

# TECHNOLOGY TAKES THE WHEEL®

## AUTONOMOUS VEHICLE SEMINAR SERIES

National Center for Aviation Training  
Student Center, Lecture Hall

4004 N Webb Rd., Wichita, KS 67226

# Transportation Transformation: An Overview of Autonomous Vehicles

*Friday, August 30, 2019, 9:00 – 11:30 a.m.*

*National Center for Aviation Training  
Student Center, Lecture Hall*

**No fee to attend | Registration required | [www.wichita.edu/autonomousvehicles](http://www.wichita.edu/autonomousvehicles)**

We are headed down the road toward the future of transportation with connected and autonomous vehicles (AV) – one that will greatly impact society, including our cities, rural communities, commerce and even agriculture. Learn about the AV applications happening now, and the vision and planning taking place to create safe, inclusive and interconnected autonomous transportation systems of the future.

### Speakers

Mike Floberg – Director of Innovative Technologies, Kansas Dept. of Transportation (KDOT)

Jim Barbaresso – Leader, Intelligent Transportation Systems Practice, HNTB

Jill Ingrassia – Managing Director of Government Relations and Traffic Safety Advocacy, AAA

Aaron Foster - Solutions Engineer, Navya

### Moderator

Bill Roy - Editor, Wichita Business Journal

*Co-Sponsored by Wichita State University and AAA Kansas*
