

## Coffee With Cops – March 2020

Consistent with one of our missions being community outreach and engagement, we have held a few times this event series that lets community members to get to know the officers of the Haysville Police Department by asking questions and voicing concerns. It helps break down the barriers between the police officers and the citizens they serve. These events are held nationwide in hopes of allowing the officers and the community they serve to connect on a more personal level and allow for concerns to be expressed and hopefully addressed in a reasonable manner.
