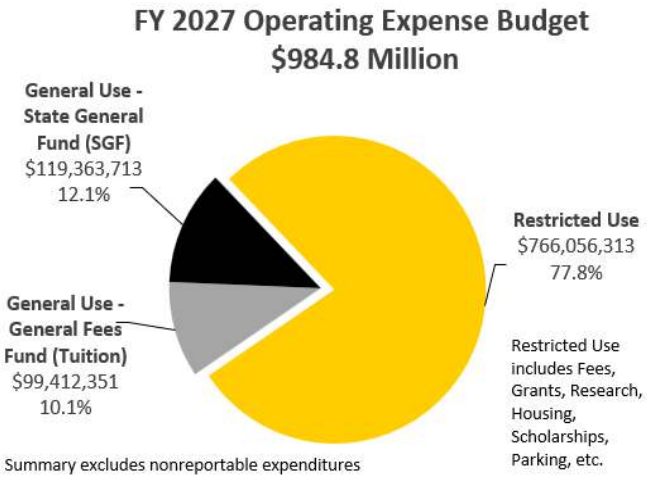
The fiscal year (FY) 2027 Annual Operating Budget contains plans for the allocation of funds in accordance with the Strategic Plan for the fiscal year beginning July 1, 2026. As part of the resource planning process, this document outlines planned operating expenditures by fund for each college and department, structured by program.

Each year the budget is designed with the university's Vision, Mission, and Strategic Plan serving as the key principles, and guiding development of the annual operating plan. Expenses for the operating budget of $984.8 million are generated from General and Restricted Use funding. Of the $218.8 million in General Use (GU) funding, $119.4 million is appropriated from the State General Fund (SGF) and $99.4 million is from the General Fees Fund (tuition).



In comparison to the previous year, General Use revenue is budgeted to increase by $1.3 million. Tuition revenue is budgeted to increase by $2.0 million due to a tuition rate increase, estimated credit hour production, and type of students enrolled (e.g., resident or non-resident).

Overall, the operating budget continues to experience growth, which is predominantly driven by Restricted Use (RU) funding. In the FY 2027 budget, RU funds now represent 77.8% of the expense budget, while in FY 2018 they represented 50.7%.

Vision

The vision of Wichita State University is to be one of the nation's premier urban public research universities, known for providing impactful applied learning experiences and driving prosperity for the people and communities we serve.

Mission

The mission of Wichita State University is to be an essential educational, cultural and economic driver for Kansas and the greater public good.

Over the past eight years, adopted operating budget expenses have increased from $398.2 million to $984.8 million. When viewed by program, the growth has primarily occurred within the research related services of the university, which currently comprises 63.4% of the university budget.

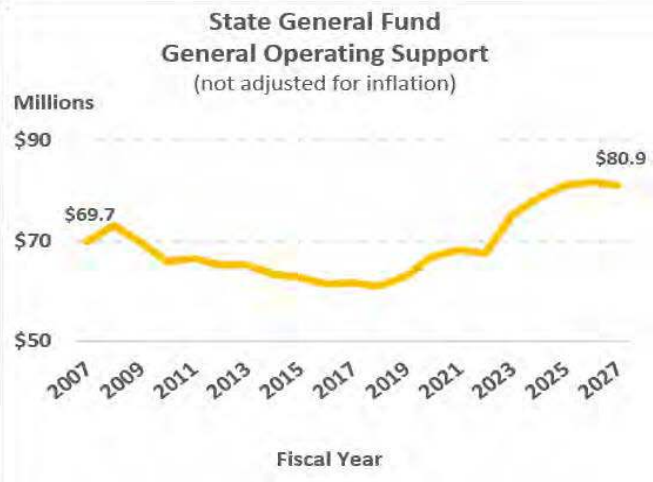
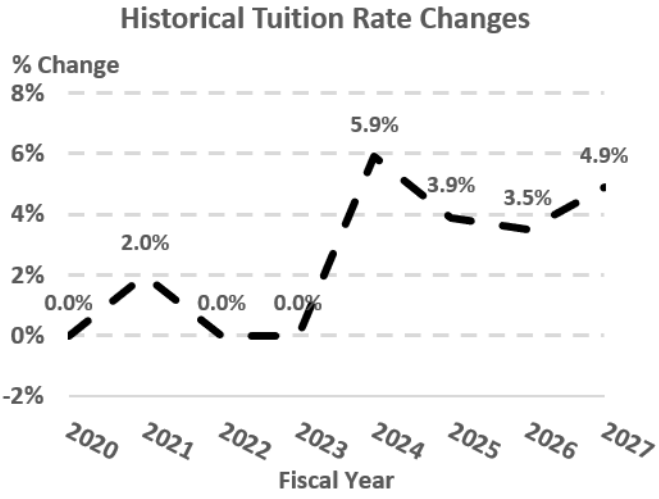
Over the past twenty years, the total SGF General Operating allocation has increased by $11.2 million or 16.0%, as shown in the graph below.

