2022 NEWSLETTER

IN THIS ISSUE

- 1 Letter from the Chair
- 2 Program Summaries
- 7 Student Achievements
- 11 Recent Internships
- 13 Featured Alumna
- 14 Recent Grants, Publications, & Proceedings

LETTER FROM THE CHAIR

The Psychology Department has continued to be a leader in the University by bringing in grant dollars, publishing in top journals, and presenting our research nationally and internationally. Leadership in the department has changed and **C. Brendan Clark** has taken over as chair.

This year we recognized our outstanding Alumni and graduate students. We held our seventh Annual Psychology Awards Ceremony: Graduate students were also honored: **Kevin Morales** (Human Factors), **Sarah McGill** (Community-Clinical), and **Rosalind Canare** (Community). The Psychology Graduate Student Organization also recognized outstanding faculty and the honor was bestowed upon **Dr. Jennifer Demers**. The Psychology department continues to: 1) provide accessible education to our undergraduates and 2) address pressing

community and industry research needs. Our departmental psychology clinic continues to serve the mental health needs of the Wichita community. Furthermore, we saw an incredible number of campus visitors this year as psychology is a very popular major with adult learners and those seeking degrees online. We hope to build upon this momentum of growth and change.

This year our faculty, graduate students and undergraduates will continue to do excellent work. You have made the reputation of the department what it is today: Phenomenal!

Psychology is always shining.

Let's continue to Research, Teach, Inspire, and Motivate

COMMUNITY PROGRAM

DR. RACHEL DR. RACHAEL GOODMAN - WILLIAMS COMMUNITY COORDINATOR

The Community Psychology program has been extremely busy this academic year. The **Community Responses to Sexual Assault (CRSA)** research group is led by Dr. Rachael Goodman-Williams. This fall, they were thrilled to welcome doctoral student **Danette Abernathy** and undergraduate research assistants Bailey Countermand and Kristy Mace to the team. They are joined by returning undergraduate research assistant Estella Armenta and now third-year graduate student Kat Fishwick. In the last year, the CRSA research group continued their research-community collaboration with the Medical Forensic Unit at Adventist HealthCare Shady Grove Medical Center in Rockville, Maryland. Shady Grove's amazing team of forensic nurses provide phenomenal acute and follow-up services to survivors of crime, and the team is honored to work with them to understand the needs of sexual assault survivors, particularly those who choose alternative reporting options in the aftermath of assault. The CRSA research group has finished qualitative analysis exploring the reasons for nonreporting among survivors who choose alternative reporting options and presented these results at the Society for the Psychology Study of Social Issues conference in San Juan, Puerto Rico, in June. They also recently finished collecting twelve years of quantitative data with these same partners and are excited to start their next analysis. Finally, they continue to analyze data from the Preven-

tion Curriculum Project, which includes 20 interviews with sexual assault/domestic violence preventors across the Midwest, and the team looks forward to sharing results from that analysis in the coming months.

DR. JENNIFER DEMERS

The **Social Action, Violence, and Inequities (SAVI)** research group, is lead by Dr. Jennifer Demers. SAVI Lab undergraduate research assistants, **Savannah Redfern** and **Ava Munzinger-DeFrain** graduated with their Bachelors in Psychology this past spring. **Ava** is now pursuing a doctorate in the Wichita State School Psychology Doctoral Program. **Savannah** is pursuing a Masters in the Marriage & Family Therapy Program at Dominican University of California. Both received first place at the WSU URCRA Forum. The SAVI Lab welcomed a new undergraduate research assistant this year, Psychology major, **Alondra Valle**.

In addition to writing up several manuscripts for publication, the SAVI Lab is currently in the process of conceptualizing numerous new studies for 2023, including: a collaboration with **Dr. Hannah Wing**, Professor in WSU's Elliott School of Communication, on online disclosure of victimization experiences as a form of activism; an experimental design related to sexual violence themes in comedy; an intersectional study on language preferences among fat and trans survivors; an exploration of the potential impacts of extensive media coverage of the Depp/Heard defamation case;

examining knowledge of interpersonal violence and survivor support among psychology doctoral students; and a collaboration with artist and WSU alum, **Lydia Humphreys**, MFA, on survivor art as visual protest, among others.

