

Fostering a
Community of
Care

Wichita State cares about our students' success, not only academically, but emotionally and physically as well. Because of our commitment, we provide services across campus that support and respond to our students' unique needs.

The WSU CARE Team receives referrals and supports students experiencing personal, emotional, and/or medical concerns. The CARE Team serves as a centralized reporting source for any individual (students, faculty, staff, etc.) who is concerned about an individual's wellbeing.

*Help is just a visit, a phone
call or an email away.
WSU cares!*

IT'S OKAY TO NOT BE OKAY

BUT IT'S NOT OKAY TO STAY THAT WAY.

Wichita State University

Campus Assessment Response Evaluation Team

Supporting the *whole student* one concern at a time.

The CARE Team is designed to support students by connecting them with resources and serving as an on-campus source of support. The CARE Team often collaborates with other offices on campus and in the community. Information may be provided to appropriate faculty and staff members based on a need to know and/or for health and safety reasons. The CARE Team supports the physical, mental and emotional wellbeing of students and works to respect their privacy.

What can I expect?

CARE Team uses a non-clinical case management model to support students in need. Once a report is received, the assigned case manager will reach out to the student via email, text and phone to schedule an appointment. The case manager will evaluate the concerns and determine appropriate support and intervention. Together, they will create a plan of support with the student.

EXAMPLES OF CONCERNS

- Basic Needs (financial, food/housing, transportation)
- Emotional/Social/Mental Health
- Interpersonal (stress, anxiety, overwhelmed)
- Academic
- Medical/Health
- Substance Use
- Family/Relationship Grief
- Home Sickness/Transition Issues

When and how do I share a concern?

We CARE about student success and rely on you – the eyes and ears of our campus community to help us make sure our students are supported. You can report observed or knowledge of concerning, distressing and disruptive behaviors by filling out a CARE report at wichita.edu/care.

CARE team CASE MANAGEMENT

NON-CLINICAL Case Management

What you can expect.

- Assesses student needs
- Facilitates referrals & care coordination
- Evaluates and advocates for options and services to meet a student's needs through communication and available resources to promote student safety, wellness, personal care and academic success.
- Mandated reporters
- Sexual Assault Victim Advocate
- Short term support
- Governed by FERPA

At the core, case management is about helping students overcome obstacles.

Case Management is NOT

- A licensed therapist
- Someone who will do the work for you
