SPOTLIGHT

ON THEIR STUDY ABROAD
EXPERIENCE

Kennedy Rogers

Coordinator of Leadership Development
Student Involvement

Prague, Czech Republic, Warsaw,
Poland & Berlin Germany
2011

What is the most important thing for students to consider when studying abroad?

You get out what you put in. Lean in and challenge yourself to engage with the process. Additionally, most trips comes with a cost. Prepare yourself financially to take that on. It's so worth it and a great investment, however, it has to work for you in other areas of your life too!

Why would you recommend study abroad to students?

YES! YES! YES!!! Regardless of the topic, industry, etc....it is so beneficial to see the world and how things work beyond our immediate world. Take advantage of an opportunity to learn through an experience!

The academic AND social benefit is endless!!!