Madi DeFrain, M.A. received their Masters this past summer and completed a 2YP on, "Perceptions of sexual violence-related scenarios: The effect of victims' gendered features on attributions of responsibility and blame." Graduate student **Robin Moore** won the Grant Y. Kenyon Endowed Memorial Scholarship/Fellowship for 22-23, and was elected President of PGSO. **Melissa Miller** was elected to be both the Student Representative of the Women's SIG and the Student Representative at large for the Association of Contextual Behavioral Psychology, and presented at the National Association of Contextual Behavioral Psychology in San Francisco. She provided two workshops with colleagues from the University of Louisiana at Lafayette including Functional Vulnerability. She also presented a symposium, The Drama of Trauma: Conceptualizing and in Destigmatizing the Buzzword and spoke on the panel, The Diffusion of Defusion: Disseminating and Promoting Contextual Behavioral Science through Popular Media.

DR. RHONDA LEWIS

The **Behavioral Community Research and Action Team (BCRAT)**, led by **Dr. Rhonda Lewis**, was busy conducting a community needs and asset assessment survey and listening sessions in the community on Racial and Ethnic minority involvement in the juvenile justice system. The results

were presented at a virtual conference for Team Justice, a local advisory council.

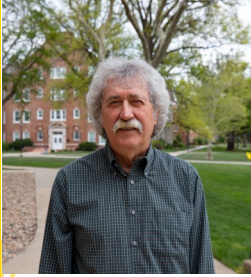

The results were also presented at the Society for Community Research and Action. Dr. Lewis was a part of the presidential opening at the Society for Community Research and Action Biennial Conference in June 2021. BCRAT continues to provide capacity building to community agencies in the community. We welcomed **Ngoc Vuong** and **Alex Wren** to the BCRAT family as incoming graduate students. We are super excited to have them join our Community Psychology program.

Current team members: **Ngoc Vuong**, **Alex Wren**, **Josh Villa**, and **Rosalind (Roz) Canare**. **Rosaline Canare** also defended her dissertation this Fall. Finally, **Dr. Thomas Skinner**, has a new job at the University of Kansas. He is the Principal Research Analyst. **Dr. Tasha Parker**, has her own Consulting Company called Institute of Development. **Dr. Stormy Malone**, is a Visiting Assistant Professor, Department of Psychology at the University of the South, in Sewanee, TN.

Congratulations goes to our Alumni of the Year winner!

Dr. Tara Gregory, who has worked as a researcher, and Director for the Center for Applied Research and Evaluation (CARE) at the WSU Community Engagement Institute since 2005, was selected as the 2022 Community Psychology Alumni of the Year winner.

CLINICAL PROGRAM

DR. ROB ZETTLE
DIRECTOR OF
CLINICAL TRAINING

Dr. Robert Zettle received the President's Distinguished Service Award in May and was named a Fellow within the Association of Contextual Behavioral Science in June.

This Spring during the department's award ceremony, the Clinical program was proud to present Dr. Shani Turner with its alumna of the year award. Dr. Turner is a graduate of our program and is an Assistant Professor in the Clinical

program and is an Assistant Professor in the Clinical Psychology Department, the Director of the PATHWAYS Program, and the Director of the African & Caribbean Mental Health Concentration at William James College. The students in the Clinical program continue to thrive. Huan Quan completed a psychology practicum at WSU Counseling and Prevention Services in the last academic year. Jonathan Larson completed a practicum in the Department of Psychiatry & Behavioral Sciences at KU School of Medicine – Wichita. The Initiatives Supporting Positive Youth Relationships (INSPYRE) Lab, run by Dr. Samantha Gregus Slade, has been continuing an active research agenda and community-based initiatives within the Wichita Public School district. The lab is excited to have a team of Lunch Buddy mentors return to the

Gregus Slade

Wichita Public Schools. In this program, undergraduate student mentors are paired with an elementary school child and aim to improve their mentee's peer interactions at lunch and recess.

