Sport Management Grad Students Win Competition at Research Symposium

(L) Sarah Willey, (R) Julica Bonsall

Congratulations to Sport Management graduate students Julica Bonsall and Sarah Willey on winning best presentation, poster category for the College of Education at the 2013 WSU Graduate Research Symposium. The event was held Wednesday May 8 in the Marcus Welcome Center, Wichita State University.

Their project was called "Origin of Fan Identity." The purpose of this research is to identify the origin of fans' identity while analyzing levels of commitment to teams. Results of a survey of more than 300 people indicated sport fan identity is a multifaceted process involving differing motivations and origins. The factors of family, regional locations and uniform color scheme appeared important to many fans. Based on these findings, the investigators made recommendations to sport and physical activity practitioners.

The Symposium is designed to (i) spread awareness on campus about the state-of-the-art research and scholarly projects being conducted; (ii) showcase the world-class graduate research to the wider community; (iii) highlight the participation of graduate students in research/projects and recognize their contributions to their fields; (iv) recognize research mentoring of the faculty advisors; and (v) provide a forum for graduate students to practice presentation skills in research and scholarly activities.
