

Study Abroad Spotlight

Former Student

Dillon Cott

Study Abroad Program:

University of Chester in Chester, England

Semester Abroad: Spring 2012

Current position: Regional Recruitment
Manager in WSU Admission's Office

Q: What are the advantages to studying abroad?

A: Studying abroad takes the world you know and expands it to see what makes humanity similar across different cultures and how diversity of cultures makes each person unique. While abroad, you learn that education is larger than the classroom walls of the University and you become enthralled with what you can learn from a new surroundings.

Q: What advice do you have for students who plan to study abroad?

A: Speak to someone you know who has studied abroad and contact the Study Abroad office early. Gather as much information as you can and begin to save money early to make it reasonable for you to go. Then stop making excuses and just do it!