The Behavioral Economics and Cooperation team, run by Dr. Brendan Clark, focuses on cooperation, trust, and fairness with an emphasis on how social decision making differs among those with men-

DR. BRENDAN
CLARK
DEPARTMENT
CHAIR

tal illnesses. The team's research examines the association of social cognition, cooperation, and mental health. Dr. Clark's current work is an attempt to assess the nature of interpersonal conflicts and their impact on mental health through the use of a behavioral economic paradigms. He hopes to identify ideal patterns of cooperation and then learn how mental illness can impact these patterns of behavior. The final aim of his research is to develop clinical interventions to improve the social skills of individuals in mental health treatment. While the group has mainly studied antisocial behaviors and ways of mitigating these behaviors, Dr. Clark's lab has recently been collaborating with Sway Medical to validate assessments for Traumatic Brain Injury and other neurological conditions. The group is also working on a project to identify optimal charging stations for electric vehicles in Kansas. Sarah Hrencher is working on her 2yp, while Mouhamad Ballout, Amy Bauman, Jacob Armstrong, work on their dissertations. Ryley Skinner, Marta Pena, Krystal Moroney are on internship, while Karen Martinez and Shannon Bauerman are in neuropsychology postdocs.

HUMAN FACTORS PROGRAM

Congratulations to our Human Factors program on another fantastic and productive year!

Drs. Baldwin, Lei, Suss, and Vangsness assisted the FAA with developing Human Error taxonomy for the purpose of flight deck certification.

DR. CARRYL BALDWIN HUMAN FACTORS PROGRAM COORDINATOR

The **Wichita Auditory Research Group (WARG)** Lab lead by **Dr. Carryl Baldwin** conducted research on issues such as how people understand advanced automation systems in vehicles, using EEG to better understand the benefits of AR/VR training and con-

tinued work sponsored by NHTSA examining the necessary level of vigilance and vigilance maintenance strategies for Level 2 and Level 3 partially automated vehicles.

The **Regional Institute of Aging (RIA)**, also led by Dr. Baldwin, conducted several focus groups examining the strategies older adults were using to cope with social isolation due to the pandemic. The RIA also hosted the first **University Community Innovations for Positive Aging (UCIPA) Conference**. **Kevin Morales** continued his internship at National Institute for Aviation Research. **Shivani Nagrecha** conducted research examining the mental workload and stress associated with nuisance alarms in a medical setting. **Steven Chong** conducted research examining the impact of different forms of music on memory.

DR. JOEL SUSS

decision-making simulator. The simulator is part of a grant awarded by the National Institute of Justice and the lab collected data aimed at investigating the effect of online cognitive skill training on police officers' decision-making. **Monica Connelly** is making continued progress on her research and conducted research with the Human Error Taxonomy Grant. **Dakota Scott** was selected for the Naval Research Enterprise Internship Program, as well as the Department of Defense Science, Mathematics, and Research for Transformation (SMART) Scholarship-for-Service Program. Benefits include full tuition and education related expenses, monthly stipends, paid research internships, health and miscellaneous allowances, an experienced mentor at the Naval Information Warfare Center (NIWC) – Pacific, and employment placement at NIWC after he defends his dissertation.

DR. LISA VANGSNESS

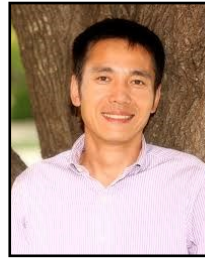

The Challenge, Metacognition, and Perception (ChaMP) Lab, directed by **Dr. Lisa Vangsness**, has accomplished much over the past year.

The Applied Cognition &

Expertise (ACE) Lab, directed by **Dr. Joel Suss**, continued its research on expertise in applied domains. The lab acquired a video-based law enforcement judgment-and-

Although Dr. Lisa Vangsness has departed to the University of Alabama at Huntsville, we would like to acknowledge the work of her current and previous lab members. Additionally, Dr. Vangsness is continuing her statistical consultation work with colleagues at WSU and abroad, and finished work on the Regional Institute on Aging Interdisciplinary Grant, and is currently serving as a co-PI on the Human Error Taxonomy Grant, and senior personnel on the Future of Work Grant. **Rachel Sutton** received a Ronald McNair Graduate Fellowship in 2022, published a First Author IEEE Conference Proceeding at the 2022 IEEE International Conference on Human-Machine Systems, received third place at the UCIPA Conference, and was the Human Factors recipient of the Distinguished Graduate Research Award. **Jade Driggs**, received a First Place finish at the WSU Graduate Research and Scholarly Projects (GRASP) Symposium, the Research Round Up Charles G. Halcomb Award (Outstanding Research in Human Factors), published a First Author IEEE Conference Proceeding at the 2022 IEEE International Conference on Human-Machine Systems, as well as a Second Author HFES Conference Proceeding at the Human Factors and Ergonomics Society Annual Meeting. **Stephen Monroe** published a First Author HFES Conference Proceeding at the Human Factors and Ergonomics Society Annual Meeting and conducted research with the Human Error Taxonomy Grant. All current and previous members of the ChaMP Lab are continuing to progress in their research.

DR. RUI NI

The **Visual Perception & Cognition Lab**, directed by **Dr. Rui Ni**, continues its active research on visual perception and cognition in 3D environments, perceptual learning, driving, and aging. He is continuing his active collaboration with colleagues in other institutions on a variety of projects, including research on working memory, visual attention, depth perception, and perceptual learning. **Abbie Hutton** and **Bill Bui** are making continued progress towards their research. **Dominic Canare** defended his dissertation this Fall!

DR. QUAN LEI

The **Vision and Accessibility Lab (VISA)** directed by **Dr. Quan Lei**, is also growing after being established in the Spring of 2020. They have been examining issues related to mobility in visually impaired individuals among other exciting topics. **Dr. Lei**, **George Altman**, and **Dr. Baldwin** conducted research related to Error Taxonomies. **George Altman** is continuing to make progress on his research relating to macular degeneration in older adults. **Bob Beran** is continuing to make progress on his research relating to visually impaired older adults. Finally, we would like to welcome our new graduate student, **Evelyn Wilson**! We are excited to see what great work she will do!

DEPARTMENT AWARDS AND ACHIEVEMENTS

Monica Connelly

Randall Chambers
Research Fellowship award

Dr. Jennifer Demers

2022 Faculty Member
of the Year Award
2022 WSU Tilford Diversity Fellowship

DISTINGUISHED RESEARCH AWARDS

Jacob Armstrong - Community-Clinical Psychology

Rachel Sutton - Human Factors

Madi DeFrain - Community Psychology

Dr. Rhonda Lewis

Society for Community Research
and Action Fellow,
American Psychological Association,
Division 27. 2022

2022 GRADUATE STUDENT OF THE YEAR AWARDS

Kevin Morales - Human Factors

Sarah McGill - Community-Clinical

Rosalind Canare - Community

Huan Quan

Dora Wallace Hodgson—
Outstanding Doctoral Student
Award (Fall 2021)
Jayne & Glenn Milburn Fellowship
(Spring 2022)

RESEARCH ROUNDUP 2022 OUTSTANDING RESEARCHER

Each year, the Psychology department hosts a research symposium to celebrate our wonderful undergraduate and graduate students.

Please congratulate the recipients if this year's Outstanding Researcher awards!

