

WICHITA STATE
UNIVERSITY

ANNUAL REPORT

College of Health
Professions

2020

Our strengths set us apart and benefit our students, our communities, and our health care industry

- ⦿ We prepare students for a career in health care through state-of-the-art technology, access to industry experts and valuable hands-on learning experiences.
- ⦿ We are leading change in health care education through our innovative culture and passionate faculty and staff who are dedicated to students' success.
- ⦿ CHP students benefit from our exceptional health care industry partnerships, with clinical affiliation sites across the U.S. –from large hospitals and private practices to local schools and neighborhood clinics.

"The Wichita State College of Health Professions has been instrumental in the success of Wesley Healthcare.... We find the healthcare professionals that graduate from the programs at WSU to be outstanding clinicians that contribute to the health and wellness of our patients and community."
– **Bill Voloch, president and chief executive officer, Wesley Medical Center**

MEANINGFUL WORK. UNLIMITED IMPACT.

From bench to bedside, from clinic to community, to populations, our goal is to shape health care leaders for the 21st century.

Our students, faculty and staff do real work that impacts health care, the economy, and the vitality of our communities.

Excellence in Education

Preparing tomorrow's health care leaders

We offer 27 health professions programs from undergraduate through doctoral levels. Our Physician Assistant, Dental Hygiene Degree Completion and Advanced Education in General Dentistry are the only programs of their kind in Kansas.

Community Impact

Our patient-serving clinics provide affordable, quality care to our community and hands-on learning experiences for students.

Applied Learning

A major focus of our college is ensuring that our students have extensive opportunities for applied learning.

Professional Success

Graduates enjoy high post-graduation employment rates and exceptional success in advanced careers.

ABOUT US

Vision

Leading change in health care education.

Mission

To improve the health of the community by engaging students, faculty, staff, and the larger community in the preparation of healthcare leaders, scholars, and professionals.

Leadership Updates

With the departure of Dean Sandra Bibb after six years of service, acting dean Linnea GlenMaye and interim dean Stephen Arnold guided the CHP through the first half of 2020. In August 2020, Dr. Gregory Hand was named dean of the College of Health Professions.

ABOUT THE NEW DEAN

Prior to arriving at Wichita State University, Dr. Hand served as West Virginia University's Founding Dean of the School of Public Health, and Special Assistant to the Vice President for Health Sciences at the Robert C. Byrd Health Sciences Center, West Virginia University.

Dr. Hand had served previously as Associate Dean for Research, Practice and Information Technology at the Arnold School of Public Health, University of South Carolina. Prior to that appointment, he served as the Associate Dean for Academic Affairs at South Carolina's Arnold School.

He was trained in medical physiology, public health and exercise science at the University of Texas Southwestern Medical Center at

Dallas, the University of South Carolina at Columbia, and the University of Arizona. Dr. Hand received NIH-funded postdoctoral training in physiology and neurobiology at the Harry S. Moss Heart Center at UT Southwestern.

Dr. Hand is recognized internationally for his research on physical activity and health and has presented his research on six continents. His work has spanned the physiology and psychobiology of exercise and stress, HIV/AIDS, physical activity and energy utilization, and practical application of activity interventions in chronic conditions. He has published over 140 refereed scientific articles and book chapters and over 275 scientific abstracts.

Debra Pile, School of Nursing (Interim Chair)

Nicole Rogers, Public Health Sciences

M'Lisa Shelden, Physical Therapy

MESSAGE FROM THE DEAN

There is no doubt that 2020 was a “challenging” year for the College of Health Professions and Wichita State University. The COVID pandemic changed the way we live across the globe. There was an enormous effort to move most of the CHP’s courses to “online” instruction. However, the college was required to address the need for personal interaction in many clinical courses – the students, faculty and staff had to meet in person and try to implement the COVID safety measures of protective wear and social distancing. But the CHP had additional challenges. The longtime CHP dean left early in the year and a search was begun for a new dean. Two new chairs were installed in the Departments of Physician Assistant and Communication Sciences and Disorders. And in the Fall, WSU President Jay Golden left WSU.

