PROFESSIONAL AND SCHOLARLY INTEGRITY TRAINING (PSIT)

All students must complete Professional and Scholarly Integrity Training in some manner. Each program has set their own requirements for completing this training. If you are in one of the programs listed below, your program has decided that your requirement will be met by ONLY completing specific modules in CITI. You should therefore fill out the CITI registration form, then go to the CITI website, register as described on the CITI information page, and complete the course titled “Graduate Student _____ Programs” specific to your discipline (or most closely related if it is not specified in the course list). You filling out the registration form allows us to request the results of the CITI modules – and then provide those results to your department. Please remember, in order to meet the requirement, you must pass EACH of the modules.

Doctoral Programs
Aerospace Engineering
Applied Mathematics
Chemistry
Doctor of Nursing Practice
Electrical Engineering & Computer Science
Industrial Engineering
Mechanical Engineering

Masters Programs (continued)
Communication Sciences & Disorders
Computer Networking
Computer Science
Electrical and Computer Engineering
Engineering Management
English
Industrial Engineering
Innovation Design
Liberal Studies
Mathematics
Mechanical Engineering
Music
Music Education
Nursing
Physics
Social Work
Spanish

Masters Programs
Aerospace Engineering
Anthropology
Arts Leadership and Management
Biological Sciences
Biomedical Engineering
Chemistry

Specialist Program
School Psychology

If your program is not listed above, that means the program uses a different means to meet the PSIT requirement. While some programs may still ask you to complete modules in CITI as a part of a graduate level course, the completion of only the CITI modules will not meet the PSIT requirement. This also means you DO NOT need to fill out the registration form before logging into the CITI site. If you have questions, contact your advisor or the Graduate School for assistance.
