STEM

Non-Tenure Track

"This material is based upon work supported by the National Science Foundation under Grant #: 1937921."

Baseline stats 2018 Tenure track

WSU STEM compared to National STEM

Biomedical newest department

"This material is based upon work supported by the National Science Foundation under Grant #: 1937921."

Project objectives

Assess the barriers to recruit, retain and advance STEM women and URM faculty

Institutional data; focus groups with NTT faculty, Assistant, Associate, and Professors; COACHE Faculty Job Satisfaction Survey

Create a five-year strategic plan to address the barriers

Outcomes: Hiring

Have institutional recruitment and hiring processes led to the underrepresentation of women and URM STEM faculty? If so, which ones?

Proportion of female tenure track faculty hired

STEM Tenure Track Hiring 2018

%F applicants vs %F PhDs nationally (IPED)

"This material is based upon work supported by the National Science Foundation under Grant #: 1937921."

Outcomes: Tenure and Promotion

Are women being tenured and promoted at the same rates as male counter parts?

Are women stuck at associate professor level?

Tenure and Promotion

STEM Faculty

100% (5) Female vs 95% (24) Male

All Faculty

88% (41) Female vs 92% (57) Male

STEM Faculty

No difference in time spent as Associate Professor before promotion to full- *7yrs* for both male and female

Current Associate Professors with > 6 years @ associate

	Male	Female
Ave. # Years	17.1	13.6
# faculty	19	5

Advancement and Support

What are the barriers to advancement and success?

"This material is based upon work supported by the National Science Foundation
under Grant #: 1937921."

COACHE: All WSU Female Faculty

"This material is based upon work supported by the National Science Foundation under Grant #: 1937921."

General Issues Identified by Focus Groups

Equal work for equal pay and benefits

Better representation at WSU administrative/levels

Clear and consistent guidelines and expectations

The lack of mentoring and affinity groups

Issues Identified by Focus Groups Female STEM Faculty

Lack of support for advancement

Bias/misperceptions about female faculty

Unclear path/opportunity for advancement (NTT and TT)

Women given less prestigious tasks

'We [women] bare the brunt of family issues'

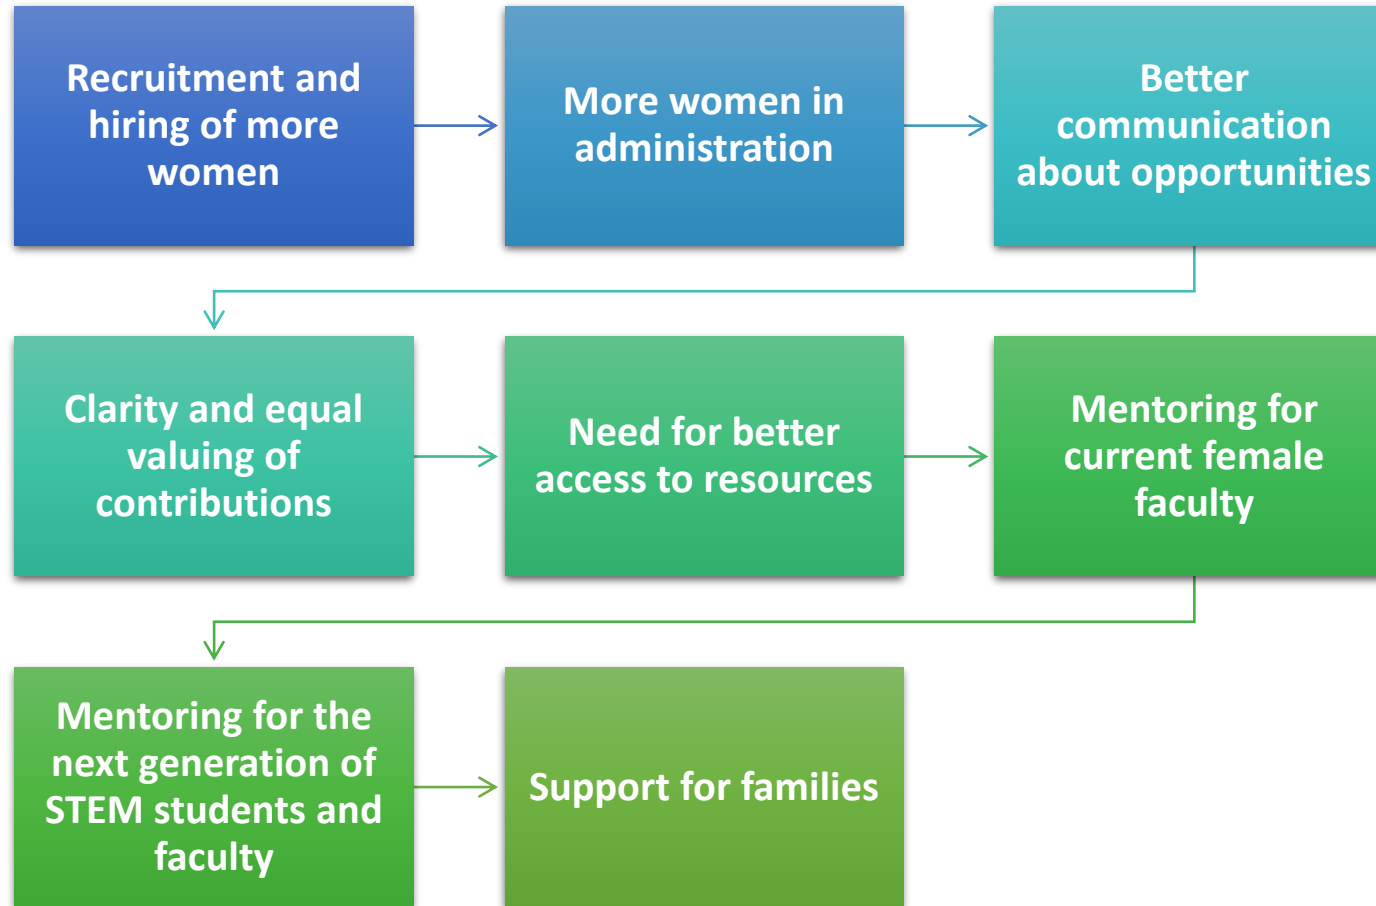

Lack of support for and value of teaching

Women aren't heard or listened to

Focus Groups Recommendations

Female STEM Faculty

"This material is based upon work supported by the National Science Foundation under Grant #: 1937921."

Few observations for Women STEM Faculty

- Too few females and URM faculty at all ranks, especially full professor
- Female candidate pools low
- T&P does not appear to be problematic, but we will continue to monitor
- Clarity and communication of expectations for T&P and advancement
- Mentoring

Thank you