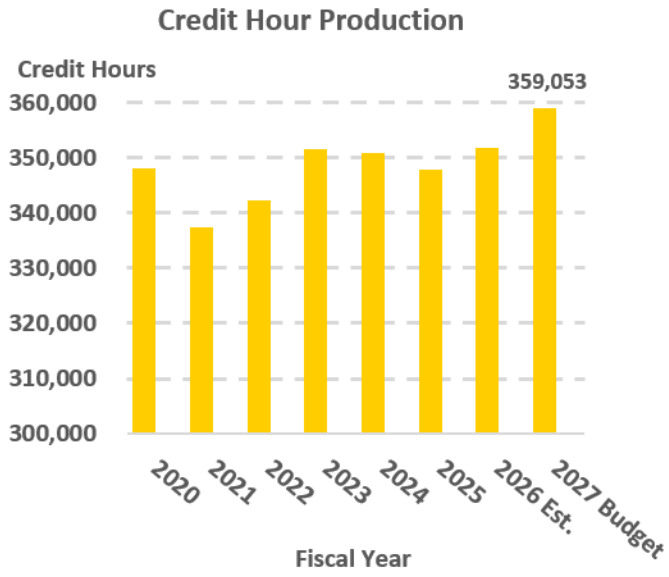


General Fees Fund (Tuition)

Tuition revenue collections are primarily dependent on enrollment (credit hours generated), type of students enrolled (e.g., resident or non-resident), and tuition rates. University tuition rates were held flat in FY 2020, followed by a 2.0% increase in FY 2021, and then held flat again for both FY 2022 and FY 2023. For FY 2024, the Kansas Board of Regents approved a 5.9% rate increase, for FY 2025 a 3.9% increase and for FY 2026 a 3.5% increase. For FY 2027, a 4.9% increase was approved.



For FY 2027 budgetary planning, the university projects an increase of 2.1% in credit hour production in comparison to the previous budget.



■ Compensation and Fringe Benefit Costs

University operations rely heavily on human resources to deliver services across campus, and as a result changes in compensation and benefits are some of the most significant cost drivers within the budget. Key changes within the FY 2027 budget includes market-based compensation adjustments, Faculty Promotions in Rank and Tenure, Faculty Performance Incentive Review, and an approximate 8.2% increase in employer paid health benefits.

The state legislature appropriated funding for a 1.0% compensation pool ($735,805) and support of fringe benefit increases ($591,522) for benefits eligible faculty and staff that are funded through the State General Fund. All other related costs are funded directly through university generated funding.

■ Key General Use Allocation Changes

To continue to deliver educational, career, and life value to students, the university is dedicated to advancing its academic and research programs in coordination with the goals of the Strategic Plan. The table below outlines the key allocation changes within the General Use funds and the goal within the strategic plan that the item addresses.

