This interactive session will promote data-driven planning, evaluation and quality improvement. Focus will be on building competence and confidence in utilizing data to inform program development. There will be opportunities for participants to gain hands-on practice and share stories. Attendance is strongly encouraged for all MCH, FP, PMI and TPTCM Aid to Local (ATL) grantees. Please bring laptop or tablet if possible.

Presenters: Randi Harms, MS, Implementation Lead, DAISEY Solutions; Lindsay Galindo, EdS, Research Project Coordinator, DAISEY Solutions; Hugh Naughtin, BM, Initiative Coordinator, DAISEY Solutions; staff from the Bureau of Family Health, Children and Families Section, Kansas Department of Health and Environment; staff from the Kansas Department for Children and Families

Attendees will:
» Learn to utilize and apply a framework to make meaningful decisions with data.
» Use their own DAISEY data to generate questions that help them better understand the populations they serve and services they provide to inform their practice.
» Understand how organizations have used DAISEY data and PDSA cycles to make small changes to move toward large goals.
» Learn to use data for program design and development, evaluation and quality improvement.
Pre-Conference Session

PUBLIC HEALTH

OVERVIEW

This workshop focuses on strategies for public health professionals to increase community engagement and improve collaboration to address substance abuse and other behavioral health issues that are impacting Kansas communities. Participants will learn more about the Strategic Prevention Framework and will better be able to answer important questions like 1) what is the problem and how can I learn more? 2) what is my community’s capacity to address this? 3) what should we do and how? 4) how can we put our plan into action? and 5) is our plan succeeding? This training will feature both didactic instruction and small group exercises.

Speaker: Carlton Hall, MHS, President/CEO, Carlton Hall Consulting LCC

AGENDA

9:00 - 10:00 AM  Check-in
10:00 - 11:00 AM  Using the Strategic Prevention Framework to Achieve Change
11:00 - 12:00 PM  Enhancing Capacity for Problem Solving
12:00 - 1:00 PM  Lunch

1:00 - 2:30 PM  Developing Comprehensive Strategies to Change Specific Local Conditions
2:30 - 2:45 PM  Break
2:45 - 3:45 PM  Building Membership Through Targeted Recruitment
3:45 - 4:00 PM  Questions and Wrap-up

OBJECTIVES

Attendees will:
» Describe the Strategic Prevention Framework, which is designed to achieve community-level change.
» Enhance their community’s capacity to develop a comprehensive community assessment and logic models for community problem solving.
» Enhance their community’s efforts to develop comprehensive strategies to change specific local conditions.
» Strengthen their community’s capacity to increase engagement.
Pre-Conference Session

KANSAS ALLIANCE FOR DRUG ENDANGERED CHILDREN

OVERVIEW

Children raised in environments where there is substance abuse, drug manufacturing, cultivation and distribution are often ignored, abused, neglected or abandoned. These drug endangered children are part of a large, growing population of children whose lives have been seriously and negatively impacted by dangerous drugs. Thousands of these children across our country go unnoticed and do not receive the necessary care and treatment to heal from these abusive and neglectful environments. If not identified, these children continue to be victims caught in a cycle of substance abuse. It is not possible to improve the living conditions for drug endangered children unless professionals are aware of the issues affecting their lives and of scientifically based, tested responses to those issues. This training looks at current issues of which professionals must be aware, the tragic result of inaction, and informed responses to the issues. The focus is on these children's needs throughout the entire process until the child is in a permanent, safe and positive functioning environment.

Presenters: Jennifer Gassmann, LBSW, DEC Specialist, Kansas Children's Service League; Cristi Cain, BS, Director, Local Public Health Program, Bureau of Community Health Systems, Kansas Department of Health and Environment; Robin Osterhaus; Aften Gardner, Administrator, Wallace County Health Department; Tim Eldredge, Narcotics Detective, Butler County Sheriff's Office; Sara Hortenstine, MS, Executive Director, Child Death Review Board; Sarah Knopf-Amelung, MA-R, Associate Director, Mid-America Addiction Technology Transfer Center; Kate Mallula, MPH, LMSW, Senior Project Manager, Mid-America Addiction Technology Transfer Center

OBJECTIVES

Attendees will:
» Become aware of the tragic consequences that can occur when children live in environments where there is substance abuse, drug manufacturing, cultivation and distribution of controlled substances.
» Understand the current trends with drug importation and abuse in Kansas that are putting children at risk.
» Identify three signs a child is drug endangered.
» Describe the impact of substance use on families.
» Explain the role of stigma in the lives of families with addiction histories.

