RESPONSIBLE CONDUCT OF RESEARCH (RCR)

WSU Policy 9.26 / Responsible Conduct of Research (RCR) Training

Who: All University researchers, to include **faculty, staff and students**, who receive and/or participate in **research activities that are partially or fully funded by any external source,**

What: must complete, at a minimum, the RCR course titled "**Externally Funded Researchers,**"

How: in the CITI program **prior to beginning work** on any externally funded project. Select *only* this course for RCR – other courses are optional:

Even more RCR training resources can be found on WSU's RCR webpage found here:
https://www.wichita.edu/research/ResponsibleConductofResearch/Responsible_Conduct_of_Research.php

Note for Public Health Service (PHS) sponsors (such as NIH, CDC, HRSA, SAMHSA):

In **addition** to completion of the RCR course in CITI "Externally Funded Researchers", PHS/NIH requires on-going and substantive **in person training** in RCR (NOT-OD-10-019) for certain awards. When applicable, the Principal Investigator is responsible for providing **at least 8 hours of additional training** regarding the Responsible Conduct in Research **to trainees, fellows, participants and scholars** and is responsible for **documenting** this training which is subject to audit. Instructional recommendations are included in the updated Notice: NOT-OD-22-055.
