Management's Discussion and Analysis

Wichita State University
Fiscal Year 2019 Annual GASB Financial Report
Management's Discussion and Analysis

As management of Wichita State University (WSU), we offer you this discussion and analysis of the financial activities of WSU for the fiscal year ended June 30, 2019. This information is designed to identify and explain significant financial issues, changes in WSU's financial position and deviations from the prior fiscal year. In accordance with GASB Statement No. 39 as amended by GASB Statement No. 61, WSU is required to include its component units within the financial report. Wichita State Innovation Alliance (WSIA) and Wichita State Innovation Alliance Investment Corporation (WSIAC) are component units with blended presentation within WSU's Statement of Net Position and Statement of Revenues, Expenses and Changes in Net Position. Wichita State University Intercollegiate Athletic Association, Inc., Wichita State University Union Corporation, Wichita State University Board of Trustees, Wichita State University Campus of Applied Sciences and Technology (WSU Tech) and Wichita State University Foundation are presented discretely within the financial report. Due to differences in reporting models, the Wichita State University Foundation is presented separately from the other discrete component units. We encourage you to consider this information in conjunction with the financial statements and the notes to the financial statements. These financial statements are prepared in accordance with Government Accounting Standards Board (GASB) principles.

FINANCIAL HIGHLIGHTS

- Net Position increased \$6.7 million (3.0%) compared to 2018.
- Operating revenue increased \$33.2 million (16.8%) driven by a \$16.9 million increase in Federal grants and contracts and a \$14.4 million increase in sales and services of educational activities of which \$12.4 million was related to research.
- Research expenses increased \$29.4 million (61.4%) from \$47.9 million in 2017 to \$77.3 million in 2019.

USING THE FINANCIAL STATEMENTS

This report consists of three financial statements: the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. The notes to the financial statements present additional information to support the financial statements. Their purpose is to clarify and expand on the information in the financial statements. The University implemented GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments and Statement No. 35, Basic Financial Statements - and Management's Discussion and Analysis for Public Colleges during fiscal year 2004. These standards changed the focus of the financial statements to a comprehensive one-look at the University as a whole, as opposed to the traditional presentation of fund groups. For fiscal year 2015, the University implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions. The primary objective of this new standard is to improve accounting and financial reporting by state and local governments for pensions. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and pension expense.

STATEMENT OF NET POSITION

The Statement of Net Position presents the assets, liabilities, and net position of the University at a point in time (at the end of the fiscal year). Its purpose is to present a financial snapshot of the University. The Statement of Net Position includes all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector enterprises. Under the accrual basis of accounting, all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Wichita State University
Fiscal Year 2019 Annual GASB Financial Report
Management's Discussion and Analysis

Within the Statement of Net Position, assets and liabilities are further classified as current or non-current. The current classification distinguishes those assets that are highly liquid and available for immediate and unrestricted use by the University and those liabilities likely to be settled in the next twelve months.

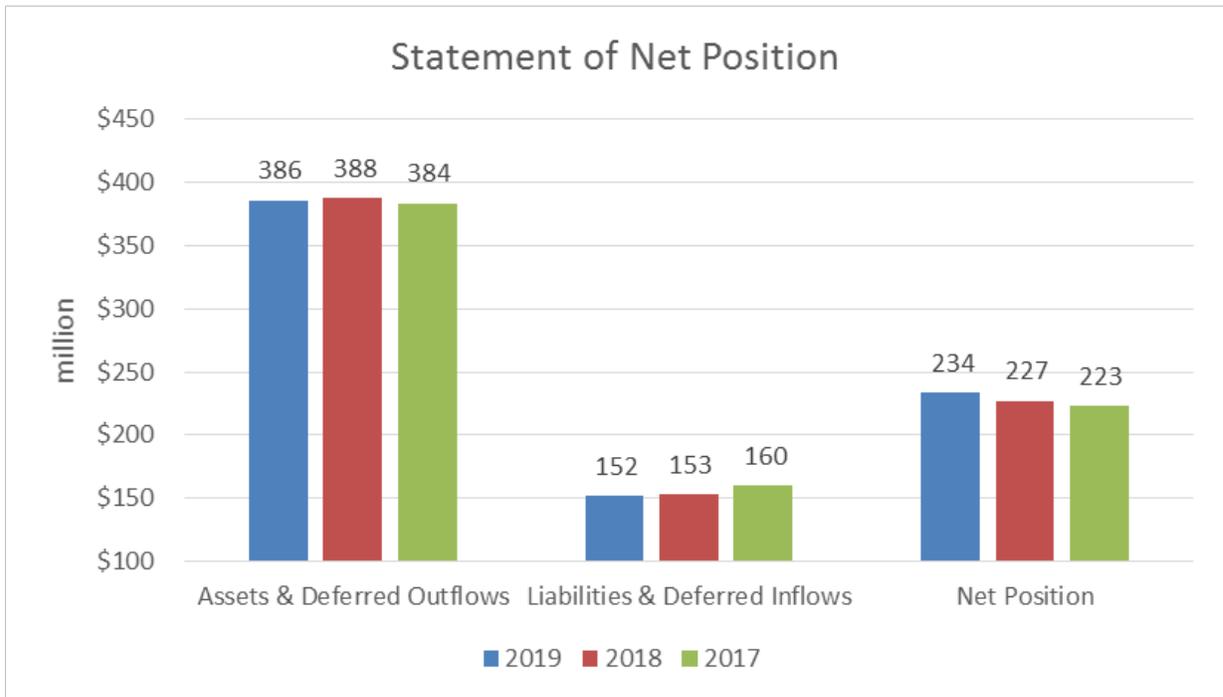

Net Position is divided into three categories:

1. Net Investment in Capital Assets indicates the University's equity in property, plant and equipment owned by the University.
2. Restricted Net Position is further divided into two subcategories, non-expendable and expendable. The corpus of non-expendable restricted resources is only available for investment purposes. Expendable Restricted Net Position is available for expenditure by the University but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets.
3. Unrestricted Net Position is available to the University for any lawful purpose of the institution.

The following is a summary of the University's assets, liabilities, and net position at June 30:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Current assets	\$ 101,962,838	\$ 97,129,249	\$ 96,678,068

Assets

At June 30, 2019, total assets were \$381.5 million, a decrease of \$1.0 million compared to 2018. Current assets increased \$4.8 million and consist of cash and cash equivalents, short-term investments, and accounts receivable. Cash and cash equivalents increased nearly \$3.0 million and accounts receivable increased \$1.9 million due to receivables from the aerospace industry associated with work performed by engineering labs at Wichita State. Non-current assets decreased \$5.9 million during 2019. Loans to students fell \$2.0 million as the Federal Perkins Loan program is no longer making loans to students. The reduction is the result of students making \$1.0 million in payments on outstanding loans and Wichita State assigning \$0.8 million of loans back to the Department of Education and cancelling \$0.2 million outstanding loans as directed by the Department of Education. Capital assets, net of depreciation, declined \$3.9 million. Wichita State removed \$4.4 million of undepreciated assets with the razing of Blake Hall and Fairmount Towers.

At June 30, 2018, total assets were \$382.5 million an increase of \$5.4 million (1.4%) compared to 2017. Current assets increased \$0.5 million as cash increased \$1.0 million, accounts receivable fell \$0.8 million and loans to students increased \$0.2 million. Non-current assets increased nearly \$5.0 million due to Wichita State's new parking garage and continued construction on other projects.

Liabilities

Overall, total liabilities have fallen \$13.0 million from 2017 to 2019. At June 30, 2019, total liabilities were \$144.2 million, a decrease of \$3.1 million compared to 2018. Current liabilities increased \$1.3 million because of (1) the current portion of the Federal government's contribution for Perkins Loans increased \$1.1 million, (2) accrued compensated absences increased \$0.8 million, (3) accounts payable increased \$0.9 million and (4) unearned revenue decreased \$1.7 million as deferred grant revenue fell in 2019.

Wichita State University
Fiscal Year 2019 Annual GASB Financial Report
Management's Discussion and Analysis

2019 non-current liabilities decreased \$11.9 million (9.8%) compared to 2018 because (1) Wichita State's net pension liability fell \$5.1 million, (2) outstanding lease payable on Shocker Hall and energy conservation improvements dropped \$2.1 million, (3) revenue bonds payable decreased \$3.4 million, (4) the non-current portion of the Federal government's contribution for Perkins Loans was reduced by \$1.7 million and (5) accrued compensated absences increased \$0.5 million.

