# Study Abroad Spotlight

## Current Student

### Sandra Shay

Major: *International Studies*

Study Abroad Program:

*Global Sport Industry, South Korea*

*Travel Seminar May 2017*

**Q: What did you enjoy most about the two week program in South Korea?**

A: It is hard to decide what I enjoyed most about the two week program in South Korea because I had fun the whole time, but I think I would have to go with trying on the Hanbok (Traditional Korean Dress). Along with trying on the Hanbok, we also got to learn a little bit about traditional Korean manners, as well as a traditional Korean wedding and tea ceremony. I would say I enjoyed the aspect of learning and taking part in the Korean culture in general because I first became interested in the Korean culture from watching Korean dramas, and a lot of the things we did and learned (like trying on the Hanbok) reminded me of a Korean drama, and I thought that was cool and I enjoyed it a lot.

**Q: What did you learn from the experience?**

A: From this two week study abroad experience, I learned that there is so much in the world that I am missing out on, and it confirmed my dream of wanting to travel even more. This study abroad experience helped me realize that I want to travel and learn about other cultures and languages. I have learned to have an open mind and try new things.