Grace Lyons (Clinical) - James Snyder Award for
Outstanding Research in Clinical Psychology

Kat Fishwick (Community) - Pratt Award

Jade Driggs (Human Factors) - Halcomb Award

STUDENT AWARDS AND ACHIEVEMENTS

WSU Graduate Research and Scholarly Projects (GRASP) Symposium 2022 First Place Winner

Each year, the WSU Graduate Research and Scholarly Projects (GRASP) Symposium is an opportunity for graduate students across departments, to present their research! Please congratulate Jade on her First Place win! Pictured (Dr. Lisa Vangsness and Jade Driggs)

UCIPA Conference

This year, the Regional Institute of Aging (RIA) hosted the first **University Community Innovations for Positive Aging (UCIPA) Conference**. Graduate students had the opportunity to present their research and **Bill Bui, Abbie Hutton, and Rachel Sutton**, all won awards, winning first, second, and third places, respectively.

SMART SCHOLARSHIP

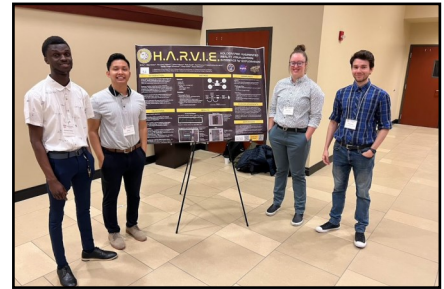

In May 2022, **Dakota Scott**, accepted an offer for the prestigious **Science, Mathematics, and Research for Transformation (SMART)** scholarship-for-service program from the Department of Defense. Benefits include full tuition and education related expenses, monthly stipends, paid research internships, health and miscellaneous allowances, an experienced mentor at the **Naval Information Warfare Center (NIWC) – Pacific**, and employment placement at NIWC. Congratulations Dakota!

NASA SUITS

NASA Spacesuit User Interface Technologies for Students (NASA SUITS) is a competition that challenges students to design and create space-suit information displays within augmented reality (AR) environments. This year's team, named **Team Harvestars**, was comprised of team lead **Bill Bui**, and **Abbie Hutton**, along with Valerie Hubener, Ramil Hinshaw, Radeef Ashhab Bin Karim, Philip Zavala, and Oluwasayo Adekalu. They submitted a proposal, and were invited as a top team, to the **Johnson Space Center** in Houston, Texas to participate in **Test Week!**

The team also won **third place** at **GRASP!**

WICHITA UNDERGRADUATE DIVERSITY SCHOLARS AWARD IN PSYCHOLOGY

The Department of Psychology is excited to announce the **Wichita Undergraduate Diversity Scholars Award in Psychology (WUDSAP)**. As part of the American Psychological Association's initiative to recruit diverse and underrepresented students into clinical psychology programs, this program is offered to rising juniors and seniors in order to gain mentored research experience over the course of the 2021-2022 school year.

Please help us congratulate this years award recipient!!

Mandee Stallman

Undergraduate Corner

We are so proud of our past and present undergraduate students. Let's celebrate all of their accomplishments!

SAVANNAH REDFERN is now pursuing a Masters in the **Marriage and Family Therapy Program** at Dominican University of California!

AVA MUNZINGER-DeFRAIN is now pursuing a doctorate in the **Wichita State School Psychology!**

INNEKE VARGAS Is now at **Sam Houston State University** pursuing a doctorate in **Clinical Psychology!**

HANNAH PIROS Is the undergraduate **President of Psychology Club and Psi Chi!**

RECENT INTERNSHIPS AND PRACTICUM

Name: Huan Quan

Location: WSU Counseling and Prevention Services

I completed a psychology practicum at WSU Counseling and Prevention Services in the last academic year. I conducted intake assessment, individual therapy, and group therapy at CAPS under the supervision of Dr. Jackson. I was also engaged in consultation with campus organizations (e.g., WSU Care Team and Disability Services) for students in need as well as outreach activities that aimed at promoting students' daily self-care on campus.

RECENT INTERNSHIPS AND PRACTICUM

Name: **Shivani Nagrecha**

Location: KU Med School |
Pediatric Department,
Wichita, Kansas (Remote)

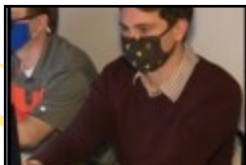

During my internship, I focused on assisting with the transition to the new Electronic Health Record (EHR) System and evaluated the Babytalk website.