At June 30, 2018, total liabilities were \$154.8 million, a decrease of \$2.4 million compared to 2017. Lease and revenue bonds payable fell \$4.1 million due to required payments even though WSU issued \$7.2 million in revenue bonds to build a parking garage in 2017. Net pension liability fell \$5.7 million. Accounts payable and accrued liabilities decreased \$4.5 million mainly due to pay cycle timing at June 30.

In 2018, WSU recorded a new liability as the Federal government winds down the Perkins loan program. This new liability of \$7.5 million reflects the amount of student loan funds the Federal government gave WSU to lend to students. As students pay back their Perkins loans, WSU will repay the Federal government their portion.

Deferred Outflows and Inflows of Resources

Total deferred outflows at June 30, 2019 were \$4.6 million, a decrease of \$0.9 million compared to 2018 primarily due to changes of assumptions and a change of WSU's proportion of the total State of Kansas KPERS plan. Total deferred outflows at June 30, 2018 were \$5.5 million, an increase of \$1.1 million compared to 2017 primarily associated with differences incurred between actual and projected earnings of the pension plan.

Total deferred inflows at June 30, 2019 were \$8 million, an increase of \$1.9 million compared to 2018 primarily due to changes of assumptions and a change of WSU's proportion of the total State of Kansas KPERS plan. Total deferred inflows at June 30, 2018 were \$6.1 million, an increase of \$2.8 million compared to 2017 primarily related to changes of assumptions and a change of WSU's proportion of the total State of Kansas KPERS plan.

Net Position

Net position is divided into three categories:

1. Net investment in capital assets shows WSU's equity in property, plant and equipment net of accumulated depreciation and related debt.
2. Restricted net position is divided into two categories, non-expendable and expendable. Non-expendable restricted resources are available only for investment purposes. Expendable restricted net position is available for expenditure but must be spent as determined by donors or external entities who have placed restrictions on the use of the assets.
3. Unrestricted net position is available to WSU for any lawful purpose of the university.

At June 30, 2019, total net position was \$233.8 million, an increase of \$6.7 million (3.0%) compared to 2018. \$191.5 million is invested in capital assets net of depreciation and debt. \$11.7 million is restricted for capital projects and \$0.9 million is restricted for loans. The remaining \$29.7 million is unrestricted and may be used for any lawful purpose of the institution.

Net position increased \$3.8 million (1.7%) in 2018. Net position totaled \$227.1 million at June 30, 2018. Most of net position, \$190.1 million is invested in capital assets net of depreciation and debt. \$10.0 million is restricted

for capital projects and \$1.0 million is restricted for loans. The remaining \$26.0 million is unrestricted and may be used for any lawful purpose of the institution.

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

The Statement of Revenues, Expenses and Changes in Net Position presents the total revenues earned and expenses incurred by the University for operating, non-operating and other related activities during a period of time. Its purpose is to assess the University's operating results.

Wichita State University
Fiscal Year 2019 Annual GASB Financial Report
Management's Discussion and Analysis

For the year ended June 30, 2019, operating revenues at WSU increased \$33.2 million (16.8%) compared to 2018. The increase in operating revenues is a result of:

- Revenue from Federal grants and contracts increased \$16.9 million (55.6%) from 2018 to 2019. Revenue for Public Service increased \$6.7 million primarily due to a \$5.2 million increase in GEAR UP. GEAR UP is a college access program that is federally funded through the U.S. Department of Education designed to increase the number of low-income students who are prepared to enter and succeed in post-secondary education. Research revenue from Federal grants and contracts increased \$10.0 million in 2019 primarily related to aerospace contracts with the U.S. Department of Defense.
- Revenue from sales and services of educational activities increased \$14.4 million (39.1%) from 2018 to 2019. Of the \$14.4 million increase, \$12.4 million is related to research and more specifically, engineering services related to the aerospace industry.

Total operating revenues for the year ended June 30, 2018, increased \$8.2 million (4.3%) over 2017. The following is a brief summary of the significant changes:

- In 2018, net tuition fell \$1.7 million as a result of an increase in tuition allowances of \$2.9 million and additional losses in International graduate and undergraduate students due to difficulty in obtaining student Visas. Fees increased \$5.3 million resulting in net tuition and fees increasing \$3.6 million.
- Federal grants and contract revenue fell \$2.3 million in 2018 after increasing by \$11.1 million in 2017.
- Sales and services of educational activities grew \$5.0 million in 2018. Sales and services provided by the National Institute for Aviation Research (NIAR) increased \$2.9 million and fees generated by the Community Engagement Institute increased \$1.6 million.

Non-operating Revenue

The following table represents the composition of non-operating revenues for the years ended June 30:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
State appropriations	\$ 79,069,679	\$ 71,060,543	\$ 71,717,391
Non-operating federal grants and contracts	18,065,675	17,427,834	16,114,678
Gifts	19,826,034	18,850,774	17,145,871
Investment income	1,197,091	546,318	269,924
Other non-operating revenues	<u>667,658</u>	<u>3,956</u>	<u>-</u>
Total non-operating revenues	<u>\$ 118,826,137</u>	<u>\$ 107,889,425</u>	<u>\$ 105,247,864</u>

Non-operating revenues for the year ended June 30, 2019, increased \$10.9 million (10.1%) compared to 2018. The increase in non-operating revenues is primarily the result of:

- State appropriations increased \$8.0 million (11.3%) in 2019. Of the \$8.0 million increase; \$1.9 million is general operations, \$1.8 million is the National Center for Aviation Training (NCAT), and \$4.2 million is the Kansas Aviation Research and Technology Growth Initiative (KART). The \$79,069,679 in state

appropriations is broken down as follows; General Operations \$62,895,123, NCAT \$5,161,231, KART \$9,035,691, and WSU's Innovation Campus \$1,977,634.

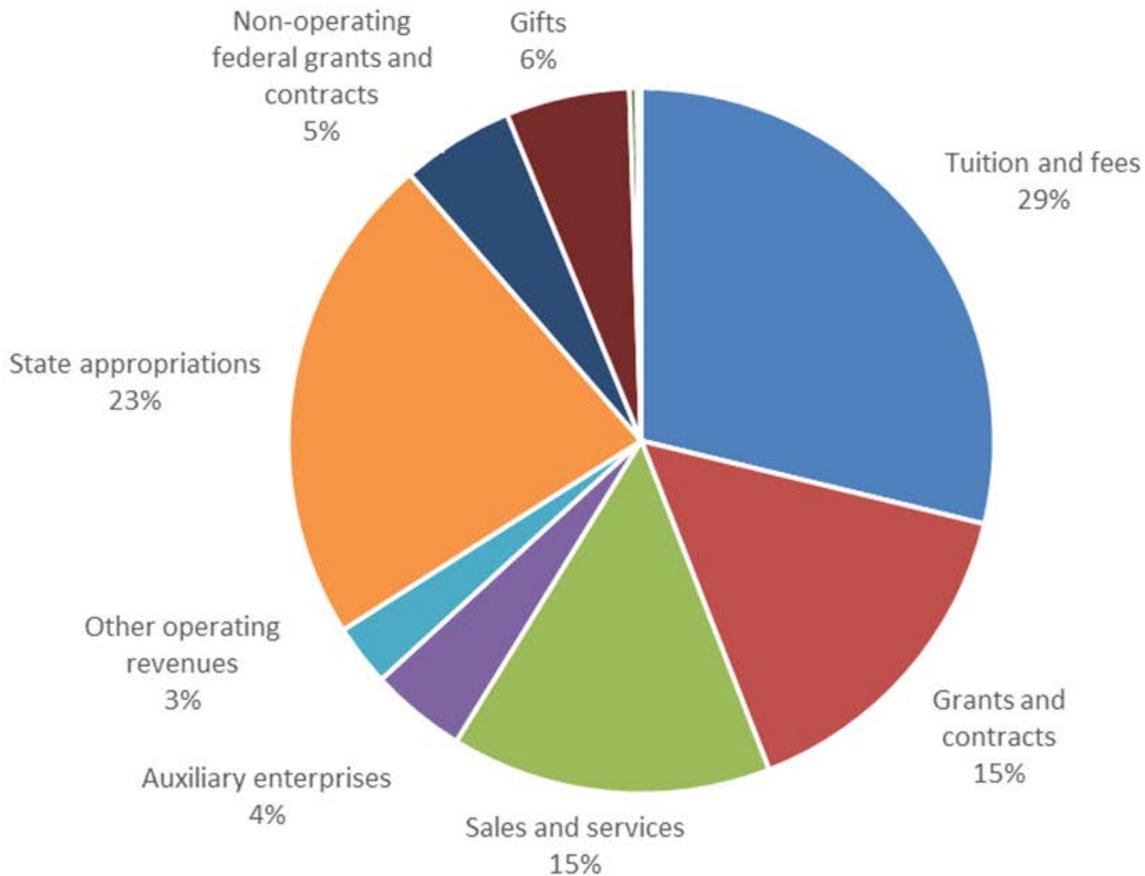

- Gifts to WSU increased \$1.0 million compared to 2018.

