

Primary Service Areas

Network Security Ops Augmentation

Research and Development

Audit & Compliance Support

Our Process

We provide student employees that are high quality, performance focused, better prepared, and eager to work and learn.

As an Employer Partner, we save you time and money:

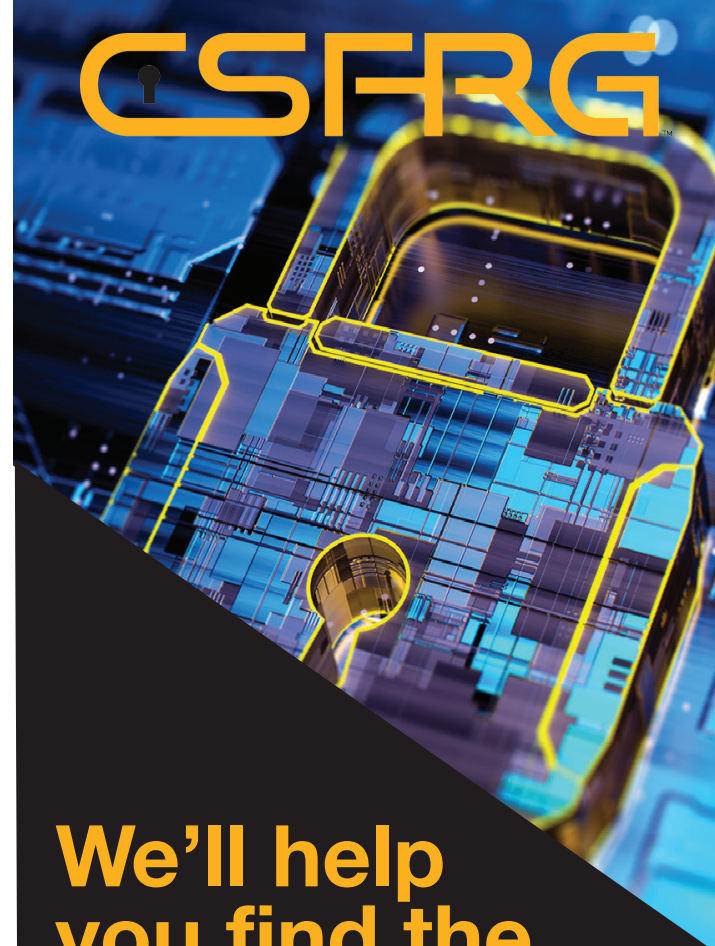

- Defining Skills Gap & Dev. Pathway
- Recruitment
- Hiring
- Management
- Performance & Ongoing Training
- Responsibility & Liability
- Payroll & Taxes

In addition, our WSU Career Coaches work with students to ensure they are equipped to be successful in their professional role. They also serve as an advisor and liaison-- **ensuring your needs are met.**

“Our Mission is to maintain an agile, adaptable cybersecurity organization with a skilled pipeline of individuals that help protect your people, digital assets, and critical processes that represent your companies’ core values.”

About CSFRG

Since 2017, CSFRG has leveraged partnerships with industry leaders who train, coach and guide students in cyber security, computer science and network engineering and pair fully-trained student teams with clients to implement advanced cyber security techniques and technology at a significant savings - freeing up key departments to focus on business growth and operations.
