

WICHITA STATE
UNIVERSITY
TRAINING AND
TECHNOLOGY TEAM (T3)

INNOVATE MORE WITH T3

OVERVIEW

T3 is an innovation-driven technology unit under the Research & Technology Transfer Division at Wichita State University. We are committed to excellence and driven to stay ahead in the fast moving world of technology.

VISION

We are on a mission to innovate new solutions, accelerate creativity and collaborate with universities, government agencies, and commercial businesses.

DISCOVER.CREATE.TRANSFER.

“

...our experts at T3 are great examples of Wichita State University's innovative and diligent use of technology to accelerate the discovery, creation, and transfer of new knowledge...

DR. JOHN BARDO, PRESIDENT

Success

FOR ALL STAKEHOLDERS

Our projects and solutions bring value-added experiences to the businesses and university departments through:

Rate Checkup is an online analysis and forecast tool designed to help water systems of all sizes calculate water rate schedules.

GoLearn maximizes the communication of content with an eLearning experience that is vibrant, interactive and viewable on multiple platforms.

PASS is a powerful web-based interactive solution for collecting, storing, analyzing, and reporting assessment information to support accreditation efforts.

Hazard Communication Online Training provides information about the effects of potential exposure to chemicals at the workplace.

DARTS is a web-based solution for data management, evaluations and reports designed for GEAR UP, TRIO and college access programs.

CAST is an offline data collection tool that supports work performance efforts when an internet connection is limited or not available.

- ENTREPRENEURS

T3's partnership growth

Seizing Opportunities

T3's presence at WSU Old Town has fostered integration within the community and increased more partnership possibilities.

WSU students that work with T3 graduate with an impressive resume that is the direct result of T3's mentorship, professional development opportunities and working in a fast-paced production atmosphere.

DR. JOHN TOMBLIN, VICE PRESIDENT FOR RESEARCH AND TECHNOLOGY TRANSFER

APPLIED LEARNING

*T3 provides structure and a collaborative team approach to prepare our **students** for future **success**.*

T3 PROMOTES PERSONAL AND PROFESSIONAL DEVELOPMENT THROUGH:

- Utilizing cutting-edge technologies
- Challenging our team members
- Providing opportunities to work on real-world projects
- Fostering best practices with time, task and project management
- Embracing cultural diversity through a collaborative team environment

INTERDISCIPLINARY EXPERIENCES

Our work results from the expertise of our students and staff from multiple colleges.

POSITIVE OUTCOMES

TEAMWORK

- Expanding team skills
- Streamlined communication
- Enhanced productivity
- Ability to grow with demand
- Maintaining operational efficiency

POSITIVE RISK-TAKING

- New ideas are encouraged from thinking outside the box.
- Methodical analysis provides information to support decision-making.
- Detailed planning enhances effective, streamlined production throughout each project.

STRATEGY TO NEW CHALLENGES

- Explore new domains
- Comprehensive research and development phase
- Partner with subject matter experts

ADAPTIVE APPROACHES

EXTERNALLY: The economic landscape has dictated adaptive measures to team structure.

INTERNALLY: A streamlined project approach fosters productivity and accelerates output.