Total non-operating revenues increased \$2.6 million in 2018 compared to 2017.

- Pell grants increased \$1.3 million and gifts increased \$1.7 million while State appropriations fell \$0.7 million and investment income increased \$0.3 million. Total other revenues increased \$5.7 million due to a \$5.5 million increase in gifts for capital projects.

EXPENSES

Operating Expenses

The following breakout represents the composition of operating expenses for the years ended June 30:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Instruction	\$ 81,922,190	\$ 76,210,344	\$ 72,723,213

Scholarships and fellowships	15,295,615	14,843,757	15,373,453
Auxiliary enterprises	9,295,948	8,057,291	7,522,850
Depreciation and loss on disposal of assets	22,131,901	17,423,955	16,181,560
Other operating expenses	-	-	212,559
Total operating expenses	<u>\$ 347,211,627</u>	<u>\$ 301,304,427</u>	<u>\$ 279,820,893</u>

For the year ended June 30, 2019, operating expenses were \$347.2 million, an increase of \$45.9 million (15.2%) compared to 2018. The increase in operating expenses are primarily a result of:

- Research expenses increased \$18.5 million (31.4%) compared to 2018. The increase is a result of NIAR's work with the U.S. Army Combat Capabilities Development Command Aviation & Missile Center for a project focused on emerging materials for high-speed missile applications. NIAR is also working with the U.S. Air Force Research Laboratory for Modeling for Affordable, Sustainable Composites, aimed at developing a certification framework for enabling advanced materials and structural concepts for automated manufacturing.
- Public Service expenses increased \$6.8 million (33.6%) compared to 2018. The increase is directly related to a \$5.2 million increase in expenses for GEAR UP, a college access program funded by the U.S. Department of Education, designed to increase the number of low-income students who are prepared to enter and succeed in post-secondary education.
- Expenses for depreciation and loss on disposal of assets increased \$4.7 million (27.0%) compared to 2018. Wichita State removed \$4.4 million of undepreciated assets with the razing of Blake Hall and Fairmount Towers.

Looking at operating expenses categorically, compensation and benefits increased \$12.0 million (6.7%), with salaries and wages increasing \$9.2 million and benefits \$2.8 million. Compensation and benefits account for 56.3% of all operating expenses, down from 58.8% in 2018. Contractual and commodity expenses increased \$29.0 million (35.3%). This large increase is related to the increase in research and public service grants and contracts. The loss on disposal of assets of \$4.4 million, relating to the razing of Fairmount Towers and Blake Hall, explains the remaining increase in operating expenses.

Wichita State University
Fiscal Year 2019 Annual GASB Financial Report
Management's Discussion and Analysis

FY 2018 total operating expenses increased \$21.5 million (7.7%) compared to 2017. The increase was primarily a result of:

- More than half of the increase in operating expenses occurred in Research where expenses increased \$10.9 million (18.6%). Salaries and benefits increased \$3.9 million while contractual and commodity expenses increased \$11.3 million. Spending on capital fell \$4.3 million.
- Expenses in Instruction increased \$3.5 million (4.8%). Salaries and benefits increased \$3.1 million while contractual and commodity expenses fell \$1.1 million and spending on capital items increased \$1.5 million.
- Public Service spending increased \$1.2 million (6.5%). The majority of the increase is related to contractual and commodity expenses which increased by \$1.0 million.
- Expenses for Student Service increased \$2.5 million (8.5%). Salaries and benefits increased \$1.3 million and contractual and commodity expenses increased \$1.2 million.

When looking at operating expenses categorically, 58.8% of all operating expenses are for salaries and benefits. This category increased \$11.3 million in 2018. The State of Kansas increased pay 2.5% for employees with less than five years of experience in July 2017. The remainder of the increase in salaries and benefits relates to increased benefit expenses and promotions.

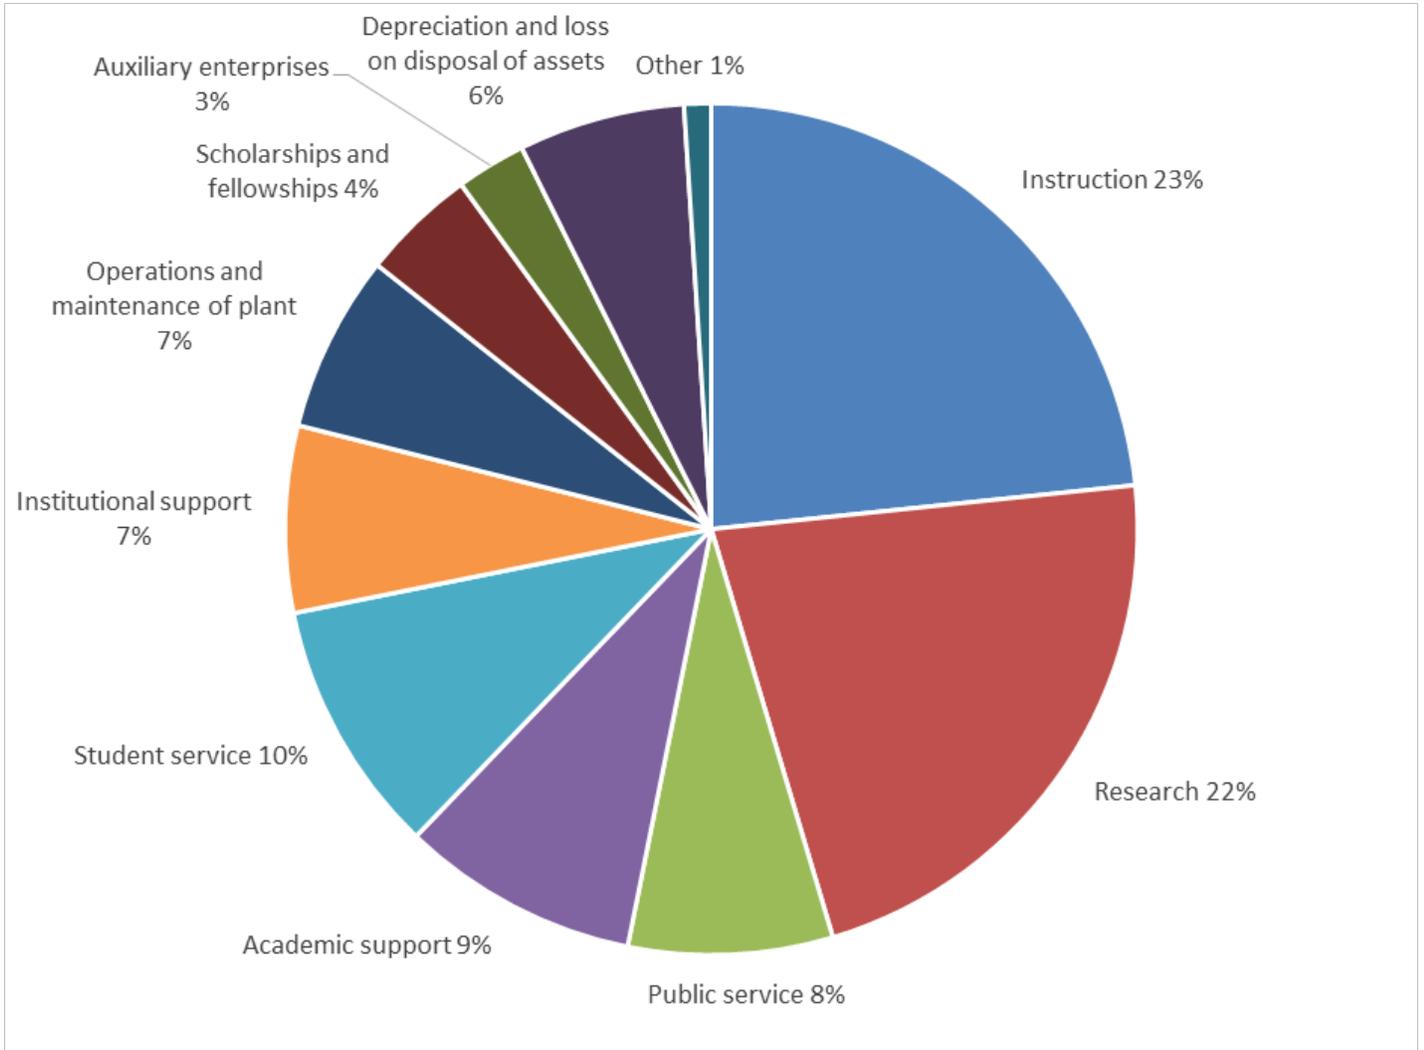

Non-operating expenses

For the year ended June 30, 2019, interest expense on outstanding bonds and leases decreased \$0.2 million (5.8%). Total non-operating expenses fell \$7.7 million (68%) as a one-time charge for the Federal share of the Perkins loan program was expensed in 2018.