2019 Kansas Governor’s Public Health Conference

ABOUT

The 2019 Kansas Governor’s Public Health Conference will feature nationally recognized keynote speakers on topics including addressing the social determinants of health, strategies for professional and personal well-being, public health messaging and a public health approach for impacting substance abuse. In addition, a wide selection of breakout sessions tailored to meet the changing needs of the populations served through public health programs and initiatives will be offered. The Maternal and Child Health, Family Planning and MCH Home Visiting sessions will address poverty reduction; youth engagement; long acting reversible contraceptives; partnering with schools; adolescent brain development; SBIRT (screening, brief intervention and referral for treatment); maternal depression screening; and more. The Public Health sessions will include topics such as disease outbreaks; health equity; suicide prevention; public health nuisances; stress reduction; Hurricane Harvey response and more. The conference will also include two café sessions that offer participants an opportunity to participate in roundtable discussions on topics including preparedness, opioid epidemic, KanCare overview, engaging fathers, referral tools, food policy, and more.

LEARNING OBJECTIVES

Attendees will:
» Describe two new approaches to better address public health needs in Kansas communities
» List at least two strategies for improving professional and personal well-being
» Identify best practices for addressing social determinants of health
» Define the invisibility crisis in public health
» List three strategies for communicating about the importance of public health
» Recognize the complexity of addiction and the impact of it on families

PREPAREDNESS FUNDING

Preparedness funds can be used to cover the cost of conference registration and travel for the Public Health Pre-Conference and/or the General Conference. If using Preparedness funds for the General Conference, participants must attend all keynote presentations and three of the following: STI Trends and Emergent Issues, Extreme Event Preparedness Game, Lessons from Hurricane Harvey, Infectious Disease Outbreak Investigations: Responding While Maintaining Services and Kansas Grant Management System (KGMS) (café).

A special thanks to Adrienne Hearrell, KDHE, for providing the cover photo for the brochure.
Keynote Presentations

Let It Go, Just Let It Go
Kent Rader, BS
Wednesday, April 3 • 8:30 - 9:45 AM
The stress reduction keynote is both entertaining and informative. Recent surveys report more than half of employees hate their jobs. The number one reason cited is the stress associated with today’s work environments. Having spent twelve years as CFO and CEO of hospitals, Kent Rader has experienced this stress first hand. This keynote program begins by showing participants the origins of stressful feelings and how humor is a proven tool in combating these feelings. Kent offers practical ways to include more humor in your life, along with stories guaranteed to make you laugh.

Public Health Practice in the Age of Social Determinants
Sarah Martin, PhD, MPP, MPH
Wednesday, April 3 • 3:30-4:45 PM
Public health agencies are increasingly being asked to do more work with less resources. As departments struggle to evolve into the “Public Health 3.0” model, how can we all learn to work smarter (not harder)? This keynote talk focuses on how to best influence other departments and sectors in order to grow your team outside the walls of your organization and make lasting change in your community.

The Invisibility Crisis
Umair Shah, MD, MPH
Thursday, April 4 • 8:00 - 9:15 AM
Local public health is facing a significant crisis across the country. It isn’t the latest 500 year storm or a large disease outbreak. It is about our work, which is oftentimes invisible. When people, including policymakers, don’t recognize the value of what public health does, they don’t realize it needs to be invested in. When people don’t invest in public health, communities suffer. There are many ways to address this crisis. We need people to see our work and value it which means we can no longer just be behind the scenes. It is critical that we are visible and engaged. We must use the latest communication strategies and technologies like social media. Learn how to emerge together from the cloak of invisibility.

