages of Statewide USS Employees (37.2%) and WSU USS Employees (35.7%) ranked “additional incentives or perks” second.
- Over 60% of both WSU USS and Statewide USS indicate that their “work is greatly appreciated” by their immediate supervisors, while over 50% say their “work is greatly appreciated” by their co-workers. A larger percentage of WSU USS Employees (58.1%) than Statewide USS Employees (41.2%) report that their “work is greatly appreciated” by department heads.
- A smaller percentage of WSU USS Employees (6.5%) than Statewide USS Employees (15.5%) rate their morale as “extremely positive.” The single largest percentages of both groups rate their morale as “somewhat positive” (48.4% at WSU and 37.7% of Statewide USS Employees).
- A slightly larger percentage of WSU USS Employees (45.2%) than Statewide USS Employees (42.8%) report that their morale has worsened “compared to two years ago.”
- Of those whose morale has worsened compared to two years ago 71.4% of WSU USS Employees and 72.9% of Statewide USS Employees indicate as a reason that “salary increases haven’t kept up with costs.” Majorities of both groups also indicate they “had to take on additional work duties with no/minimal increases in pay.”
- Of those reporting that their morale has improved or stayed the same compared to two years ago, 29.4% of WSU USS Employees and 29.6% of Statewide USS Employees report as a reason that “the future of my position is certain and stable.”
- About 40% of both Statewide USS Employees and KSU USS Employees report that their wages are “somewhat reasonable,” “reasonable,” or “extremely reasonable.”

- A smaller percentage of WSU USS Employees (29%) than Statewide USS Employees (43.7%) report having a second job. Of those without second jobs, 45.5% of WSU USS Employees and 37.1% of Statewide USS Employees report “considering taking a second job.”
- Of those with second jobs or considering taking second jobs, 50% and 47.4% (WSU and Statewide, respectively) report that a second job will help them “provide better for their families.”
- Of those with second jobs or considering taking second jobs, more than 70% of both groups indicate health insurance benefits and working to maximize retirement benefits are reasons for continued university employment. And 63.2% of WSU USS Employees indicate stability in employment as reason, compared to 81% of Statewide USS.
- Regarding incentives or opportunities, 87.1% of WSU USS Employees and 78.8% of Statewide USS Employees “agree” or “strongly agree” that they “enjoy the things they do at work.” More than 75% of both groups “agree” or “strongly agree” that they are “sufficiently trained to complete their duties,” while about two-thirds have “generally positive work environments.”
- Almost 70% of WSU USS and State USS Employees consider “improved healthcare benefits” as at least “very important.” Over 50% of WSU USS Employees consider “working remotely some of the time” and “professional development opportunities as “extremely important” or “very important.”
- In rating their health insurance through the State of Kansas, the single largest percentage of both groups (45.2% at WSU and 46.3% Statewide) rate it as “fair value at fair cost.”
- More than 60% of both groups report that their “duties have increased” (62.1% at WSU and 70.3% Statewide). Majorities of both groups indicate that they are having “to complete more advanced duties or tasks” (55.2% at WSU and 59.6% Statewide).
- A lower percentage of Statewide USS Employees (27.6%) than WSU USS Employees (29%) report looking for a different job within the past year or so.
- Of those looking for a different job, 56.9% of Statewide USS Employees and 33.3% of WSU USS Employees report that they are interested in other on-campus employment, and in response to a separate question, 90.1% and 88.9% (Statewide and WSU, respectively) report being interested in off-campus employment.

Findings

This section of the report provides percentage responses to each question in the survey. Questions were grouped by theme and do not necessarily follow the flow of the survey questions (see Appendix A). The tables and figures below show responses for Statewide USS Employees and WSU USS Employees.

Table 1 shows fairly similar distributions of years employed at their current university, but there is slightly smaller percentage of WSU USS Employees than Statewide USS Employees who have been employed at their university for 20 years or more.

Table 1: Years of Employment

	Statewide USS		WSU USS	
	Frequency	Percent	Frequency	Percent
0-2 years	62	12.8	3	10
3-4 years	42	8.7	5	16.1

20 years or more	176	36.3	10	32.3
Total	485	100	31	100

Item Importance and Appreciation of Work Performance

Figure 1 shows responses to four items. Respondents were asked to rank each according to importance from first to fourth. The items were:

- Recognition for the work you perform
- Amount of pay or compensation
- Additional incentives or perks
- Professional development opportunities

The figure shows that “amount of pay or compensation” was ranked first among most respondents (87.1% of Statewide USS Employees and 89.3% of WSU USS Employees). The item with the next highest percentages ranking it first is “recognition for work performed” at 6.7% among Statewide USS Employees and 7.1% among WSU USS Employees. Similar percentages of Statewide USS Employees (37.2%) and WSU USS Employees (35.7%) ranked “additional incentives or perks” second.