These are the types of challenges that test the ability of a university to maintain academic excellence, support students, engage in community activities, and produce creative scholarship and research. While our WSU values do not change, it is times like the year 2020 that test our priorities and our commitment to those priorities.

We in the College of Health Professions are proud of the impressive list of accomplishments that were achieved in the year of the College’s 50th anniversary. Many, but not all are detailed in our 2020 Annual Report. With a strong commitment to our vision of “leading change in healthcare education”, we adapted to the move to online learning, were awarded numerous research grants, provided care to thousands of patients at our three clinics, and engaged in community activities and promoted healthy behaviors during an unprecedented pandemic in modern times.

I am honored to have been chosen to serve as the dean for the College of Health Professions. The College has a long history of success in education, scholarship, community engagement, and clinical practice. This success resulted from a strong commitment over many years to excellence by the faculty, staff and students, and from a great desire to engage the Wichita communities to promote wellness and prevent disease. It is my great pleasure to now be part of the College of Health Professions’ history and to play a role in the College’s continued effort to provide outstanding service to our constituents, to WSU, and to Wichita and the Southcentral region of Kansas.

Gregory Hand
Dean and Professor
College of Health Professions

FACULTY AND STAFF FAREWELLS AND WELCOMES

Physical Therapy	44

Our **3** community-serving clinics reported over **7,900** appointments in 2020.

550+ students graduated in 2020

Over **200** employees

12 CHP student organizations

Over **90** scholarships totaling over **\$320,000**

Over **60** CHP students in the Cohen Honors College

The CHP endowment has over **\$14 million** in gifts

The College **exceeds the national examination pass rate average** for Physician Assistant, Dental Hygiene, Medical Laboratory Sciences, Physical Therapy, Speech-Language Pathology, Audiology and Nurse Practitioner.

A LOOK BACK AT 2020

IMPACT OF COVID-19

2020 was a year that was challenged by the most impactful pandemic in over 100 years. The Coronavirus transformed higher education and had a huge impact on our college as it affected every aspect of what we do. Despite the immense challenges, our faculty, staff, and students adapted by learning new skills and seamlessly transitioning to online learning and remote work. The College, departments and clinics implemented initiatives such as online info sessions, video tours, and tele-rehabilitation sessions. We embraced the challenge and have come back stronger than before. Despite the restrictions, students, faculty and staff found ways to help our community during challenging times. The CHP answered the university and city-wide call for personal protective equipment donations, and donated much-needed supplies such as gloves, face masks, and other important PPE for local health care workers and first responders. Nursing faculty and students administered

vaccines at Student Health Services, donated items to support local nurses, and [collected money and supplies](#) for the homeless community in Wichita. The CHP also gifted Physician Assistant, Nursing and AEGD graduates with a disposable stethoscope as they began their careers during the pandemic.

The silver lining is that our students had the opportunity to train and work in many challenging situations. The pandemic became an important learning tool for much of the curriculum. As a result our graduates will start their careers with a unique perspective.

"Completing nursing school during a global pandemic forced my classmates and I to be adaptable in ways we never thought possible, but the experience of being in the hospitals during such an influential time was invaluable."
– Max Karst, student, School of Nursing

CHP 50TH ANNIVERSARY

In 2020, the CHP celebrated its 50th anniversary at Wichita State. Since our founding in 1970, the CHP has continued to improve the health of our community and supplied the health care industry with skilled, passionate professionals. As a College, we have touched countless lives through five decades of innovative education, applied learning, research, and community outreach.

2020 also marked the 40th anniversary of Ahlberg Hall. The five-story building opened its doors on Oct. 31, 1980. Originally named the Health Sciences Building, the building was dedicated as Ahlberg Hall on Oct. 18, 1984, named for former Wichita State president Clark D. Ahlberg and his wife Rowena Osborn Ahlberg.