Non-operating expenses increased \$7.1 million in 2018. The Federal Perkins loan has ended, and WSU recorded the \$7.5 million of Federal funds held for Perkins loans as an expense in the current year.

Cash provided by operating activities includes tuition and fees, certain grant and contract revenues, and sales and services of educational activities. Cash used for operating activities includes payments to employees and suppliers. Cash provided by non-capital financing activities includes State appropriations, Federal Pell grants, gifts, and the receipt and disbursement of the Federal Family Education Loan Programs (Stafford, Perkins and Plus Loans). Cash provided for capital and related financing activities represents capital appropriations, gifts and grants. This cash is used for construction, remodeling and repair of University facilities, as well as purchases of capital assets and debt servicing. Detailed information regarding the University's capital assets is available in Note 3 to the financial statements. Cash provided by investing activities includes purchases and sales of investments, as well as investment income earnings and losses realized.

CAPITAL ASSETS

WSU made significant investments in capital during FY 2019. Detailed information regarding capital asset additions, retirements and depreciation is available in Note 3 (page 34) to the financial statements.

The following is a brief summary of the construction projects placed in service during the fiscal year.

- **Advanced Education in General Dentistry (AEGD) Building:** Remodeled to allow for the transfer of the WSU Tech Dental Assistant program. The project cost of \$253 thousand was funded with university resources.
- **Fiske Hall:** Replaced the HVAC system in the building and renovated the interior of the building. The project cost of \$1.9 million was funded with rehabilitation and repair funds and university resources.

DEBT ADMINISTRATION

At June 30, 2019, revenue bond debt outstanding was \$22.5 million and capital lease payable totaled \$62.5 million. Detailed information about WSU's outstanding debt is available in Note 7 (page 37) to the financial statements.

At June 30, 2018, the University had \$25.8 million in revenue bond debt outstanding and \$64.6 million of capital leases payable.

At June 30, 2017, WSU had \$29.8 million in revenue bond debt outstanding and \$66.5 million of capital leases payable. During FY 2017, the University issued \$7.4 million in revenue bonds to fund the construction of a parking garage located near the Rhatigan Student Center and also refunded Series 2003C for a net present value benefit of \$268,725.

ECONOMIC OUTLOOK

Fiscal year 2020 state appropriations are currently budgeted at \$84,133,966 an increase of \$4,155,894 (5.2%) over fiscal year 2019. The increase is for the following; a final restoration of prior year budget reductions in the amount of \$716,818 for general operating support, \$117,051 collectively to aviation research, a budget enhancement of \$1,795,404 to offset increases in fringe benefit costs to lessen the need to increase existing tuition rates, and \$1,526,621 for employee pay adjustments.

During the fall 2019 semester 16,058 students were enrolled at WSU, which is an increase of 274 students (1.7%) compared to fall 2018. The number of students enrolling at WSU from Sedgwick County and the surrounding Metropolitan Statistical Area (MSA) has remained relatively flat over the last several years. Specifically, 1.2% fewer students enrolled at WSU in fall 2019 compared to fall 2015 from the Wichita MSA. The two main causes are shrinking high school graduating class sizes and declining population of transfer students available at area community colleges. With a flat population locally, recruitment efforts have been amplified in areas outside of

Wichita, particularly in other areas of Kansas and elsewhere along the I-35 corridor. While staff and resources remain largely deployed in Wichita to reach all parts of the state, new efforts exist in the regional communities of Overland Park (KS), Kansas City (MO), Oklahoma City/Tulsa (OK), Dallas/Ft. Worth and Houston (TX). Since 2015, the university has experienced growth of more than 200 percent in undergraduates enrolled from I-35 communities of Texas, Oklahoma and Missouri. Six regional staff members represent Wichita State in these communities, attending hundreds of college fairs and high school visits and planning more than 20 annual WSU events locally. Enrollment from other parts of Kansas has grown from 2015 to 2019, with increases of 44% from northeastern Kansas, 41% from southeastern Kansas and 34% from southwestern Kansas. In terms of retention of existing students, significant work has occurred to improve success rates amongst all students but in particular those who hail from underserved backgrounds. Since 2015, retention of first time in college underserved students has increased from 67.5% to 70.1%. Resources and data-driven strategies have been identified and dedicated to help academic and first-year advisors and faculty members deliver deliberate and more intrusive assistance to students. Meanwhile more coordinated financial aid strategy, mental health awareness and ample access to student success resources has helped make a difference for many students.

WSU continues to work with private developers, industry and government entities to build out and occupy 120 acres of developable land on the east side of campus. A new private residence hall, The Suites, was completed and occupied in fall of 2019. Textron Aviation committed to space in Partnership Building 2, bringing it to full occupancy. Partnership Building 3 is under construction. Also under construction are: National Institute for Aviation Research Advanced Virtual Engineering and Testing Labs; Steve Clark YMCA and Student Wellness Center; and, Hyatt Place Hotel. In Braeburn Square retail development, Fuzzy's Tacos is open and Journey East restaurant is scheduled to open in late fall 2019. A new home for the Barton School of Business, named Woolsey Hall, will seek state approvals and bonding in the coming months.

Overall, the financial position of the University remains strong.

Notes to the Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements and related supplemental information have been prepared in conformity with accounting principles generally accepted in the United States of America. The financial statements for the University have not been audited. Separately audited statements from component units, prepared in FASB format, are Wichita State University Intercollegiate Athletic Association, Wichita State University Foundation and Wichita State University Union Corporation. Two additional component units, the Wichita State University Board of Trustees and WSU Tech have been audited and presented in the GASB format.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Organization. Wichita State University (the "University") is an urban research institution providing undergraduate, graduate and professional education in a variety of academic programs. The University serves both traditional and nontraditional student bodies. The University is accredited by the Higher Learning Commission formerly the North Central Association of Colleges and Schools.

Undergraduate and graduate degrees are available from six colleges: Fairmount College of Liberal Arts and Sciences; W. Frank Barton School of Business; College of Applied Studies; College of Engineering; College of Fine Arts and College of Health Professions. The University is governed by the Kansas Board of Regents and is an agency of the State of Kansas. As an agency of the State of Kansas, the University is included in the comprehensive annual financial report (CAFR) of the State of Kansas.

The University conducts classes at five locations. The main campus is located at 1845 Fairmount, Wichita, Kansas. There are four satellite campuses: WSU Haysville is located at 106 Steward Avenue, Haysville, KS, the West Campus is located at 3801 North Walker Avenue, Maize, Kansas, the South Campus is located at 3805 E. Harry, Wichita, Kansas, and the Old Town Campus is located at 121 N. Mead, 213 N. Mead and 238 N. Mead, Wichita, Kansas.

Financial Reporting Entity. As required by the accounting principles generally accepted by the United States of America as prescribed by the Governmental Accounting Standards Board (GASB), these financial statements present the financial position and financial activities of the University and its component units: Wichita State Innovation Alliance (WSIA), Wichita State Innovation Alliance Investment Corporation (WSIAC), the Wichita State University Foundation, the Wichita State University Intercollegiate Athletic Association, Wichita State University Union Corporation, Wichita State University Board of Trustees, and the Wichita State University Campus of Applied Sciences and Technology (WSU Tech).

WSIA and WSIAC, in conformity with GASB Statement No. 35 Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities and with GASB Statement No. 39 Determining Whether Certain Organizations are Component Units, as amended by GASB Statement No. 61, The Financial Reporting Entity are considered blended component units.

WICHITA STATE UNIVERSITY

Notes to the Financial Statements

Each discretely presented component unit is independently audited and received an unmodified opinion. Financial activities and balances of component units have been discretely presented on the University's financial statements. This discrete display presentation is in conformity with GASB Statement No. 35 Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities and with GASB Statement No. 39 Determining Whether Certain Organizations are Component Units, as amended by GASB Statement No. 61, The Financial Reporting Entity.

Basis of Accounting. For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated except for the discretely presented component units. Since the component units are displayed discretely, inter-agency transactions have not been eliminated in accordance with GASB guidelines.

