**BETTER HEARING**

If a hearing problem is limiting your ability to interact with the world, our audiologists can help with:

- Comprehensive hearing testing
- Hearing aid sales—digital programmable, conventional with extended trial and evaluation periods available.
- Hearing aid maintenance and repair
- Rehabilitation for individuals with hearing loss
- Assistive listening devices
- Otoacoustic emissions assessment
- Infant hearing screening
- Pediatric testing and hearing aid fitting
- Group screenings

**BETTER COMMUNICATION**

If you need help with speech, language, swallowing, voice or hearing, we offer adult and child evaluation and treatment for:

- Speech and language disorders for children and adults
- Speech-language disorders following a stroke, head trauma, or laryngectomy
- Language-literacy for children, adolescents, and adults
- Speech-language disorders requiring alternative and augmentative communication
- Swallowing, voice and fluency disorders

**PROGRAMS FOR CHILDREN**

We offer a number of programs designed to serve the special needs of children:

- Communication intervention for children with autism and related disorders
- A summer camp for children with fluency disorders
- Group screenings of speech, language, and hearing for preschools, daycare centers, and others
- Kaleidoscope, a licensed preschool program for children ages 2 ½ to 5. Services include early childhood education, speech-language treatment, pre-literacy skill development.
- Individual and small group treatment for language and literacy
- Parent education and consultation

**GROUP EDUCATION**

We help groups, companies and organizations in the Wichita area with such services as:

- Seminars and educational services
- In-service programs on prevention, early identification, and treatment of communication disorders.
- Adult communication groups