EDUCATION

PHYSICAL THERAPY

Admission to our PT program is very competitive, and the wide range of expertise among our faculty helps students excel in every setting. From acute care to rehabilitation and wellness, our graduates are integral members of the collaborative team in a variety of settings and provide highly specialized services. They support improved function focused on patient-centered outcomes in hospitals, rehabilitation settings, outpatient clinics, public schools, and also support parents whose infants and toddlers are enrolled in early intervention. PTs are increasingly part of emergency departments, and at times serve as primary health care providers, particularly in rural areas.

"Wichita State's Department of Physical Therapy proudly sustains robust graduate outcomes of licensure examination pass rates and employment upon graduation that consistently meet or exceed national averages."

– M'Lisa Shelden, chair, Physical Therapy

PUBLIC HEALTH SCIENCES

The Department of Public Health Sciences educates professionals to manage programs and organizations in healthcare, senior living and public health. Public health sciences practitioners intervene in the most pressing challenges to community health. They evaluate the cost of healthcare and determine the allocation of healthcare resources to have the greatest impact. Practitioners promote and foster change in high-risk health behaviors.

The department is uniquely positioned in the College to provide students with a comprehensive overview of the U.S. healthcare system. Through curriculum and community engagement, faculty and staff help students translate newly acquired knowledge and skills into impact at the local, state, and national level.

Public Health Sciences is now collaborating with the Cohen Honors College to offer a departmental honors program. The Public Health Sciences departmental honors program allows in-depth exploration in an honors college student's area of choice, one-on-one faculty mentorship, and collaboration in research or scholarly activities.

PHYSICIAN ASSISTANT

Our PA program is the first and only PA program in Kansas. Our national board pass rates are in the top 10% of the nation (based on 2019 [data](#)). The longevity of the program, high pass rates, dedicated faculty, strong community affiliations, and location are key reasons our program has a 20:1 applicant ratio.

According to the Pew Institute, PA is one of the top 10 growing in-demand occupations. PAs examine patients, order and interpret tests, perform procedures, prescribe medication, and order other treatments. PAs are specifically trained in patient education, preventive care, and chronic care management. Whether PAs are working in primary care or a specialty practice, their generalist medical training enables them to treat the "whole patient."

"Our students gain a competitive advantage by learning from dedicated faculty who care about their achievement. We think of every student as a future colleague, so student success is our goal."

– LaDonna Hale, chair, Physician Assistant

The WSU PA Program has had a
100% national board pass rate
 for the last **5 years.**

MAKING A DIFFERENCE

Today’s health care environment is more challenging than ever. The work of our faculty, staff and students has a huge impact and is making a difference every day. Here’s how we’re advancing health care.

WICHITA STATE AND K- STATE PATHWAY TO NURSING PROGRAM

WSU and K-State has launched a dual degree program that will give students the opportunity to earn both a Bachelor of Science from the College of Health and Human Sciences at K-State and a Bachelor of Science in nursing from the College of Health Professions at WSU. Both degree programs will be based in Manhattan, KS. This is the first and only program of its kind in Kansas.

“This program will shorten the overall time to graduation, which is a huge benefit for students. Healthcare outcomes in Kansas will be positively impacted with more bachelor’s-prepared registered nurses in our state.”
– **Voncella McCleary-Jones, associate dean for academic, faculty and student affairs, College of Health Professions**

MOLECULAR DIAGNOSTICS LAB

Wichita State University marked the opening of the Molecular Diagnostics Lab (MDL) in Oct. 2020 at the John Bardo Center on Wichita State’s Innovation Campus. Focused on developing high throughput analysis of coronavirus infection, the faculty and students in the Department of Medical Laboratory Sciences are a critical part of the daily analysis of thousands of patient samples from around the United States. MLS faculty member Sarah Nickel is the Technical Director and was instrumental in the design and function of the lab.

