

Study Abroad Spotlight

Current Student

Katelynn Nguyen

Study Abroad Program:
*Korea University in South
Korea (through ISEP)*

Major: *International Business*
Semester Abroad: *Spring 2016*

**Q: Why did you decide to study abroad
in South Korea?**

A: I've decided to study abroad in South Korea because I wanted to experience a completely unfamiliar and foreign culture than what I'm used to in the United States. I wanted to put myself in an entirely new environment and learn as much and I can. I also heard that the people in South Korea are extremely friendly and helpful, and the food is spectacular, which turned out to be very true!

International Student Exchange Program (ISEP) provides study abroad programs to WSU students which allows students to pay the regular tuition fees and room & board fees based on WSU costs. There are over 100 different universities to choose from. For more details about ISEP for WSU students:
