The Performance Evaluation must be completed and signed by the Field Instructor, On-Site Supervisor (if applicable), and the Student.

The standard by which a Social Work 402/404 (**BSW student**) and Social Work 720/721 (**MSW Generalist**) practicum student is to be compared is that of a **beginning level BSW (no prior experience)**. The Core Competencies are those established by our national accrediting organization, the Council on Social Work Education (CSWE).

Social work is a highly demanding profession, requiring certain attributes and professional standards in order to practice effectively. These professional standards involve professional comportment, commitment, and the ability to develop productive relationships with clients and colleagues. This is intended to be a *working document* to give the practicum student feedback about his or her performance.

Please rate your student in comparison to a beginning BSW (no prior experience) using the rating scale below:

1	Far below standards of practice: No understanding and application of behavior.
2	Below standards of practice: Beginner understanding and application of behavior.
3	Meets standards of practice: Average understanding and application of behavior.
4	Above standards of practice: Above average understanding and application of behavior.
5	Exceeds standards of practice: Professional understanding and application of behavior
N/A	Not applicable to student's learning at this time.

This practicum evaluation will be used as a significant portion of the practicum seminar grade each semester.

Narrative Section:

Please use the brief assessment narrative section of each core competency to individualize the student's evaluation. The assessment is an important and necessary part of the evaluation. Your comments personalize and clarify for your students the essence of your evaluation of their work. It is important to comment on areas that need work, as well as areas in which the student excels or has shown significant growth or accomplishment. If possible, give examples of strengths or weaknesses. If a student is having problems in a certain area, please document thoroughly the examples of concerns in that area. It is essential for the student and the School to have this section completed on all students.