Through a Child’s Eyes: Understanding Addiction and Recovery
Jerry Moe, MA
Thursday, April 4 • 12:45 - 2:00 PM
Children have a unique perspective in viewing the world. While it’s long been held that alcoholism and drug addiction are a family disease, there are relatively few opportunities for children to be an integral part of the healing process. Come learn about how children get impacted by addiction and how they see it in their families. More importantly, learn specific strategies and messages that can make a real difference in their lives. There is much hope today for these kids.
WEDNESDAY, APRIL 3

Check-in and Continental Breakfast

Welcome
Laura Kelly, Governor (Invited)
Lee A. Norman, MD, Acting Secretary

Keynote Presentation
Let It Go, Just Let It Go
Kent Rader, BS

Break and Visit Exhibits

Breakout Sessions

1.1 An Integrated Approach to Addressing the Social, Emotional, and Mental Health Needs of Students

The “Kansans Can Vision,” established by the Kansas State Board of Education, has Kansas schools rethinking and redesigning the mission of schooling. This integrated presentation will focus on the State Board of Education goal for social-emotional growth from three unique perspectives; 1) social-emotional and character development standards, 2) trauma informed practices, and 3) practices addressing poverty. Join us as we explore ways to reshape the culture and climate of schools in Kansas.

Cindy Hadicke, MS, Elementary Education Consultant, Kansas State Department of Education; Myron Melton, MS, School Mental Health Consultant, Kansas State Department of Education; Kent Reed, MEd, School Counseling Consultant, Kansas State Department of Education

1.2 Youth Engagement in Reno County

Youth engagement must involve true youth participation. Attendees will learn how young people have the power to make and implement decisions and changes, with a shared responsibility for their own outcomes. Youth participation is defined as things done by youth. It’s essential elements are: youth directing their own activity, youth taking responsibility, and youth making change. Youth will share how they have achieved these outcomes.

Sondra Borth, BA, Community/Executive Director, Communities That Care (CTC); Carla J. Smith, Program Coordinator, Communities That Care (CTC)

1.3 STI Trends and Emergent Issues

This session will discuss the current conditions related to sexually transmitted infections (STIs) in Kansas. Topics covered in this discussion will include updated morbidity data through calendar year 2018, comparison of state and national morbidity trends, ongoing monitoring of resistant gonorrhea, STI outbreak responses, and the growing concerns of congenital syphilis infections in Kansas.

Scott Strobel, BA, Disease Intervention Section Chief, Bureau of Disease Control and Prevention, Kansas Department of Health and Environment

1.4 Why Are So Many Children and Teens Experiencing Suicidal Thoughts and Actions? Helping to Identify and Support Vulnerable Kids

The number of children and teens that are experiencing suicidal thoughts and actions has soared over the past decade. This has become a national public health crisis. Admiring the problem is not an option. Immediate action is required! This session features real-world case studies, evidence-based strategies, and other tools that will help those in the field to identify and support vulnerable kids. The goal is to help improve life trajectories and to save lives.

Bryan Pearlman, PhD, Founder/Lead Trainer, Most Valuable Professional Development; Co-Founder/Board Member, Distinguished School of Mental Health and Wellness

1.5 Engaging for Change: A Panel of Local Public Health Leadership Series Alumni

In this session, participants will learn how Local Public Health Leadership Series (LPHLS) Alumni have engaged in the activity of leadership to address challenges in their organizations and communities. Panelists will discuss how the ideas and skills learned in the LPHLS have
## Conference Agenda

### 2.1 Engaging and Retaining Families in Home Visiting

The panel presenters from Southeast Kansas and Wyandotte County will provide the audience with strategies for engaging families in home visiting and retaining them in services once they have enrolled. The presenters will also discuss collaboration within their communities and the incentives they provide families to engage in home visiting.