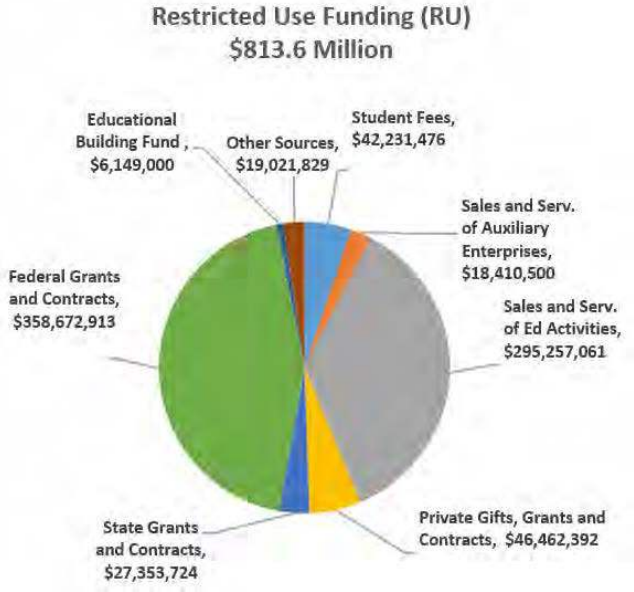
Restricted Use Budget

Restricted Use funds represent revenues derived from sources other than the State General Fund and tuition. Restricted Use funds are predominantly generated from research/grants, student fees, student housing, parking, and funding in support of student scholarships.



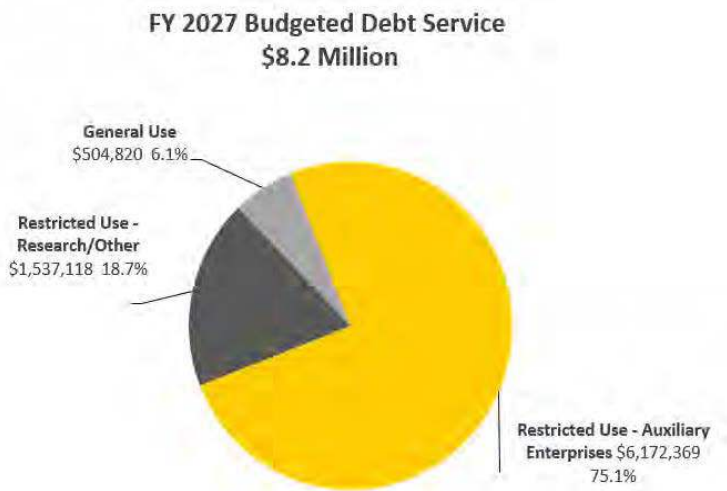
Overall, Restricted Use revenues have grown to represent 78.8% of the total budget, increasing from $155.4 million in FY 2018 to $813.6 in FY 2027. The majority of this growth has occurred in Federal Grants and Contracts, as well as Sales and Service of Educational Activities. These revenue sources are primarily used within the research related activities of the university.

New Debt Service and Issuance of Debt

The budget includes debt service payments for the planned issuance of no new debt projects.

Bond Rating	
Rating Agency	**Rating**
Moody's	Aa3

Overall, the annual debt service for FY 2027 is budgeted at $8.2 million. This includes debt service for academic buildings, as well as the debt service recorded within the Auxiliary Enterprises program code (student housing and parking).



University Resource Planning Process

Wichita State embraces a collaborative budget development process that draws on faculty, staff, and student involvement through multiple engagement opportunities. The university President reviews and discusses the current legislative status concerning appropriations and potential tuition increases with the President's Executive Team and during campus townhalls to obtain campus input. In addition, the University's Budget Advisory Committee (BAC) includes representation across campus of faculty, staff, and students. The BAC is co-chaired by the Senior Vice President for Administration, Finance and Operations and the Senior Executive Vice President and Provost. The committee includes the Executive Director of Budget, Deans from the academic colleges, Presidents from the Faculty and Staff Senates, and Student Government. Members of the Faculty and Staff Senate, as well as others from the campus community, can observe committee meetings.

