LA114. What do you like most about living on campus? (N=265)

[PDF](#) [Export](#)

Answer

I don't have to travel far to get to class.

I like the convenience factor of being close to everything and not having to commute to campus every day.

Easy to get to classes and clubs.

I like the ease of access to campus resources.

That I am close to my classes where my courses I held.

It saves me money

Being close to my classes and campus job. Getting to know new people.

The convenience of getting to classes and underground parking.

The accessibility

I like being on campus to be able to participate in more campus events. I also have amazing roommates and friends

LA115. How can we improve the on-campus housing experience? (N=245)

[PDF](#) [Export](#)

Answer

Reopening the front desk at the Flats. The building felt safer with staff present.

I think that if the housing portal gave some more pertinent information when choosing roommates that would be more helpful. For instance, I only knew about how my roommates lived, not who they were, so having that knowledge could be helpful. Also knowing more about their hobbies and other things of that nature could help impact who I choose as roommates next time I go to apply for housing.

N/A

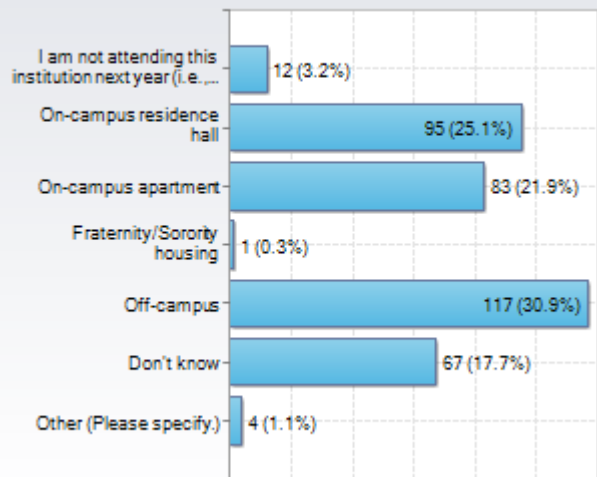

Dining hall services were severely limited in the fall 2023 semester, and I even had to switch meal plans because of this. Having better and more consistent food options in the dining hall would be a big help to students.

Provide more dining services at nearby buildings since the flats is farther away.

Providing a build you're own meal plan

Having another option for dining dollars that is lower than \$500 such as \$250 or \$300

| For the phone being a key can we just make the option of both your phone or the wsu id being capable of getting in ever door. It is frustrating to have to switch from my id to my phone back to my id. Also in cases where I either forget my id or phone I'm locked out because they can't get you in both doors and elevators. Just make the ID able to get in all doors including your room and the phone able to get in all doors including your room. It doesn't make sense to not have that capability especially with people occasionally forgetting items |
