

WICHITA STATE UNIVERSITY AND DODGE CITY COMMUNITY COLLEGE 2+2 AGREEMENT
Associate of Science/Bachelor's Degree in Business Administration
June 2022

The purpose of the 2+2 Agreement is to provide Dodge City Community College's students a four-year coordinated program where students will receive an Associate of Science degree at Dodge City Community College (DCCC) in the first two years and a Bachelor of Business Administration degree from Wichita State University (WSU) after two additional years. This agreement will provide guidance for both parties in advising students.

This agreement is for Dodge City Community College students who have:

- Earned an Associate of Science (A.S.) degree according to attached degree plan.
- Achieved a minimum cumulative GPA of 2.25.
- Applied for admission to WSU.

Dodge City Community College students meeting the above requirements will:

- Be guaranteed admission to WSU with completion of application requirements and receipt of transcripts.
- Enter with junior status toward a baccalaureate degree.
- Be guaranteed to transfer up to 60 credit hours (based on requirements for the A.S. degree) from Dodge City Community College to WSU.

This partnership reflects the following objectives, institutional expectations, and operational principles:

- Expanded student program opportunities, course articulation understandings, and transfer coordination considered mutually beneficial in this coordinated partnership.
- Graduates will possess the technical skills and conceptual background, creative mindset, and applied experiences to address workforce needs
- All students must complete all major, institutional, and required degree requirements appropriate to the program curricula at the degree granting institution to graduate.
- Both Dodge City Community College and Wichita State University W. Frank Barton School of Business program faculty and administrators will promote the program with qualified prospective students and share assessment of learning outcomes toward the goal of program improvement.
- Students can inquire about academic and participation scholarships, financial aid, and grants by contacting the WSU Financial Aid office (316) 978-3430 and the Barton School of Business Advising Center at (316) 978-3203.
- Students transferring to WSU from DCCC who have not completed an A.S. must meet the necessary requirements for admission to WSU and will have their transcript evaluated on an individual basis.

To ensure a successful transition and completion of the associate's and bachelors' degrees from both institutions in this 2+2 agreement, students should refer to the required degree plans or stipulations of this agreement. Transfer students must complete at least 60 credit hours of four-year college work and no less than 45 credit hours of upper-division work to qualify for graduation from Wichita State University. Courses used as prerequisites may have higher grade requirements as described in the WSU undergraduate catalog.

Reverse Transfer

Students, who transfer to Wichita State University from DCCC before attainment of the Associate of Science degree, are eligible to reverse transfer courses that have WSU/DCCC equivalency back to DCCC. This allows for the attainment of the Associate of Science degree provided that at least 45 credit hours are earned at DCCC and all other degree requirements are met.

Terms of Agreement

The agreement will begin with the 2022-23 academic year.

Modification of Agreement

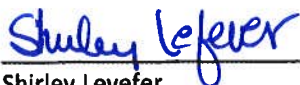

This agreement shall only be modified in writing with the same formality as the original agreement.

Termination of Agreement

Either party may terminate this agreement for any reason with a written notice from either party. The parties agree that termination shall include an agreement that students currently enrolled in the program at the time of termination shall be permitted to complete the program as described herein.

This agreement is a collaboration between Wichita State University and DCCC. Any changes, corrections, or additions to this agreement shall be in writing and signed by all necessary parties between both academic institutions.
academic institutions.