“The Molecular Diagnostics Lab has not only helped mitigate the spread of Covid-19 in the community, but also has brought recognition to the work of Medical Laboratory Scientists.”
– **Diana Cochran-Black, chair and associate professor, Medical Laboratory Sciences**

COMMUNITY ENGAGEMENT

Public Health Sciences helps educate WSU community during Covid-19 pandemic

Public Health Sciences faculty, staff and students are devoting a great amount of time and energy to the Wichita State community during the COVID-19 pandemic. Faculty are using their expertise to educate people about mitigating the spread of the virus. While COVID-19 was devastating to the health of our communities, it served as an important learning tool and provided numerous service and applied learning opportunities for students. Highlights include PHS student involvement with COVID-19 testing on campus and education through print and digital media campaigns.

Speech-Language-Hearing Clinic offers unique summer camps for kids

The Speech-Language-Hearing Clinic offers many programs for children, including the popular Fluency and Literacy summer camps. Literacy Camp involves reading, writing and fun, hands-on activities to strengthen children’s literacy skills. The annual Fluency Camp helps kids with speech disorders. Common disorders they address at the camp are stuttering and cluttering.

Physical Therapy students and faculty volunteer at the Guadalupe Clinic

During the spring and fall semesters PT students volunteer weekly at the Guadalupe Clinic in Wichita, a nonprofit health clinic that provides quality health care for people in need. Students and faculty gain much real-world experience providing physical therapy care to underserved people in the Wichita community. Faculty and students say they truly enjoy volunteering, and it is an honor to provide treatment to the most needy in our communities.

To support our community engagement activities, contact the WSU Foundation at 316-978-3808 or visit foundation.wichita.edu/give/.

CHP DEAN’S ADVISORY COUNCIL

The new CHP Dean’s Advisory Council is comprised of a distinguished group of local and national academic, community and industry leaders. Their collective expertise, perspective and strategic counsel on the most pressing matters of the College of Health Professions is critical to realizing our vision of “Leading change in healthcare education.” [Meet our Dean’s Advisory Council.](#)

- Pamela Clancy Ammar**
Attorney, President of the Board-Kansas Humane Society, Chair of the CHP Dean’s Advisory Council

Ambur Alfaro
Director of Professional Relations-Delta Dental of Kansas

Alex Ammar
Vascular surgeon, President and CEO-Wichita Surgical Specialists, Professor and Chair-Department of Surgery- University of Kansas School of Medicine in Wichita

Tim Church
Physician and scientist, Chief Medical and Strategy Officer-Naturally Slim, Cofounder and Board Member-Catapult Health

Carolyn Harrison
Nurse, WSU National Advisory Council

Robert Johnson
Senior Pastor-St. Marks United Methodist Church in Wichita

Robert Kenagy
President and CEO, Stormont Vail Health

Carl Kirkendoll
Pastor-Bethany Missionary Baptist Church in Wichita, President-Urban League of Kansas Guild, President-Greater Wichita Ministerial League

Laurie Labarca
Hospital President for Ascension Health-Ascension Via Christi Hospital St. Teresa and Ascension Via Christi Rehabilitation Hospital

- Dan Loon**
Vice President for Associate Advancement and Education-Legend Senior Living

Adam Lukens
Private practice dentist, Wichita-Sedgwick County Oral Health Coalition, Board of Trustees for the Kansas Dental Association

David Ramos
Emergency Medicine physician for Salinas Valley Memorial Healthcare System in Salinas, CA

Arthur Ross
Pediatric surgeon, former campus executive or Dean for four university based medical schools, academic medicine consultant

David Todd
Cofounder and Owner Advanced Physical Therapy/Physical Therapist

Bill Voloch
President and CEO of Wesley Healthcare

“I was surprised and honored by the high level of enthusiasm from the Advisory Council members when they were invited to join the Council. Their input and advice has already made a huge impact on the College’s perspective as we strategically plan for future growth and development.”
– **Gregory Hand, dean, College of Health Professions**

PATIENT SERVING CLINICS

Our clinics are open to the public and accepting new patients.