Figure 1: Item Ranking

Respondents were asked “if there is another work-related item that you consider to be of high importance.” Table 2 shows all comments collapsed into categories. (NOTE: Some respondents provided more than one item. The categories below show the first item listed.)

Table 2: Additional High Importance Items (Categories)

	119	100		10	100.0

Figure 2 shows responses to statements addressing the work performance appreciation by various groups and individuals. The groups and individuals include co-workers, immediate supervisors, department heads, and university administrators. The statements include “my work is unappreciated,” “my work is moderately appreciated,” “my work is greatly appreciated,” and “this item does not apply to me.”

Figure 2 shows that over 60% indicate that their “work is greatly appreciated” by their immediate supervisors, while over 50% say their “work is greatly appreciated” by their co-workers. A larger percentage of WSU USS Employees (58.1%) than Statewide USS Employees (41.2%) report that their “work is greatly appreciated” by department heads.

Figure 2: Appreciation of Work Performed

Work Morale

This section of the report addresses work morale. Figure 3 shows responses to the question “generally speaking, how do you rate your morale at work?” Answer options ranged from “extremely positive” to “extremely negative.”

Figure 3 shows that a smaller percentage of WSU USS Employees (6.5%) than Statewide USS Employees (15.5%) rate their morale as “extremely positive.” The single largest percentages of both groups rate their morale as “somewhat positive” (48.4% at WSU and 37.7% of Statewide USS Employees).

Figure 3: Morale at Work

Figure 4 shows that a slightly larger percentage of WSU USS Employees (45.2%) than Statewide USS Employees (42.8%) report that their morale has worsened “compared to two years ago.”

Figure 4: Morale Compared to Two Years Ago

Respondents indicating that their morale has worsened compared to two years ago (represented by the blue bars in the previous figure) were asked follow-up questions about why morale has worsened. Figure 5 shows that 71.4% of WSU USS Employees and 72.9% of Statewide USS Employees report that “salary increases haven’t kept up with costs.” Majorities of both groups also indicate they “had to take on additional work duties with no/minimal increases in pay.”

Figure 5: Why Morale Has Worsened

Table 3 shows the coded responses to a follow-up question when someone answered “other reason.” The number of university-specific employees answering this question is so low as to be only suggestive. (NOTE: Some respondents provided more than one item or issue. The coded categories below show the first item/issue listed.)

Figure 6 shows that of those reporting that their morale has improved or stayed the same compared to two years ago, 29.4% of WSU USS Employees and 29.6% of Statewide USS Employees report as a reason that “the future of my position is certain and stable.” Tables 4 shows the coded responses to a follow-up question when someone answered “other reason.” Table 5 shows the coded responses when respondents were offered in an open-ended field to mention any other comments regarding morale, and the single largest percentages of WSU and Statewide employees mention a lack of equity in compensation. (NOTE: Regarding Tables 4 and 5, some respondents provided more than one item or issue. The coded categories in the tables show the first item/issue listed.)

Wages and Second Job

This section of the report addresses wages and a second job (if workers have a second job and/or if they have considered one).

Figure 7 shows responses to the question “how do you rate your salary or hourly wage with regard to the work you currently perform?” Answer options ranged from “extremely reasonable” to “extremely unreasonable.” The figure shows that about 40% of both Statewide USS Employees and KSU USS Employees report that their wages are “somewhat reasonable,” “reasonable,” or “extremely reasonable.”

Figure 7: Perception of Current Wages

Figure 8 shows that a smaller percentage of WSU USS Employees (29%) than Statewide USS Employees (43.7%) report having a second job. Of those without second jobs, 45.5% of WSU USS Employees and 37.1% of Statewide USS Employees report “considering taking a second job.”

Figure 8: Have or Consider a Second Job or Other Income

Respondents with a second job or considering a second job (“yes” answers shown in Figure 8) were asked the question “of the following, which BEST describes the reason you have taken a second job or are considering a second job?”

Answer options included to “be able to better provide for family,” “help to pay down debts/bills,” and “be able to have additional discretionary income (i.e., to spend on vacations, upgraded car, etc.).” Figure 9 shows that of those with second jobs or considering taking second jobs, 50% and 47.4% (WSU and Statewide, respectively) report that a second job will help them “provide better for their families.”

Figure 9: Why Have/Consider a Second Job or Other Income

Respondents with a second job or considering a second job (“yes” answers shown in Figure 8) were asked the question “Regarding your job with the University, which of the following reasons have encouraged you to *remain employed* there?”

Answer options included the following:

- I earn a better salary than a comparable job in the private sector
- The stability in employment
- I need the health insurance
- I need access to the education discounts offered (i.e., tuition waivers) for self/dependents
- I am close to retirement age
- I want to continue working here to receive maximum retirement benefits
- I enjoy the work so much that I remain

Figure 10 shows that of those with second jobs or considering taking second jobs, more than 70% of both groups indicate health insurance benefits and working to maximize retirement benefits are reasons for continued university employment. And 63.2% of WSU USS Employees indicate stability in employment as reason, compared to 81% of Statewide USS.

