Financing Innovations in Asthma Care

Midwest Regional Asthma Financing Webinar Series

6.26.19 | 10:30 am - 12 pm (CST)

New!

Asthma Financing Webinar Series

In-home asthma care has proven to reduce symptom days and health care costs, yet these services are rarely covered by insurance providers or Medicaid. How can we work together to reduce the financial and health burden of asthma care?

WSU Environmental Finance Center's new monthly webinar series, hosted by national and regional asthma care experts, will teach you how to make greater progress towards sustainable financing for in-home asthma care, and serve as a catalyst for collaboration between key regional and state agencies.

What:

New monthly webinar series hosted by national and regional asthma care experts.

When & Where:

Monthly from Summer to Fall
10:30 am - 12 pm (CST)

Webinar 1: June 26
Future webinars and speakers TBA

Can't make it to the webinar? Register now and we will email you the live recording to watch on demand.

June 26

"Financing Innovations in Asthma Care"
with Ruth Ann Norton

Ruth Ann Norton, President and CEO of Green & Healthy Homes Initiative, will share how her organization has pioneered asthma care financing strategies across the country. She'll also address how your organization can improve financing options for your community and share her advice on what works, and what doesn't.