Cash Equivalents. For purposes of the Statement of Cash Flows, the University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Recent Accounting Pronouncements. GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, sets forth new financial reporting standards and disclosures for Other Postemployment Benefits (OPEB) and replace the requirements of GASB Statement No. 45. This statement requires that the liability of the University be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plans fiduciary net position, if any. The OPEB liability is required to be determined through an actuarial valuation for the University.

The Statement also requires that deferred outflows of resources and deferred inflows of resources related to OPEB be recognized by the University for changes in the components of the net OPEB liability including changes in assumptions, changes in benefit terms, and changes in actual and expected experience. In addition, employer contributions subsequent to the measurement date of the net OPEB liability are required to be reported as deferred outflows of resources.

Disclosures are required related to the Statement to disclose the following:

- Key provisions of the OPEB plan
- The number of participants
- Changes in the net OPEB liability
- Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rate
- Actuarial assumptions utilized in the valuation of the net OPEB liability.
- OPEB expense and details of the deferred outflows of resources and deferred inflows of resources excluding the expected amortization of the deferred outflows and deferred inflows.

Investments. Investments in equity securities, fixed income securities and mutual funds are carried at fair value. Fair value is determined using quoted market prices. Investments in nonnegotiable certificates of deposits and external investment pools are carried at cost.

WICHITA STATE UNIVERSITY
For the Years Ended June 30, 2019 and 2018
Notes to the Financial Statements

Accounts Receivable. Accounts receivable consists of tuition and fee charges to students, and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from the Federal government, State and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts. (See Note 4)

Inventories. Inventories are recorded at the lower of cost, using the first in first out method, or market.

Loans to Students. The University makes loans to students under various federal and other loan programs. Such loans receivable is recorded net of estimated uncollectible amounts. (See Note 5)

Prepaid Expenses. Prepaid expenses primarily consist of rent.

Restricted Cash Equivalents and Investments. Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as non-current in the Statement of Net Position.

Capital Assets. Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation in the case of gifts. For equipment, the University's capitalization policy includes all items with a unit cost of \$5,000 or more, and an estimated life greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if the related project cost exceeds \$100,000. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line, modified half-year convention method over the estimated useful lives of the assets. Useful life is 40 years for buildings, 25 years for infrastructure and land improvements, 8 years for non-information technology equipment, 5 years for vehicles and 3 years for information technology equipment. The University reserves the discretion to modify the useful life of an asset in an unusual circumstance.

Costs incurred during construction of long-lived assets are recorded as construction-in-progress and are not depreciated until placed in service. (See Note 3)

Unearned Revenue. Unearned revenues consist primarily of summer school tuition not earned during the current year and amounts received from grant and contract sponsors that have not yet been earned. (See Note 6)

Compensated Absences. Employee vacation is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded as accrued compensated absences in the Statement of Net Position, and as a component of operating expenses by University function in the Statement of Revenues, Expenses, and Changes in Net Position. The expenses are also a component of compensation and benefit expense in "Operating Expenses by Natural Classification". (See Note 11)

Deposits Held in Custody for Others. Deposits held in custody for others consist primarily of funds for student organizations that are administered by the University.

Noncurrent Liabilities. Noncurrent liabilities include principal amounts of revenue bonds with contractual maturities greater than one year and certain liabilities associated with employee benefits. (See Notes 7, 8 and

WICHITA STATE UNIVERSITY
For the Years Ended June 30, 2019 and 2018
Notes to the Financial Statements

9) Also included are lease principal amounts for Shocker Hall and energy saving projects on University buildings (See Note 7).

Bond premiums are capitalized and amortized over the term of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium.

Deferred Inflows/Outflows. Deferred outflows and deferred inflows result from the consumption or acquisition of net position in one period that is applicable to future periods. These items are reported separately from assets and liabilities.

In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial element represents the consumption of net position that applies to future periods and so will not be recognized as an outflow of resources until then.

In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate financial element represents the acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources until then.

Pensions. For the year ended June 30, 2015, the University implemented the provisions of GASB 68, *Accounting and Financial Reporting for Pension's*. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kansas Public Employees Retirement System (KPERS) and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

OPEB. For the year ended June 30, 2018, the University implemented the provisions of GASB 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to the OPEB plan, and OPEB expense an actuarial valuation was completed. As the OPEB plan was measured at June 30, 2018, the current year contributions to the Plan by the University are recorded as deferred outflows.

Refundable Advances From Governmental Grants. In accordance with GASB 33, the University has recognized a liability for the federal portion of its Perkins Loan portfolio that is expected to be repaid to the Department of Education. Given that the Perkins Loan Program was not renewed and the wind-down procedures for the program require that the Federal funds be returned on an annual basis for the Department of Education's portion of the cash received each year, a liability has been recognized and an allocation is made between current and noncurrent based on expected repayment requirements in accordance with the current Department of Education guidelines.

The University's net position is classified as follows:

Net investment in capital assets: This represents the University's total investment in capital assets, net of depreciation less outstanding debt obligations used to acquire those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

WICHITA STATE UNIVERSITY
For the Years Ended June 30, 2019 and 2018
Notes to the Financial Statements

Restricted net position - nonexpendable: Restricted nonexpendable net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted net position - expendable: Restricted expendable net position includes resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, State appropriations, and sales and services of educational departments. These resources are used for transactions relating to the educational and general operations of the University and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also included auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff. The auxiliary enterprises included here are student housing and parking operations.

Tax Status. As a State institution of higher education, the income of the University is generally exempt from Federal and State income taxes under Section 115(a) of the Internal Revenue Code; however, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(b). The University complies with this requirement by annually filing form 990-T through the State of Kansas.

Classification of Revenues and Expenses. The University has classified the activity on the Statement of Revenues, Expenses, and Changes in Net Position as either operating or non-operating revenues according to the following criteria:

Operating Revenues and Operating Expenses: Operating revenues and expenses include activities that have the characteristics of exchange transactions, including nearly all of the University's expenses and certain revenues such as (1) student tuition and fees, net of scholarships discounts and allowances, (2) sales and services of auxiliary enterprises, (3) certain Federal, State and local grants and contracts, and (4) interest on institutional student loans and auxiliary enterprises.

Non-Operating Revenues (Expenses): Non-operating revenues or expenses are those in which the University receives or gives value without directly giving or receiving equal value, such as State and Federal appropriations, Federal Pell grants, private gifts, and investment income.

Scholarship Discounts and Allowances. Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on behalf of the students. Certain governmental grants, such as Pell Grants, and other Federal, State or nongovernmental programs, are recorded as either operating or non-operating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

NOTE 2 - CASH, CASH EQUIVALENTS, AND INVESTMENTS

The carrying values of deposits and investments shown below are included in the Statement of Net Position as follows:

<u>Carrying Value</u>	<u>FY 2019</u>	<u>FY 2018</u>
Cash deposits with State Treasury	\$ 68,859,620	\$ 65,986,894
Cash deposits with financial institutions	1,342,213	1,227,947
Certificates of deposit	291,087	410,515
Funds held at Pooled Money Investment Board	536,746	527,100
	<u>\$ 71,029,666</u>	<u>\$ 68,152,456</u>

A reconciliation of deposits and investments to the Statement of Net Position as of June 30 is as follows:

<u>Deposits and Investments</u>	<u>FY 2019</u>	<u>FY 2018</u>
Cash and cash equivalents	\$ 70,900,363	\$ 67,942,915
Investments	129,303	209,541
	<u>\$ 71,029,666</u>	<u>\$ 68,152,456</u>

Deposits

The University's deposits with the State Treasurer are pooled with the funds of other State agencies and then, in accordance with statutory limitations, placed in short-term investments with the exception of bond funds. All bond proceeds are invested in conjunction with specifications stated in the bond resolutions.

State law requires the University to deposit the majority of its cash balances with the State Treasurer, who holds and invests the funds. The investments are managed by the Pooled Money Investment Board (PMIB), which maintains a published Investment Policy. The exceptions to this are any funds maintained in the University's imprest fund, organizational safekeeping fund, and any funds held by external entities on behalf of the University.

Cash balances maintained by the State Treasurer are pooled and are held in a general checking account and other special purpose bank accounts. The available cash balances beyond immediate need are pooled for short-term investments purposes by the PMIB and are reported at fair value, based on quoted market prices.

The majority of deposit balances maintained by the State Treasurer and PMIB are covered by FDIC or collateralized. The University does not have a formal deposit policy regarding custodial credit risk. However, management has evaluated the financial stability of the financial institutions involved and feels the deposit custodial credit risk is minimal.