Our patient-serving clinics provide high-quality, affordable health care to our community. During the Covid-19 pandemic, faculty and staff adapted by putting extra safety measures in place and implementing strategies that included increased

sanitation, staggered appointment times, tele-rehabilitation sessions, and limited number of people in the facility. Faculty and staff were selfless in their commitment to provide our community with safe, quality care during challenging times.

EVELYN HENDREN CASSAT SPEECH-LANGUAGE-HEARING CLINIC

The Cassat Speech-Language-Hearing Clinic provides services to people across the lifespan who have communication difficulties, including speaking, hearing, swallowing, and spoken and written language impairments. Our goal is to improve the lives of those living with communication difficulties. wichita.edu/SLHclinic

➡ 410 patients seen for 2,098 visits in 2020

DELTA DENTAL OF KANSAS FOUNDATION DENTAL HYGIENE

The Dental Hygiene Clinic offers a wide range of low-cost preventative, therapeutic and educational services. wichita.edu/DHclinic

➡ 1,560 patients seen for 2,472 visits in 2020

DELTA DENTAL OF KANSAS DENTAL CLINIC

WSU’s Dental Clinic provides comprehensive, affordable dental care. Services include prophylactic and restorative dental procedures. wichita.edu/WSUdentalclinic

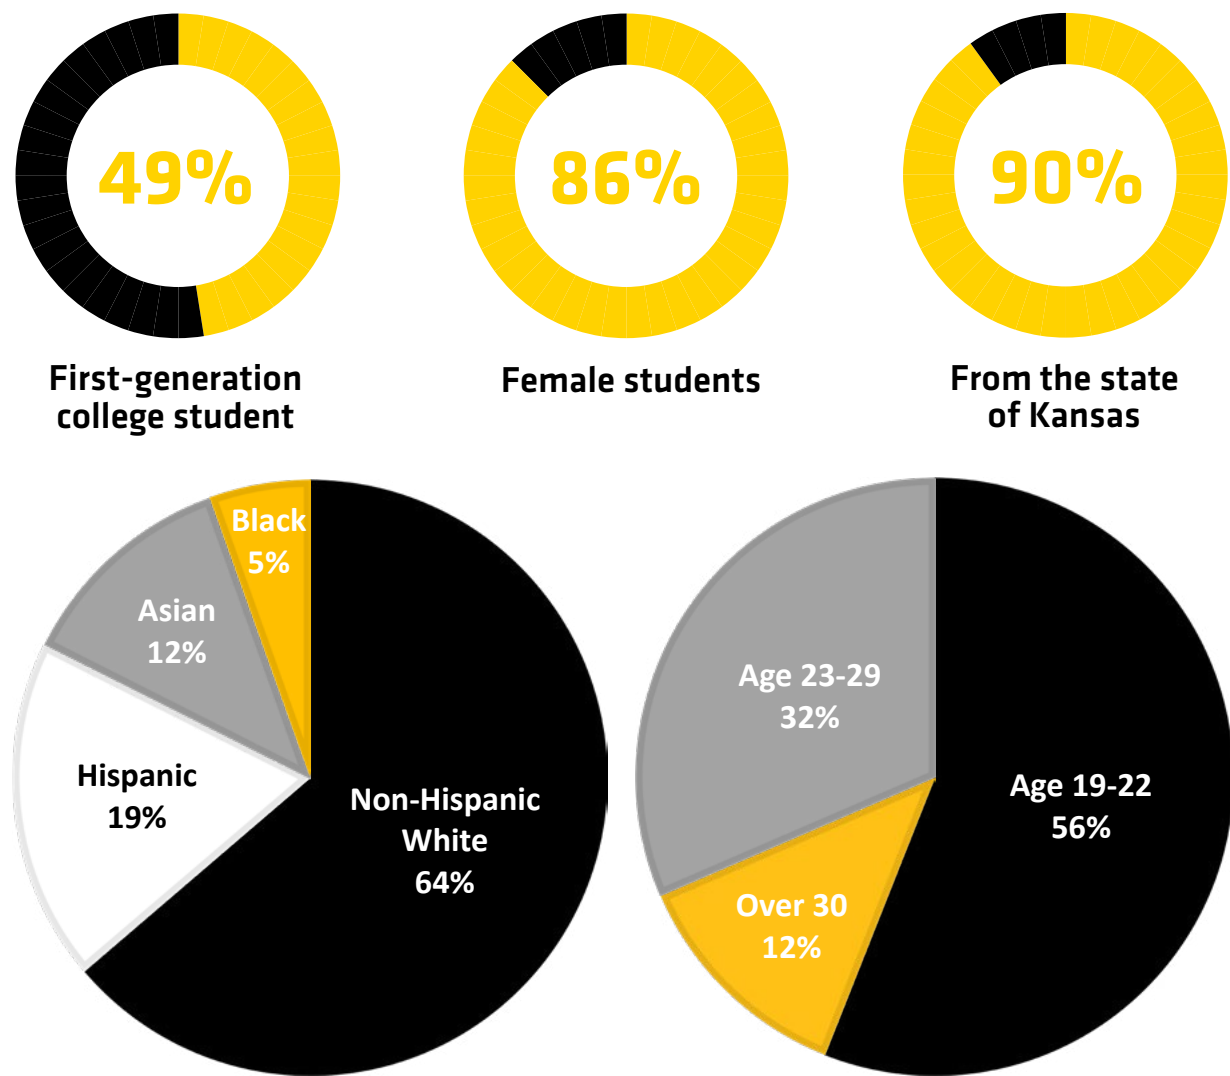

➡ 3,340 visits in 2020

If you want to say thank you or support what we do, contact the WSU Foundation at 316-978-3808 or visit foundation.wichita.edu/give/.

STUDENTS

UNDERGRADUATE STUDENT DEMOGRAPHICS

LIVING LEARNING COMMUNITY

