WWSU History

Women of Wichita State is the merger of two previous women's organizations at Wichita State University: the Council of University Women and WSU's Women's Association.

The two organizations joined together with the idea that we are all Better Together!

Women of Wichita State University continues with the purpose to:

- Serve the interest of the university by providing scholarships to female-identifying students at WSU and;
- Foster a sense of community through the spirit of friendliness and support.