Name: **Kevin Morales**

Location: National Institute for
Aviation Research — eXtended
Reality (XR) Lab

I worked at the eXtended Reality (XR) lab at the National Institute for Aviation Research (NIAR). I worked with a multidisciplinary team to help develop training scenarios within virtual reality environments.

Name: **Dakota Scott**

Title: NREIP intern at Naval
Information Warfare Center
-- Pacific, San Diego, CA

I collaborated with the Cyber Operator Behavioral Analysis Team (COBAT) on: (1) the development of a human-machine AI user interface, (2) analysis of cyber attacker emotional states during a capture-the-flag event, and (3) the development of future research directions. I proposed the development of an annotated bibliography or systematic literature review to identify studies that captured cyber operator behavior in work environments to identify potential research collaborations.

Name: **Rachel Sutton**

Title: NREIP Human Factors
Engineering Intern at
NIWC (Naval Information
Warfare Center - Atlantic)

I worked at NIWC Atlantic in Norfolk, VA. During my internship, I was able to learn Amazon Web Services (AWS) Cloud Computing, integrate Human Factors into the work with the Navy, participate in Midshipman Week with students from the Naval Academy, and spend time on a ship!

Name: **Jonathan Larson**

Position: Practicum Student

Location: KU Medical School
— Wichita

I completed a practicum in the Department of Psychiatry & Behavioral Sciences at KU School of Medicine — Wichita. I provided evidence-based therapies for a wide range of clinical presentations and presenting concerns in children and adolescents, including anxiety, depression, OCD, and ADHD. In addition, I was a psychiatric consultant of the interdisciplinary pediatric team at Wesley Children's Hospital, which involved conducting risk assessments on children and adolescents who had been admitted to the hospital. Overall, my time at KU provided me with exposure and experience implementing manualized treatments, with a focus on balancing flexibility with fidelity, which has significantly impacted my growth as a clinician.

Other students who completed Internships:

Bill Bui: Meta (Summer) and NASA (Fall)

Stephen Monroe: Amazon (Amazon Devices), User Experience Research (UXR) Intern

Abbie Hutton: Amazon (Amazon Connect team), User Experience Research (UXR) Intern

Ryley Skinner: The Wichita Collaborative Psychology Internship Program (in progress)

Marta Pena: Wichita Collaborative Psychology Internship Program (in progress)

Krystal Moroney: Consortium in Colorado (in progress)

A WARM WELCOME TO THE NEW GRADUATE STUDENTS!

FEATURED ALUMNI

Dr. Nichole L. Morris

HUMAN FACTORS ALUMNI

- Nichole L. Morris, Ph.D. is the director of the HumanFIRST Laboratory in the Department of Mechanical Engineering, a research scholar at the Center for Transportation Studies, and a graduate faculty member of the Human Factors and Ergonomics program at the University of Minnesota.
- She received her Ph.D. in Human Factors Psychology from Wichita State University in 2011. She lives with her family in Saint Paul, Minnesota.
- Her recent research has examined gender disparities in combat medicine, multi-disciplinary interventions to improve pedestrian safety; in-vehicle driver support technologies, and user-centered safety data collection systems.

Dr. Shani Turner

COMMUNITY-CLINICAL ALUMNI

- Dr. Shani Turner is an Assistant Professor in the Clinical Psychology Department, the Director of the PATHWAYS Program, and the Director of the African & Caribbean Mental Health Concentration at William James College.
- She earned her Ph.D. in Clinical-Community Psychology program from Wichita State University. Dr. Turner completed her pre-doctoral internship at Community Health-link Youth and Family Services in Worcester, MA and completed her post-doctoral training at Boston Children's Hospital where she was a psychology fellow within the Leadership Training in Adolescent Health (LEAH) Program in Adolescent Medicine.
- Dr. Turner's current research interests involve examining the barriers that clinicians, specifically clinicians of color, experience with delivering therapeutic treatment in communities of color.

