

WORK IN WATER EXPERIENCE

for students

The Work in Water Experience introduces students to the vast range of career opportunities in the water industry, and is a great activity to add to high school resumes! This unique, hands-on learning program teaches the skills, technology and jobs that are working to ensure the public has access to safe, healthy drinking water and water recycling resources.

Why Should Students Attend?

- Fun day of career exploration and learning with friends.
- Hands-on experiments, interactive projects and a field trip to your local water utility.
- Use this experience to build your high school resume!