Figure 10: Reasons for Continued University Employment

Job Satisfaction, Incentives, and Health Insurance

This section of the report addresses job satisfaction, incentives or opportunities that might be of interest to employees, and opinions about health insurance.

Regarding job satisfaction, respondents were presented with several statements and asked to respond to each with answer options ranging from “strongly agree” to “strongly disagree.” The statements included the following:

- I enjoy the things I do at work
- I have a generally positive work environment
- I am sufficiently trained to complete my required job duties
- I have a reasonable workload
- I have a fair chance of advancement in my job
- I have a fair chance for future salary or wage increases

Figures 11a and 11b show responses to the statements above. Figure 11a shows that 87.1% of WSU USS Employees and 78.8% of Statewide USS Employees “agree” or “strongly agree” that they “enjoy the things they do at work.” More than 75% of both groups “agree” or “strongly agree” that they are “sufficiently trained to complete their duties,” while about two-thirds have “generally positive work environments.”

Figure 11a: Job Satisfaction

Figure 11b: Job Satisfaction (Continued)

Respondents were asked to provide another item or issue that they feel strongly about in a text box. Table 6 shows comments collapsed into categories. (NOTE: Some respondents provided more than one item or issue. The categories below show the first item/issue listed.)

Figures 12a and 12b show responses to the series of statements regarding incentives or opportunities that might be of interest to employees. Respondents were asked to respond to each with answer options ranging from “extremely important” to “not at all important.” The incentives or opportunities are listed below:

- Flextime or flexible hours
- On-the-job training
- Childcare assistance (such as financial assistance or care at work)
- Improved healthcare benefits
- Tuition assistance for dependents attending another university
- Tuition assistance for dependents attending a nearby community college or technical school

Figures 12a and 12b show responses to the statements above. Figure 12a shows that almost 70% of WSU USS and State USS Employees consider “improved healthcare benefits” as at least “very important.” Over 50% of WSU USS Employees consider “working remotely some of the time” and “professional development opportunities as “extremely important” or “very important.”

Figure 12a: Incentives or Opportunities

Figure 12b: Incentives or Opportunities (Continued)

Respondents were offered the ability to list other important incentives in an open-ended question that followed the lists. Table 7 shows comments collapsed into categories. The number of university-specific employees answering this question is so low as to be only suggestive. (NOTE: Some respondents provided more than one item. The categories below show the first item listed.)

Table 7: Additional Incentives or Opportunities (Categories)

Total	70	100		3	100.0

Respondents were next asked to respond to the statement “with regard to your health insurance through the State of Kansas, which of the following statements MOST applies to you.” The following items were provided:

- I'm receiving high value at high cost
- I'm receiving fair value at high cost
- I'm receiving low value at high cost
- I'm receiving fair values at fair cost
- I'm not receiving fair value at a fair cost
- I don't use the State of Kansas Health Insurance

Figure 13 shows that the single largest percentage of both groups (45.2% at WSU and 46.3% Statewide) rate it as “fair value at fair cost.”

Figure 13: Opinions about Health Insurance

Budget Limitation Impacts

This section of the report addresses opinions about the impacts of budget limitations. Respondents were presented with the following question and statement: “Have budget limitations impacted your job? If so, please mark all the areas below that have been impacted by budget limitations.”

Respondents were then presented with a table containing the items below and asked to select “yes” or “no” to each.

- My amount or quantity of my work has increased
- My duties have increased
- I now complete more advanced level duties/tasks
- Our staff has been reduced because of unfilled positions
- Our staff has been reduced because we are unable to fill open positions at current salary/wage levels
- Resources and supplies have been reduced
- None of the above

Figure 14 shows that more than 60% of both groups report that their “duties have increased” (62.1% at WSU and 70.3% Statewide). Majorities of both groups indicate that they are having “to complete more advanced duties or tasks” (55.2% at WSU and 59.6% Statewide).

Figure 14: Opinions about Budget Limitation Impacts

Different Job

Respondents were asked “are you currently looking for a different job or have you looked for a new job in the past year or so?”

Figure 15 below shows that a lower percentage of Statewide USS Employees (27.6%) than WSU USS Employees (29%) report looking for a different job within the past year or so.

Figure 15: Looking for Different Job

Respondents who answered “yes” to the question “are you currently looking for a different job or have you looked for a new job in the past year or so” were asked two questions: “are you looking for an on-campus job” and “are you looking for an off-campus job.”

Figure 16 shows that, of those looking for a different job, 56.9% of Statewide USS Employees and 33.3% of WSU USS Employees report that they are interested in other on-campus employment, and in response to a separate question, 90.1% and 88.9% (Statewide and WSU, respectively) report being interested in off-campus employment.

Figure 16: Looking for On- and/or Off-Campus Job

Finally, respondents were asked if they had any other comments they would like to add. Table 8 shows responses collapsed into categories. (NOTE: Many respondents provided more than one comment. The categories below show the first listed.