The BAC is charged with developing a lasting framework to identify, assess, and implement ideas that can positively impact the budget and its alignment with the university's strategic plan. Throughout the development process, the committee is advised of tuition and State General Fund revenue estimates, with the committee providing guidance regarding expenditure planning around those parameters. Budget considerations by the committee are weighed based on their impact on the goals of the university's strategic plan and the following key criteria:

- Suggest strategic budget priorities consistent with the strategic plan.
- Evaluate and recommend options regarding specific campus budgetary concerns as assigned by the committee chairs.
- Communicate committee discussions and information with the areas of the university that they represent.

BAC discussions are then combined with those of other campus-wide committees, such as Strategic Enrollment Management and Strategic Planning. University Budget Officers are asked in early May to submit, through an online budgeting system, their budget request for the upcoming budget year based on guidelines developed from the past discussions with the Budget Advisory Committee and the President's Executive Team.

Throughout the budget process, the President, Vice Presidents, and Division of Administration, Finance and Operations hold discussions and presentations with deans, faculty, university senates, and the student body. Within these settings, students, faculty, and staff have the opportunity to ask questions and seek additional information at different stages of the budgeting process.

FY 2027 Annual Operating Budget
Budget Terms and Definitions

Funding Terms and Definitions:

State General Fund

Appropriations made by the Governor and Legislature from state tax revenues. For FY 2027, WSU has seven unique State General Funds:

1. State General Fund-Operating Expenditures	1000-0003
2. State General Fund-Technology Transfer Facility	1000-0005
3. State General Fund-Aviation Infrastructure	1000-0010
4. State General Fund-Aviation Research	1000-0015
5. State General Fund-Digital Transformation	1000-0020
6. State General Fund-Business Partnership	1000-0030
7. State General Fund-Student Financial Aid	1000-0350

The State General Fund-Operating Expenditures is the appropriation for general university operating expenditures including both salaries and fringe benefits and OOE. For FY 2027, the legislature appropriated amounts for targeted areas within the university. Separate budget units were established within the State General Fund to account for these appropriations. These include $2 million for the technology transfer facility (SGF-Technology Transfer Facility), $5.2 million for training and equipment expenditures of the National Center for Aviation Training (SGF-Aviation Infrastructure), $15 million for aviation research at NIAR (SGF-Aviation Research), $7 million for the National Institute for Digital Research & Transformation (SGF-Digital Transformation), $5 million for Business Partnership (SGF-Business Partnership), and $4.2 million for Student Financial Aid (SGF-Student Financial Aid).

General Fees

Revenue derived from the collection of student tuition. Expenditures from general fees may be made for salaries and wages and other operating expenditures.

General Use Funds

The combined revenues from state tax dollars (State General Fund) and tuition revenues (General Fees).

Student Fees

Revenue collected from students at the time of enrollment to cover the costs of student-related activities. Student fees, Health and Wellness and the ICAA fees are assessed on a three-tiered, flat fee structure, and are based on the type of student (undergraduate/graduate), number of enrolled credit hours, and in which semester classes are taken.

Educational Opportunity Fund

The Educational Opportunity Fund was established to provide funding for academic scholarships and fellowships for both graduate and undergraduate students; need-based grants, including awards to students with special expenses such as child care or groups of students who have been historically under-represented in higher education; salaries or grants for students participating in public and community service programs; and salaries for students employed in campus student service programs such as tutoring, day care, and peer counseling.

Wichita State University
Fiscal Year 2027 Annual Operating Budget

Instruction Program
Program Code 42000

Instruction Program Definition

The Instruction Program includes expenditures for all activities that are part of the University's instruction component. Expenditures for organizational (departmental) research and public service that are not separately budgeted are included in this program. The Instruction Program excludes expenditures for academic instruction when the primary assignment is administration. An example is the salary of an academic dean. However, expenditures for organizational (departmental) chairpersons and administrators for whom instruction is the primary role are included. The Instruction Program is further divided into two sub-programs: General Academic Instruction (42011) and Summer Session (42015).
