## Did you know?

The Kodály Certification Program consists of three separate two-week programs, taken one year after the other, and they are worth five hours of graduate credit apiece. Those 15 hours total are half the necessary credits for a Master's degree!

On top of that, Wichita State University has a program in place to help you get the remaining 15 hours over those same three summers - a perfect solution for the busy educator!

\$550 fee for each Kodály level  
Graduate credits available

Steve Oare, Program Director