The Health Professions Living Learning Community (LLC) is a community of students interested in health professions. LLC members live in Shocker Hall, a state-of-the-art residence hall that is located in the heart of campus and is home to over 800 residents. The LLC is the perfect place for students to explore their interests, learn about career opportunities, get involved, and make friends. Members build relationships inside and outside the classroom by taking part in social, educational, and community service events.

2020 changed the typical LLC events to some extent, but the group was able to make the most of the year through various socially distanced activities and volunteer opportunities. Each month the CHP Advising Team members and Success Coach checked-in with students and showed their support by leaving an activity, study tips or snack outside each door.

The Living Learning Community lays the foundation for interprofessional education, allowing students to build a community of academic support, participate in industry tours, connect with faculty, and participate in social activities. – Gina Stewart, academic advisor and Health Professions LLC

STUDENT SPOTLIGHTS

MAX KARST | School of Nursing

Max Karst recently earned a Bachelor of Science in Nursing. Max was very involved at Wichita State as a Transition Mentor; Founder & President of the Pre-Physician Assistant Student Organization; Kansas Association of Nursing Students Officer; Vice President of Nursing Class; CHP Dean's Student Ambassador; CHP Shock the Future Representative; member of the Future Healthcare Professionals; and a volunteer for the Community Service Board. He was also a winner of the 2019 Student of the Year, 2018 Volunteer of the Year, and was a CHP Sherr Scholarship recipient for two years. Max says his favorite part about Wichita State is the energy! "There are so many amazing people in this community and the wide variety of experiences you can have at WSU have helped make me who I am today!" Max now works full-time in the Trauma/Surgical ICU at Ascension Via Christi St. Francis hospital.