Investments

Pooled Money Investment Board (PMIB). The investment policy of the PMIB is governed by State statutes. The primary objectives are to attain safety, liquidity, and yield. Allowable investments for State pooled moneys not held in Kansas financial institutions are as follows:

WICHITA STATE UNIVERSITY
For the Years Ended June 30, 2019 and 2018
Notes to the Financial Statements

- Direct obligations of, or obligations except mortgage backed securities, that are insured as to principal and interest by the U.S. Government, or any direct agency thereof, with maturities up to four years
- Repurchase agreements with Kansas banks or with primary government securities dealers
- Interfund loans to various State agencies as mandated by the Kansas Legislature limited to not more than the lesser of 10% or \$140,000,000 of State monies
- Certain Kansas agency and SKILL Act projects and bonds
- High grade commercial paper not to exceed 270 days to maturity
- High grade corporate bonds not to exceed 2 years to maturity

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The State Treasurer and PMIB minimize interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirement for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and by investing operating funds primarily in shorter-term securities.

As of June 30, 2019 and 2018, the University had the following investments:

<u>Investment Type</u>	<u>FY 2019</u>	<u>FY 2018</u>
Certificates of Deposit	\$ 291,087	\$ 410,515

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the University. The University investments may have credit risk, since the underlying securities may include securities other than those that take the form of U.S. Treasuries or obligations explicitly guaranteed by the U.S. Government. The investments are unrated and certain investments have an underlying collateral agreement.

Custodial Credit Risk. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of the investments that are in the possession of an outside party.

The University's investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the University's name, and are held by either the counterparty or the counterparty's trust department or agent.

The University does not have a formal investment policy that addresses custodial credit risk. However, the University's custodial credit risk is estimated to be minimal based on the expressed investment policies of the State Treasurer and PMIB.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer that exceeds 5% or more of its total investments. Investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. Information about concentrations of investments with a single issuer is not provided by the State Treasurer or PMIB and therefore the University cannot provide this information.

Notes to the Financial Statements

The financial statements of the State of Kansas provide additional information about the risk associated with the State Treasurer's and PMIB's investment portfolio.

The University elected not to capitalize certain collections. Those collections adhere to the University's policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep encumbered, care for and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. Generally accepted accounting principles permit collections maintained in this manner to be charged to operations at the time of purchase rather than be capitalized.

NOTE 4 - ACCOUNTS RECEIVABLE

Accounts receivable are shown in the accompanying Statement of Net Position. At June 30, 2019 and 2018 accounts receivable net of allowance for doubtful accounts consisted of the following:

	<u>June 30, 2019</u>	<u>June 30, 2018</u>
Student Tuition and Fees	\$ 13,534,946	\$ 11,808,161

Total Accounts Receivable	<u>\$ 27,109,799</u>	<u>\$ 25,182,396</u>

NOTE 5 - LOANS TO STUDENTS

Student loans made through the Federal Perkins Loan Program comprise substantially all of the loans to students at June 30, 2019 and 2018. The Programs provide for cancellation of a loan at rates from 15% to 30% per year up to a maximum of 100% if the participant complies with certain provisions.

As the University determines that loans are uncollectible and not eligible for reimbursement by the Federal government, the loans are written off and assigned to the U. S. Department of Education.

Effective October 1, 2017, the United States Department of Education (ED) did not renew the Federal Perkins Loan Program. As a result, after a brief transition period, no new loans can be disbursed to students. The current guidance provided by ED stipulates that as cash is collected by the University from loans disbursed prior to October 1, 2017, such funds are to be remitted back to ED on a proportional basis (the Perkins program was originally funded by ED with a small percentage matched by the University). Given this recent guidance, the University has determined that it is probable that ED, as the provider of the original resource, will require the University to return all of the resources originally received under this program. At the time of the receipt of the resources, the University recorded non-exchange revenues, and thereby, the balance of the resources provided by ED resides in the University's net position.

Based on the University's estimate that the return of these resources is probable, a liability of \$6,832,224 and \$7,499,882 has been recorded in the fiscal years ended June 30, 2019 and 2018, respectively, on the University's financial statements.

NOTE 6 - UNEARNED REVENUES

Unearned revenues consist primarily of summer session tuition and fees and advance collections on grants and contracts. The breakdown of unearned revenues is as follows:

Acceleration of Maturity in Event of Default

If an Event of Default shall have occurred and be continuing, the Kansas Development Finance Authority (Authority) may, and shall upon the written request of the Owners of not less than 25% in aggregate principal amount of Bonds then Outstanding by notice in writing delivered to the Authority and the University, declare the principal of all Bonds then Outstanding and the interest accrued thereon immediately due and payable, and such principal and interest shall thereupon become and be immediately due and payable.

An Owner means the registered owner of any Bond as shown on the bond register maintained by the Bond Registrar.

If, at any time after such declaration, but before the Bonds shall have matured by their terms, all overdue installments of principal and interest on the Bonds, together with the reasonable and proper expenses of the Bond Registrar and Paying Agent, and all other sums then payable by the Authority shall either be paid or provision shall be made for such payment, then and in every such case the Authority shall, but only with the approval of the Owners of not less than 50% in aggregate principal amount of the Bonds Outstanding, rescind such declaration and annul such default in its entirety.

Capital Leases Payable

The University, on February 22, 2006, entered into a lease-purchase agreement and performance contract with Custom Energy Services, L.L.C. for a period of fifteen years that totaled \$12,316,635. The agreement was duly approved and authorized by the Kansas Board of Regents on February 16, 2006. The annual effective interest rate is 3.945%. The first payment was due October 1, 2006. Rental payments are due semi-annually on October 1 and April 1. The final rental payment is due October 1, 2021. Payments are to be made from University annual budget allocations. An energy audit identified over 100 energy saving measures resulting in a projected annual utility savings of \$1,173,811. These projects included lighting retrofit, water retrofit, replacement of boilers, cooling tower improvements, steam trap replacement, expansion of the energy management system and others. Custom Energy Services, L.L.C. guarantees annual savings to be at least \$1,118,277. This amount is greater than the cost of energy conservation measures, including financing cost, over the financing period. Savings from utilities are used to pay the debt service expenditures.

On August 1, 2013, the University entered into a management agreement with the Wichita State University Union Corporation (Union) whereby the University is to manage and operate a new housing and dining facility constructed and owned by the Union. Under the terms of the agreement, the University is obligated to make payments to the Union sufficient to cover the Union's debt service obligations on the loans used by the Union to finance the construction of the housing and dining facility. As part of this agreement, the Union also provided \$483,343 of funding to refund the remaining principal balance on the University's 2010 Housing System Energy Improvement Bonds. Commencement of this lease occurred upon completion of the facility's construction in August of 2014, at which time the University accounted for this agreement as a capital lease. Lease payments will occur through fiscal year 2046, which is the term of the lease.

As of June 30, 2019, future lease payments are as follows.

NOTE 8 - RETIREMENT PLANS

The University participates in two cost-sharing multiple-employer defined benefit pension plans and one defined contribution pension plan.

Defined Contribution Plan

Eligible faculty and unclassified employees are required to participate in the Kansas Board of Regents (Regents) defined contribution retirement plan, which was authorized by K.S.A. 74-4925. The Regents have selected the following companies to provide investment options to participants: (1) Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA/CREF), and (2) ING Financial Advisors. Benefits under these plans depend solely on the contributed amounts and the returns earned on the investment of those contributions. All contributions are fully vested with the first contribution.

For the year ended June 30, 2019, active members were required by State statute to contribute 6% and the University to contribute 9% of the employees' covered payroll. The Kansas Legislature establishes and may amend active plan members' and the University's contribution rates. The following table provides a summary of contributions made to the defined contribution plan:

<u>Defined Contribution Plan Contributions</u>		
<u>Year</u>	<u>Employee</u>	<u>Employer</u>
2015	\$ 4,984,360	\$ 7,776,914
2016	5,138,092	7,988,343
2017	5,556,839	8,633,102
2018	5,524,009	8,586,825
2019	5,808,887	9,013,077

Voluntary Tax-Sheltered Annuity Program

Employees may also elect to participate, up to the maximum dollar amount permitted by the Internal Revenue Code, in a voluntary tax-sheltered annuity program. This voluntary plan permits employees to designate a part of their earnings into tax-sheltered investments and thus defer Federal and State income taxes on their contributions and the accumulated earnings under the plan. Participation and the level of employee contributions are voluntary. The employer is not required to make contributions to the plan.

Defined Benefit Pension Plan

The University participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Comprehensive Annual Financial Report which can be found on the KPERS website at www.kpers.org or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

Benefits Provided

KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the General Assembly. Member employees with ten or more years of credited service, may retire as early as age 55, with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 "points".

