

Full Course Load Certification Graduate Students Only

There is no limit to the number of semesters the form can be filed as long as a student meets a qualifying reason listed below. Online enrollment limits still apply to students filing this form; no more than one online course (up to 3 credit hours) can count towards the minimum enrollment specified below. A student in their final term may not enroll in only online coursework. When planning a course of study, students should consider that enrolling in fewer than 9 credit hours could impact their ability to graduate by the program end date on the Form I-20. Approval of an FCLC is not a valid reason for filing an I-20 extension in the future.