KYLIE DARLAND | Communication Sciences and Disorders

Kylie is a graduate student in the Speech-Language-Pathology program. Kylie is a member of the WSU Student Speech-Language Hearing Association and the St. Paul Catholic Student Center. Kylie recently won first place at the WSU Graduate Research and Scholarly Projects Symposium with her thesis research. She was also inducted into the Alpha Eta healthcare honor society and Mortar Board Senior Honor Society. Little known fact - she started as a music major and received a piano scholarship her freshman year before switching to CSD. Kylie appreciates the phenomenal relationships WSU has with local hospitals, clinics, and schools "These connections opened many opportunities for me to gain clinic experience while in school, and ultimately led to me finding a job upon graduation." Kylie is currently completing her last clinical externship at Wesley Medical Center and has been offered a position upon graduation.

KARLIE HOPPER | Dental Hygiene

Karlie recently graduated with her Bachelor of Science in Dental Hygiene. Growing up in Andale, KS she fell in love with the health professions field and eventually decided that dental hygiene suited her personality the best. Her favorite part about the dental hygiene program was measuring her success and seeing her progress working in the WSU dental hygiene clinic. "Getting better at skills that you struggle with is such a good feeling." While at WSU Karlie enjoyed volunteering in the community, particularly visiting elementary schools educating children about oral hygiene and handing out toothbrushes. She was also part of the Student American Dental Hygienist Association. Karlie appreciated the high level of interaction with her instructors at WSU. "They were so helpful with everything, and they love to reach out to us. I was surprised how well our instructors knew each and every one of us."

CHP ADVISING CENTER

The CHP Advising Center has always been a top-notch team, and in 2020 they truly exemplified that term, working together to serve our students in uncertain times. When all operations moved to fully remote, the CHP Advising Team didn't miss a beat. Thanks to their utilization of strategic, early advising campaigns, they were able to balance appointments and move to a fully remote appointment format seamlessly. Advisors also participated in orientation, program application review processes, online recruitment events, trainings, and student communication efforts.

CHP Advisor Gina Stewart took the initiative to organize and produce weekly live [Virtual Info Sessions](#) for each department on the CHP Facebook page to connect with students remotely. Each session covered a different department or topic and was geared toward potential students, current students, adult learners, and transfer students. The info sessions gave people the opportunity to learn more about our programs and ask questions. The sessions also featured CHP faculty, staff, and students sharing their tips and discussing what to expect in a professional program.

➔ The CHP Advising Center had over 3,000 appointments and over 4,000 emails, texts and chat messages sent to students.

We are proud to play a role in the development of our health professions students as they prepare for their professional programs. We strive to provide the best advice and advocacy for the future health care professionals of our communities. – Mandy Konecny, director, CHP Advising Center

SCHOLARSHIPS

The CHP awards more than 90 scholarships and fellowships each year totaling over \$320,000. In addition, CHP students have access to general WSU scholarships—including freshmen merit scholarships and other forms of financial aid.

Third Annual Sam and Rosemary Sherr Dean's Excellence Scholarship

The CHP congratulates the recipients of the third annual Sam & Rosemary Sherr Dean's Excellence Award (Scholarship/Fellowship) for 2020. Each department in the CHP nominates one outstanding student for the Sherr Scholarship Award, which is the largest scholarship award in the CHP.

Sherr Scholarship \$10,000 Award Recipient:

➔ Saniya Ahmed, Public Health Sciences

Sherr Scholarship \$4,000 Award Recipients:

➔ Brent Ehresman, Physical Therapy ➔ George "Max" Karst, School of Nursing ➔ Rola Khaleel, Communication Sciences and Disorders
➔ Katlin Loos, Physician Assistant ➔ Rachel Sparks, Dental Hygiene ➔ Emily Torrey, Medical Laboratory Sciences

For more information about supporting our students through scholarship donations, please contact the WSU Foundation at 316-978-3808 or visit foundation.wichita.edu/give/.

CHP STUDENT ORGANIZATIONS

The CHP has several groups that provide opportunities for students to connect across all health professions disciplines or get involved in a group associated with a specific academic program. The groups provide networking opportunities that help prepare them for a career in health care. Students can participate in numerous community service activities throughout the year.