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. The accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees chose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump-sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas. The retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions

K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contributions rates. Effective July 1, 2009, KPERS has two benefit structures and contribution rates depend on whether the employee is a Tier 1 or Tier 2 member. Tier 1 members are active and contributing member hired before July 1, 2009. Tier 2 members were first employed in a covered position on or after July 1, 2009. Kansas law establishes the KPERS member-employee contribution rate at 6% of covered salary for Tier 1 member and 7.15% of covered salary for Tier 2 members for the years ending June 30, 2019 and 2018. Member employee's contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates be determined based on the results of each annual actuarial valuation. KPERS is funded on an actuarial reserve basis. Kansas law sets a limitation on annual increases in the employer contribution rates. The actuarially determined employer contribution rate (not including the 1.00% contribution rate for the Death and Disability Program) and the statutory contribution rate was 12.01% for the fiscal year ended June 30, 2018 and 12.01% for the fiscal year ended June 30, 2019.

WICHITA STATE UNIVERSITY
For the Years Ended June 30, 2019 and 2018
Notes to the Financial Statements

Contributions to the pension plan from the University were \$1,985,419 and \$2,029,456 for the years ended June 30, 2019 and 2018, respectively.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At June 30, 2019 and 2018, the University reported a liability of \$22,240,346 and \$27,387,053, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017, which was rolled forward to June 30, 2018.

The University proportion of the net pension liability was based on the ratio of the University actual contributions to KPERS, relative to the total employer and non-employer contributions of the State/School subgroup within KPERS for the fiscal year ended June 30, 2018.

The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2018, the University proportion was 0.31%, which was decrease of 0.06% from its proportion measured as of June 30, 2017. As of June 30, 2018, the University proportion of the total contributions made to the Police and Fire group within KPERS was 0.22%, which was a 0.02% decrease from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the University recognized a pension expense of \$83,878. At June 30, 2019, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience	\$ 129,045	\$ 883,534
Net difference between projected and actual earnings on pension plan investments	400,239	-
Change in assumptions	868,625	23,220

University contributions subsequent to measurement date	<u>1,815,730</u>	<u>-</u>
Total	<u>\$ 4,065,926</u>	<u>\$ 8,012,428</u>

\$1,815,730 reported as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry age normal
Inflation	2.75%
Salary Increases, including wage increases	3.50 to 12.00%, including price inflation
Long-term Investment Rate of Return, net of investment expense, and including price inflation	7.75%

Mortality rates were based on the RP-2014 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale MP-2016.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study conducted for the period beginning January 1, 2013 and ending December 31, 2015. The experience study is dated November 18, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocations as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	47%	6.85%
Fixed income	13%	1.25%

Real return	11%	1.71%
Real estate	11%	5.05%
Alternatives	8%	9.85%
Short-term investments	2%	-0.25%
Total	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from The University will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the University's proportionate share of the net pension liability to changes in the discount rate

The following presents the University's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
University's proportionate share of the net pension liability	\$ 30,117,516	\$ 22,240,346	\$ 15,585,211

Pension Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS financial report.

General Information about the OPEB Plan

Plan Description. As a component unit of the State of Kansas, Wichita State University (WSU) participates in the State's long-term disability program. Participating employers pay the cost of the long-term disability and life insurance coverage for their eligible members. The long-term disability plan is considered to be a single

WICHITA STATE UNIVERSITY

Notes to the Financial Statements

employer long-term disability plan. Eligible employees consist of all individuals who are: (1) currently active members of KPERs, (2) employees of an educational institution under the Kansas Board of Regents as defined in K.S.A. 74-4925, (3) eligible employees of University of Kansas Hospital Authority as defined in K.S.A. 76-3322, or elected officials. The plan provides a group life benefit for active members through a fully-insured program with Standard Insurance Company. Because this benefit is fully insured, it is not included in the scope of the actuarial valuation. The plan also provides a self-funded LTD benefit and a self-funded life insurance benefit for disabled members (referred to as “group life waiver of premium”) which is included in the actuarial valuation. The monthly benefit is 60% of the member’s monthly rate of compensation, with a minimum of \$100 and a maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income. If the disability begins before age 60, benefits are payable while disability continues until the member’s 65th birthday or retirement date, whichever first occurs. If the disability occurs at or after age 60, benefits are payable while disability continues, for a period of five years or until the date of the member’s retirement, whichever first occurs.

Funding Policy. WSU pays the cost of the long-term disability and life insurance premiums throughout each fiscal year for eligible members.

Employees Covered By Benefit Terms. At June 30, 2018, the following employees were covered by the benefit terms:

Disabled employees receiving benefits	25
Active employees	404
	429
	429

Total OPEB Liability

The University’s total OPEB liability of \$1,709,829 was based on an actuarial valuation as of December 31, 2017 rolled forward to a measurement date as of June 30, 2018.

Actuarial assumptions and other inputs. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Price inflation	2.75%
Payroll growth	3.00%
Salary increases	3.5 to 10%, including price inflation
Discount rate	3.87%
Healthcare cost trend rates	N/A
Retiree share of benefit cost	N/A

The discount rate was based upon the Bond Buyer General Obligation 20-Year Municipal Bond Index as of the measurement date.

Mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on MP-2018.

WICHITA STATE UNIVERSITY
For the Years Ended June 30, 2019 and 2018

The actuarial assumptions used in the valuation rolled forward to June 30, 2018 were based on the results of an actuarial experience study for the period July 1, 2014 – June 30, 2016.

Changes in the Total OPEB Liability

There were no changes in benefit terms for the current year.

Changes of assumptions and other inputs reflect a change in the discount rate from 3.58 percent for the year-end June 30, 2017 to 3.87 percent for the year-ended June 30, 2018.

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the University, as well as what the University’s total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.87 percent) or 1-percentage-point higher (4.87 percent) than the current discount rate:

	1% Decrease 2.87%	Current Discount Rate 3.87%	1% Increase 4.87%
Total OPEB Liability	\$ 1,782,389	\$ 1,709,829	\$ 1,642,021

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The healthcare cost trend rates do not affect the liabilities related to the long-term disability benefits sponsored by KPERS, therefore there is no change in the OPEB liability for any increase or decrease in the healthcare cost trend rate.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the University recognized OPEB expense of \$1,592,890. At June 30, 2019, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

NOTE 10 - COMMITMENTS AND CONTINGENCIES

The University, as a State educational institution of Kansas, is subject to the State of Kansas self-insurance program with regard to comprehensive general liability and personal injury insurance. The University is covered by the State's umbrella insurance policies for automobile liability and the Board of Regents building, contents and business interruption insurance policy. The State of Kansas does not insure State owned automobiles for bodily injury and property damages. Also, as a State educational institution, the University is self-insured relative to worker's compensation, medical and unemployment insurance. The University does maintain specific insurance coverage as allowed by the State of Kansas and as required by outstanding revenue bond issues. The University is not aware of any significant outstanding insurance claims as of June 30, 2019.

In the normal course of operations, the University receives grants, contracts and other forms of reimbursement from various local Federal and State agencies. These activities are subject to audit and disallowance by the agencies to ensure compliance with conditions precedent to such funds being provided. University officials believe that the liability, if any, for any reimbursement that may arise as the result of any audits, would not have a material effect on the University's financial position.

During 2015, the Board of Trustees of Wichita State University issued Sedgwick County Public Building Commission Revenue Bonds for the construction of the Experiential Engineering Project. These bonds mature annually on February 1 with semiannual interest payments. The University has pledged a portion of the funds received from the Kansas Department of Commerce EEG grant to pay a portion of these revenue bonds.

NOTE 12 - COMPONENT UNITS

The following disclosure meets the requirements in GASB Statement 14, The Financial Reporting Entity - paragraph 61 and GASB Statement 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments - paragraph 128. It also complies with Statement No. 39 of GASB - Determining Whether Certain Organizations are Component Units - an amendment of GASB Statement No. 14. Buildings and improvements, constructed, or purchased by the WSU Foundation or component units, become the property of the State of Kansas and Wichita State University. Generally, revenue bonded debt remains the liability of the component unit. Operating equipment and vehicles, purchased with component unit funds, remains an asset of the component unit.

Wichita State University Intercollegiate Athletic Association, Inc.

Wichita State University Intercollegiate Athletic Association, Inc. (the Athletic Association) was incorporated to schedule, manage and promote athletic contests of Wichita State University in harmony with the general education policy of the University. The Athletic Association has eight women's and seven men's sports which compete in Division I of the National Collegiate Athletic Association and in the American Athletic Conference.