**Michelle Harrod**, Southeast Kansas Community Action Program; **Anne Marie Jackson**, KU Medical Center; **Allison Jay**, Southeast Kansas Community Action Program; **Jenny Taylor**, Home Visiting Program Manager, Kansas Department of Health and Environment; **Cathy Shald**, My Family, Four County Mental Health Center; **Martha Trujillo**, KU Medical Center; **Becky Whitney**, KU Medical Center

---

### 2.2 The Case for LARC

This session will clarify what exactly long acting reversible contraceptives (LARC) are and address the common myths surrounding the use of this contraceptive method. The presentation will focus on why LARCs must be considered as part of a comprehensive approach to decreasing poor birth outcomes, poor maternal outcomes, and unintended pregnancies in the state of Kansas. Tools and resources for implementing LARC in your clinical practice will also be shared.

**Terrah Stroda**, CNM, MSN, ARNP, Certified Nurse-Midwife/ARNP, Geary Community Hospital; Co-Founder/Medical Director, Delivering Change: Healthy Moms, Healthy Babies

---

### 2.3 Health Equity: Assuring Equal Opportunities for Health

This practical session explores health equity and how to work together to assure equal conditions for healthy living and well being for all. In the first interactive segment, we will dialogue on what it is, why it matters, and how social determinants produce inequities in health outcomes related to who we are and where we live. In the second segment, we will present two case examples. The cases will explore organizational structure, accomplishments, and lessons learned. In the final segment, we describe the new Maternal and Child Health Opportunity Project.

**Vickie Collie-Akers**, PhD, MPH, Associate Professor, Department of Preventive Medicine and Public Health, University of Kansas Medical Center; **Stephen Fawcett**, PhD, Senior Advisor, Center for Community Health and Development, University of Kansas

---

### 2.4 Extreme Event Preparedness Game

Extreme Event is an award-winning, in-person, role-playing game that gives participants a taste of what it takes to build community resilience in the face of disaster. Players work together to make decisions and solve problems during an engaging, fast-paced disaster simulation. Developed by the National Academy of Sciences’ Koshland Science Museum (now LabX) in collaboration with the Resilient America Roundtable, Extreme Event’s content draws on recommendations from the seminal National Research Council report, Disaster Resilience: A National Imperative, and has been reviewed by experts and staff of the national academies.

**Tyson Rensch**, MPH, KansasTRAIN Coordinator/Administrator, Kansas Department of Health and Environment

---

### 2.5 Rights and Responsibilities of Kansas Tenants and Landlords

This session is designed for tenants and their advocates and will cover both tenant and landlord responsibilities outlined in the Kansas Residential Landlord and Tenant Act as well as local municipal codes and ordinances. The session also details common nuisances and overall habitability issues. Attendees will learn strategies for addressing

**1:45 - 2:00 PM**

**Break and Visit Exhibits**

---

**2:00 - 3:15 PM**

**Breakout Sessions**

### 3.1 Intimate Partner Violence: Turning a Public Problem into a Public Health Priority

Once considered to be a private, family matter, intimate partner violence (IPV) affects every community and a staggering number of individuals and families. IPV contributes to an array of negative health impacts and subsequent healthcare costs. However, IPV is preventable and its impacts can be mitigated. This session will leave participants with a better understanding of the dynamics of IPV, its impact on health, and how the field of public health can proactively address this problem.

**Sarah Hachmeister**, MA, Accreditation and Technical Assistance Coordinator, Kansas Coalition Against Sexual and Domestic Violence

### 3.2 Ready to Learn: The Role of School-Based Health Services

Since 2003, the Community Health Center of Southeast Kansas has been committed to improving the health of children to ensure that they are "ready to learn." CHC/SEK’s School Health program is designed to improve the physical, social and emotional health and education development of students through the provision of on-site, medical, dental, behavioral health and school nursing services. In this session participants will gain important insights for understanding the correlation between education and health, and also the opportunities and challenges in delivering school-based health services.

**Ashley Hooper**, BSHA, School Health Services Director, Community Health Center of Southeast Kansas

---

### 3.3 More Joy, Less Stress

According to research, 80 percent of American workers feel stress on the job. Nearly half say they need real help in dealing with job-related stress. Findings from a recent study suggest that mindful meditation can help ease psychological stress. In fact, just eight weeks of mindfulness training is enough to cause significant changes in the brain and has been associated with increased happiness.

