

Orientation Information

Wichita State offers many options for orientation for both First Year (Freshman) and Transfer students. You can find the dates for each group and websites where you can learn more information later on in this letter.

How important is orientation? From Wichita State's website:

- Students who attend orientation are more prepared to begin classes and more successful in reaching their academic goals.
- Orientation gets students excited to be a Shocker so that they gain the most from their college experience.
- Orientation also provides information and services in one place, rather than having new students try to obtain this information from each office on their own.
- Finally, orientation gives students an opportunity to connect with other students before the semester even starts.

We encourage you to attend and look forward to meeting you when you do so!
