This is described in Policy 8.19/Parental Notification.

VIII. Interim Measures

a. Non-Restrictive Interim Measures

In consultation with Student Conduct & Community Standards staff, the Vice President for Student Affairs or designee will evaluate incident information to promptly determine the necessity of interim measures. The University may implement appropriate interim measures for the individuals involved and for the larger University community based on the information provided in the report and at no cost to the Complainant (if applicable). Interim measures may be put in place or modified at any point after a report is received and can be implemented even if a formal investigation is not able to proceed. Such interim measures include, but are not limited to the following categories:

i. Academic
ii. Housing
iii. Transportation
iv. Campus Employment
v. Facility Access
vi. Activities
vii. Campus Escort Service

b. Interim Restrictions

When the actions of a student or member(s) of a student group or organization present an ongoing threat to the health, safety, or well-being of others; disrupt the University community; or endanger University, public, or private property; the Vice President for Student Affairs or designee may implement interim measures that restrict access for the Respondent pending the outcome of an investigation and resolution process. These interim measures may include, but are not limited to:

The Vice President for Student Affairs or designee will notify the Complainant (if applicable) and Respondent in writing of any interim measures. The measures will take place immediately upon notification. The Respondent will have three (3) University business days to e-mail a written request for a Show Cause Hearing to the Vice President for Student Affairs or designee. Upon receipt of a request, the Vice President or designee will conduct a Show Cause Hearing within three (3) University business days to determine if the interim measures should be lifted, modified, or kept in place. This is a final decision regarding interim measures unless there are exceptional circumstances that come to light during the investigation.

In circumstances in which the Respondent requests, in writing, that the Vice President of Student Affairs remove themselves from the Show Cause Hearing on the basis of actual or perceived bias, or the Vice President for Student Affairs is otherwise unable to perform these duties, decisions regarding interim measures will be made by the Associate Vice President for Student Affairs/Student Life or designee.

Interim measures may be implemented at a later time, even if originally declined. Once in effect the measures will remain in place until the institution determines they are no longer necessary.

Description of Health Risks with Abuse
The following images are from the CDC website, which explain Alcohol use and Health Risks.

(Continued on next page)
Alcohol Use and Your Health

Drinking too much can harm your health. Excessive alcohol use leads to about 88,000 deaths in the United States each year, and shortens the life of those who die by almost 30 years. Further, excessive drinking cost the economy $249 billion in 2010. Most excessive drinkers are not alcohol dependent.

What is considered a “drink”? U.S. Standard Drink Sizes

- 12 ounces 5% ABV beer
- 8 ounces 7% ABV malt liquor
- 5 ounces 12% ABV wine
- 1.5 ounces 40% ABV (80 proof) distilled spirits (examples: gin, rum, vodka, whiskey)

Excessive alcohol use includes:

- Binge Drinking
  - For women, 4 or more drinks consumed on one occasion
  - For men, 5 or more drinks consumed on one occasion

- Heavy Drinking
  - For women, 8 or more drinks per week
  - For men, 15 or more drinks per week

- Any alcohol used by pregnant women

- Any alcohol used by those under the age of 21 years

If you choose to drink, do so in moderation:

- **DON'T DRINK AT ALL** if you are under the age of 21, or if you are or may be pregnant, or have health problems that could be made worse by drinking.

- **FOR WOMEN**, up to 1 drink a day

- **FOR MEN**, up to 2 drinks a day

  - **NO ONE** should begin drinking or drink more frequently based on potential health benefits.

National Center for Chronic Disease Prevention and Health Promotion
Division of Population Health
Excessive alcohol use has immediate effects that increase the risk of many harmful health conditions. These are most often the result of binge drinking. Over time, excessive alcohol use can lead to the development of chronic diseases and other serious problems.

DFSCA Annual Notice - 12
The following description is from the National Institute on Drug Abuse Website, which explain Drug use and Health Risks.

“Drug use can have a wide range of short- and long-term, direct and indirect effects. These effects often depend on the specific drug or drugs used, how they are taken, how much is taken, the person’s health, and other factors. Short-term effects can range from changes in appetite, wakefulness, heart rate, blood pressure, and/or mood to heart attack, stroke, psychosis, overdose, and even death. These health effects may occur after just one use.

Longer-term effects can include heart or lung disease, cancer, mental illness, HIV/AIDS, hepatitis, and others. Long-term drug use can also lead to addiction. Drug addiction is a brain disorder. Not everyone who uses drugs will become addicted, but for some, drug use can change how certain brain circuits work. These brain changes interfere with how people experience normal pleasures in life such as food and sex, their ability to control their stress level, their decision-making, their ability to learn and remember, etc. These changes make it much more difficult for someone to stop taking the drug even when it’s having negative effects on their life and they want to quit.

Drug use can also have indirect effects on both the people who are taking drugs and on those around them. This can include affecting a person’s nutrition; sleep; decision-making and impulsivity; and risk for trauma, violence, injury, and communicable diseases. Drug use can also affect babies born to women who use drugs while pregnant. Broader negative outcomes may be seen in education level, employment, housing, relationships, and criminal justice involvement.”

Drug and Alcohol Counseling/Treatment/Rehab Program

Students
From the DFSCA Biennial Report, which Counseling and Prevention Services provides, it states the following counseling, treatment, or rehab programs related to drugs and alcohol.

1. Counseling and Prevention Services maintains an online substance use assessment for students to utilize anonymously if they wish to gain feedback and learn about resources on campus.
2. Counselors at Counseling and Prevention Services are trained to conduct brief substance abuse counseling and appropriately refer to outside agencies for more extensive treatment if necessary.

Staff and Faculty
Staff and Faculty can reference Policy 4.32/Substance Abuse, which is used in dealing with faculty members with substance abuse problems and is intended to enhance and encourage a cooperative effort between faculty and the University and to serve and protect the interests of both.

Additionally, for all staff and faculty issues, a referral to the Employee Assistance Program is always an option. Through our State of Kansas EAP Program, alcohol and drug treatment may be offered through short term counseling or a referral to other community resources.