**Connie Porazka**, BA, Co-founder, Retreat to Joy

---

### 3.4 Addressing Public Health Nuisances in Your Community

Local public health professionals encounter a wide array of nuisances as part of their work. Addressing nuisances often is made more complex because of where they occur (within city limits or in the county). This presentation will provide strategies and best practices for addressing nuisances, including resources and information about state regulations that may be useful. There will also be an opportunity for participants to share their nuisance challenges, which will then be discussed in the session.

**Jennifer Nichols**, North Central District Environmental Administrator, Kansas Department of Health and Environment

### 3.5 Compassionate Customer Service IRL: Tips for Becoming the “Go To” Organization in Your Community

Compassionate customer service is key to building positive, long-term relationships with the people you serve. Quality customer care = better customer outcomes. Join us to hear strategies you can use “in real life” to improve customer service from the first contact to the last and hear from one local health department about how changing their work culture is impacting how they do business.

**Vanessa Lohf**, LBSW, Project Specialist, WSU Center for Public Health Initiatives; **Shelly Schneider**, RN, Administrator/Health Officer, Barton County Health Department
Conference Agenda

3:15 - 3:30 PM

Break and Visit Exhibits

3:30 - 4:45 PM

Keynote Presentation

Public Health Practice in the Age of Social Determinants

Sarah Martin, PhD, MPP, MPH

4:45 PM

Day One Adjourn

5:00 PM

Opioid Grantee Session, (Invite and pre-registration required)

THURSDAY, APRIL 4

7:00 - 8:00 AM

Breakfast Buffet

8:00 - 9:15 AM

Keynote Presentation

The Invisibility Crisis

Umair Shah, MD, MPH

9:15 - 9:30 AM

Break

9:30 - 10:45 AM

Breakout Sessions

4.1 Understanding the Teen Brain

New research provides many insights into adolescent brain development. This presentation will discuss how the teen brain develops and how adults may better work with teens. We will discuss how teens grow and change and how these changes impact their behavior, decision making and motivation. How stress, friends, sleep, risk-taking, rewards and social media influence teen behavior will also be addressed, along with strategies for enhancing teens’ abilities to be mindful and self-regulate. Come with questions and issues to discuss about your work with teens!

Judith W. Herrman, PhD, RN, ANEF, FAAN, Emerita/Adjunct Professor, School of Nursing, University of Delaware

4.2 How to Integrate SBIRT and Mental Health Screening Into Comprehensive Women’s Care

With the opioid epidemic and growing rates of depression and suicide, there is a general acceptance for the need to more fully address substance use as well as mental health in a comprehensive practice. This session will introduce participants to screens for substance use and mental health. It will also address how to implement them into a more integrated approach to care for women. There will be a focus on screening, brief intervention and referral to treatment (SBIRT) and maternal mental health. In addition, we will discuss barriers to screening and intervention.

Christina Boyd, LSCSW, LCAC, Western Kansas MSW Program Director, University of Kansas School of Social Welfare, CEO/Founder, Hope and Wellness Resources; Melissa Hoffman, DNP, APRN, PMHNP-BC, Registred Nurse, Lawrence Memorial Hospital

4.3 Lessons Learned from Hurricane Harvey

Hurricane Harvey was the second costliest disaster in U.S. history (behind Hurricane Katrina). During the duration of the storm, Southeast Texas received the most rainfall from any tropical system in the continental U.S. Over 13,000 people were rescued and over 30,000 were displaced as the result of flooding. Across Texas, more than 300,000 were left with no electricity for an extended time period. Hear from the county health officer who led the public health response to one of the worst disasters in U.S. history. Dr. Shah will share the challenges as well as the lessons learned from this momentous catastrophe.

