

middle school or high school to pursue a career in mathematics or another STEM field. Sonia Kovalevsky Day is designed to empower the next generation of female mathematicians, scientists, engineers and innovators. A continental breakfast and lunch will be provided.

Sonia Kovalevsky was a Russian mathematician who made noteworthy contributions to analysis, partial differential equations and mechanics. She was a pioneer for women in mathematics around the world as the first woman to obtain a doctorate in mathematics, the first woman appointed to a full professorship in northern Europe, and one of the first women to work for a scientific journal as an editor.