Dr. Tara Gregory

COMMUNITY ALUMNI

- Dr. Tara Gregory received her BA in psychology in 1985 and her Masters in Community Psychology from in 1990, both from WSU. She then spent 15 years working in substance abuse prevention, applying the skills and concepts she learned in the Community Psychology program. During that time, her main focus (and one of her proudest accomplishments) was assisting a group of area high school students in creating several youth-led community action groups.
- Tara currently supervises a staff of 9 exceptional researchers and often assists or leads research and evaluation projects related to substance abuse prevention, mental health and trauma, intellectual/developmental disabilities, early childhood development, positive youth development, youth leadership, and community and organizational development, among many other topics/issues.

GRANTS 2021-2022

Primary Investigator or Co-PI	Grant Title	Funding Agency
Baldwin, C.	Human Error Taxonomy (\$200,000)	FAA
Vangsness, L.	Future of Work (\$300,000)	NSF
Lewis, R.K.	President's Initiative WSU (\$300,000)	Convergence Sciences Initiative

CONGRATULATIONS!!

The Psychology Department had \$339,000
in grants (2021), 24 publications, 14
presentations, and 55 campus visitors in
the 2021 –2022 academic year.

- Ryan, S. S., Bean, S. R., Duran, N., Salerno, J. M., Michaels, A., Banko, J., Aceves, N., Anderson, C., **Moore, R., & Etcitty, H.** (2022, March). *Linguistic behaviors in real 911 calls reporting violent crimes*. [Paper presentation]. Presented at the annual American Psychology-Law Society Conference, Denver, CO.

- 
- Sandoz, E. K., Sanders, M., Vaidya, J., Lieberman, E., **Miller, M. M.**, & May, M. (2022, June 14-19). *Functional Vulnerability: Navigating Consensual Intimacy Across Differentials of Power and Privilege* [Workshop]. ACBS World Conference, San Francisco, CA, United States.
- Suss, J., & Scott, D. (2021, October). *Trials and tribulations of doing research with police agencies*. PowerPoint presented at the weekly Tea Time at Wichita State University, Wichita, Kansas.
- Sutton, R. & Vangsness, L. (2022). Decision-making at intersections. Poster presented at the IEEE International Conference on Human-Machine Systems, Orlando, FL.
- Vangsness, L. (2021, April). *Judgments of Difficulty and Task Engagement*. Invited key note presented at the Oklahoma-Kansas Judgment and Decision-making Conference, online.
- Vangsness, L. (2021, April) *Using Multi-level Modeling to Profile Behavior across Multiple Choice Domains*. In Belisle, J. (chair). A Nested Model to Stop Climate Change: The Needs of the Many and the Needs of the Few. Symposium presented at the 47th Annual Convention of the Association for Behavior Analysis International, San Francisco, CA.
- Vangsness, L. & Driggs, J. (2022). Cue use is unaffected by covertly performing a task. Talk presented at the Annual Meeting of the Human Factors and Ergonomics Society, Atlanta, GA.
- Vega, D., Larson, J. M., **Miller, M. M.**, & Petts, R. A. (2021, October). College student perceptions of integrated behavioral health (IBH) care on campus. Poster presented at the Collaborative Family Healthcare Association, Madison, WI.

MEET KEVIN DUFFY!

The Psychology department would never be complete without the support of Mr. Kevin Duffy! His role in the department includes greeting and assisting any visitors, faculty, staff, and students that come in, along with answering the phones for the main office. He also schedules and manages the campus visits for our department and makes sure that the faculty has the appropriate flyers and information ready for them. He works with the department chair on projects such as the semester schedules and the budget for the department. In addition, he works on getting the graduate students hired in the system, so that they get paid for teaching and assistantships with professors. He also recruits adjuncts for teaching classes in our department as well. Any special events the department hosts, he helps to organize and get together. Lastly, he would like everyone to know that he is here to support the department. If the students need anything, he is always here for them and tries to be flexible. Let's thank Kevin for all that he does, and offer him another warm welcome!

Brendan Clark, Ph.D.