Umair Shah, MD, MPH, Executive Director, Harris County Public Health

4.4 Behavioral Health is Public Health: The Relationship Between Mental Illness, Substance Abuse and the Impact on the Public Health System

This session will explore the relationship between behavioral health systems of care and public health in Kansas. Areas of need and mutual concern including mental illness, substance abuse, suicide, early childhood mental health and other targeted...
areas will be addressed. The session will emphasize ideas and strategies for behavioral health systems and public health agencies to work together effectively in local communities.

**Steve Denny**, LSCSW, LCAC, Director of Clinical Services, Four County Mental Health Center, Inc.

### Café Sessions: Participants can attend three of the following 20-minute sessions

- WSU Badge Program
- Supporting You Program
- KSWebIZ Report Functionality
- Strengthening Community Referral Networks With IRIS
- Childhood Injury Prevention
- Food Security
- Rocket 21/ LYFTE
- Engaging Fathers
- Medicaid/KanCare Overview

---

**Break**

---

### Infectious Disease Outbreak Investigations: Responding While Maintaining Services (panel)

Join a facilitated discussion with three local health department representatives who will share their challenges and successes related to maintaining services to the community during an outbreak investigation response.

**Allison Zaldivar**, MPH, Epidemiologist, Kansas Department of Health and Environment

---

### Sex Trafficking: Hidden in Plain Sight and the Role of Social Media

In this session, participants will gain a better understanding of domestic minor sex trafficking (DMST), the harsh business of selling minors for sex, including the demand for students to be sold to sex buyers and the overlap between child sexual abuse and DMST. Participants will also learn the real foundations of the health problems experienced by victims; what provider experiences reveal about victims; and indicators of physical, emotional, and mental control. Be empowered to recognize manipulation tactics, ask the right questions and know when to step outside “fill in the blank training” in order to truly make a compassionate difference.

**Teri Garstka**, PhD, Associate Director, KU Center for Public Partnerships and Research; **Randi Harms**, MA, Assistant Director, KU Center for Public Partnerships and Research

---

**Steve Denny**, LSCSW, LCAC, Director of Clinical Services, Four County Mental Health Center, Inc.

---

### Using Data and Technology to Connect Families to Services in Connected Communities

Families have complex needs that no one organization or program can meet alone. Organizations collaborate through referrals to ensure these needs are met. This process is often disjointed, with each organization having its own preferences for making and receiving referrals. In this interactive session, we will address how technology, including IRIS (Integrated Referral and Intake System) with community-based implementation and multi-sector coordination approaches like Help Me Grow, SBIRT, and opioid response, can empower organizations to develop and foster family-centered referral networks and connected communities.

**Teri Garstka**, PhD, Associate Director, KU Center for Public Partnerships and Research; **Randi Harms**, MA, Assistant Director, KU Center for Public Partnerships and Research

---

**Russ Tuttle**, BA, Founder/President, The Stop Trafficking Project, Inc.
Café Sessions: Participants can attend three of the following 20-minute sessions

- WSU Badge Program
- Engaging Families
- Childhood Injury Prevention
- Rocket 21/ LYFTE
- Food Security
- KGMS
- PHEP Update
- Update to the Opioid Epidemic
- KSWebIz Report Functionality

Lunch 12:15 - 12:45 pm

Keynote Presentation Through a Child’s Eyes: Understanding Addiction and Recovery
Jerry Moe, MA

Conference Adjourn 2:00 pm

Opioid Grantee Session
The Opioid Crisis Response Cooperative Agreement Statewide Meeting will be Wednesday, April 3 from 5:00-7:00 p.m. This event is for staff from local health departments that received a grant as part of this project. (Invite and pre-registration required. Please select this as a session through conference registration.)

Continuing Education

Nursing
Wichita State University College of Health Professions is approved as a provider of continuing nursing education by the Kansas State Board of Nursing. This course offering has been pre-approved for contact hours applicable for RN, LPN, or LMHT relicensure. Kansas State Board of Nursing provider number: LT 0090-0327. These course offerings are approved for 6.6 contact hours for the MCH Pre-Session, 5.7 contact hours for the Public Health Pre-Session, 6.8 for the KADEC Pre-Session and 13.5 contact hours for the General Session, all for RN or LPN relicensure.
