- Math / Statistics

**Courses must be approved as C2, C4, C6**

- Natural Science/Math 1 Lab?____
- Natural Science/Math 2 Lab?____
- Natural Science/Math 3 Lab?____

---

**College Requirements:**

Specific General Education courses may be required by individual colleges or programs. Academic advising is an important part of a student's undergraduate experience. Students should meet with an adviser in the college of their major before registering for classes each semester. These advisers will help students understand the undergraduate experience at WSU and assist in selecting classes that meet the students' needs and the requirements for the degree and major.