The Athletic Board of Directors serves as an advisory body to the President of the University and the Director of Athletics. The Athletic Board consists of nineteen members who are appointed by the President from the following constituencies: twelve University personnel, three students, and four persons from the community. The Athletic Board provides the President and the Director of Athletics with its views on all significant questions relating to Athletic Association policies and activities. The management functions of the Athletic Association are delegated to the Director of Athletics by the President.

The Athletic Association prepares its financial statements according to Financial Accounting Standards Board (FASB) pronouncements including **Accounting Standard Codification Topic 958, Not-for-profit entities**. The Athletic Association is recognized by the Internal Revenue Service as tax exempt under Section 501(c)(3) of the Internal Revenue Code. The State of Kansas also recognizes the exemption. The Athletic Association is reported as a component unit by the University.

All land and structures, pertinent to the operation of the Athletic Association, are owned by the State of Kansas and have not been reflected as assets of the Athletic Association. The Student Government Association, through the University, allocates annually a portion of the student fees collected for support of the Athletic Association. This revenue amount was reflected on the financial statements in the amount of \$4,168,992 for operations in FY 2019. The State of Kansas, through the University, pays directly the salaries and fringe benefits of certain Athletic Association personnel. The financial statements reflect \$3,139,279 in FY 2019 of direct institutional support as revenue, and a like amount of salaries as expenses. The University also provides full maintenance, custodial, utilities and certain other costs on all athletic facilities. These expenses totaled \$1,253,209 in FY 2019 and have been reflected in the Athletic Association's financial statements as indirect institutional support.

Notes to the Financial Statements

The Wichita State University Foundation (the Foundation) coordinates fund-raising for and manages investments on behalf of the University and the Athletic Association. Funds held by the Foundation, which are designated for Athletics and controlled by the Athletic Association, are included in the Athletic Association's financial statements. The Foundation holds certain funds designated for athletics, which are not controlled by the Athletic Association. Such funds are comprised primarily of endowed scholarship funds. The Athletic Association records contributions when such funds are disbursed to the Athletic Association for their restricted use.

Complete financial statements for the Athletic Association can be obtained from the WSU Athletic Association Business Office at 1845 Fairmount, Campus Box 18, Wichita, Kansas, 67260-0018.

Wichita State University Union Corporation

Wichita State University Union Corporation (the Union) serves as the student union for Wichita State University. It is a component unit of Wichita State University. It provides a bookstore, recreation, student activities, and an outsourced dining service to benefit the faculty, staff, students and alumni of the University. It also rents meeting room space to the University for student, faculty, and staff groups. The Union Corporation also owns and operates, through a management agreement with the University, Shocker Hall, a 332-unit, 784 bed, student housing and dining facility on the campus of the University. Construction on Shocker Hall was completed in August 2014.

The Union has an advisory board of directors to assist staff management. The sixteen-person board of directors consists of five senior management and staff of the University, the Union Director, an Alumni Association representative and nine students.

The Union prepares its financial statements according to Financial Accounting Standards Board (FASB) pronouncements including **FASB Accounting Standard Codification Topic 958, Not-for-profit entities**. The organization is recognized by the Internal Revenue Service as tax exempt under Section 501(c)(3) of the Internal Revenue Code. The State of Kansas also recognizes the exemption.

For the year ended June 30, 2019, 31% of the organization's support and revenue came from student fees, 19% from gross profit on sales, 36% from income direct financing lease and 14% from other sources. Contributions are recognized when the donor makes an in-substance, unconditional pledge or outright cash gift. Donor wishes and restrictions dictate classification of the gifts as unrestricted, temporarily restricted or permanently restricted.

The Union buildings became the property of the State of Kansas when the University became a part of the State system on July 1, 1964. The Union does not recognize the buildings as assets on its financial statements. Building improvements, furniture and equipment are depreciated and recorded on the University financial statements. Methods of depreciation follow the guidelines established by the universities in the State of Kansas Regents System.

Complete financial statements for the Union Corporation can be obtained from the Rhatigan Student Center Finance Office at 1845 Fairmount, Campus Box 56, Wichita, Kansas, 67260-0056.

Wichita State University Board of Trustees

The Wichita State University Board of Trustees (the Board of Trustees) is a governmental entity created by the State of Kansas Legislature in the 1963 Session when WSU became a part of the State's higher educational system. The Board of Trustees was established for educational enrichment purposes of Wichita State University. The Board of Trustees is reported as a component unit of Wichita State University.

The Board of Trustees is a separate corporation governed by section 115 of the Internal Revenue Code. The Board of Trustees is a governmental instrumentality exempt from income tax. A nine-member board of directors is appointed by the Governor of the State of Kansas. It was formed to manage endowments, and the 1.5 mill levy in place at the time Wichita State University became a State institution in 1964.

The Board of Trustees' financial Statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) Statements No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as amended by GASB Statement No. 35 Basis Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities and with GASB Statement No. 39 Determining Whether Certain Organizations are Component Units, as amended by GASB Statement No. 61, The Financial Reporting Entity are incorporated in the Board of Trustees' statements.

The Board of Trustees basic financial statements are prepared on a government-wide basis. All activities of the Board of Trustees are considered a single governmental type activity and for this reason the government-wide and fund financial statements are combined.

The Board of Trustees furnishes support to Wichita State University from the 1.5 mill levy funding. During FY 2019, it furnished to the University \$4,962,765 for student support, and \$578,934 for economic and community development.

Investments. The Board of Trustee's investment portfolio at June 30, 2019 is composed of the following:

Wichita State University Foundation

The Wichita State University Foundation (the Foundation) provides support for the educational undertakings of Wichita State University and all related beneficial activities. It derives most of its revenue from contributions and earnings on investments.

The financial statements are prepared according to Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958-205, Financial Statements for Not-for-Profit Organizations. Under FASB ASC 958-205, the Foundation is required to report information regarding its financial position and activities in three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Temporarily restricted net assets are those which have been limited by donors to a specified time period or purpose. Permanently restricted net assets are restricted by donors to be maintained in perpetuity by the Foundation.

Wichita State University Campus of Applied Sciences and Technology

Wichita State University Campus of Applied Sciences and Technology d/b/a WSU Tech (the College) is a public, state-supported institution providing secondary and postsecondary technical education programs operating under the jurisdiction of the Kansas Board of Regents. Major federally funded student financial aid programs in which the College participates include the Federal Pell Grant and Federal Direct Student Loan programs. The College extends unsecured credit to students. State appropriations for WSU Tech in the amount of \$5.1 million flow through Wichita State and are recorded on each entity's statement of revenues, expenses and changes in net position.

The State of Kansas authorized the affiliation of the College, formerly known as Wichita Area Technical College, with Wichita State University pursuant to K.S.A. 74-32,459 effective July 1, 2018.

Complete financial statements for the Wichita State University Campus of Applied Sciences and Technology can be obtained from the National Center for Aviation Training Finance Office at 4004 N Webb Rd, Wichita, Kansas 67226.

NOTE 13 – OPERATING LEASES

Within the normal course of operations, the University has entered into various lease agreements considered to be operating leases under accounting standards. The current year operating lease expense was approximately \$6,105,337. The following table summarizes future minimum lease obligations under these leases at June 30, 2019:

NOTE 14 – NEW GASB STATEMENTS

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, which will require governments to recognize certain liabilities related to retirements of tangible capital assets. This statement is effective for the year ending June 30, 2019.

In fiscal year ended June 30, 2019, Wichita State University implemented GASB Statement No. 83, *Certain Asset Retirement Obligations*. This new standard requires the University to recognize a liability and related deferred outflow of resources when the University has a legal obligation to perform future asset retirement activities related to the tangible capital assets of the University. The University evaluated its assets per the requirements of this new statement and determined that the impact of this statement at June 30, 2019 was not material. Therefore, no liability or deferred outflows related to asset retirement obligations are recorded at June 30, 2019. According to the requirements of GASB 83, the University will continue to evaluate annually for any retirement costs deemed significant associated with changes in laws or related to the acquisition of new assets.

In June 2017, the GASB issued Statement No. 87, *Leases*, which will require governmental lessees to recognize a lease liability and a right-to-use asset and will require a governmental lessor to recognize a lease receivable and a deferred inflow of resources for substantially all leases with terms greater than 12 months in length. This will result in the University recognizing certain leases that are currently recognized as operating leases differently as currently no liability or asset is recorded for operating leases and expenses are recorded on a pay-as-you-go basis for operating leases. This statement is effective for the year ending June 30, 2021.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, which eliminates the requirement for governments to capitalize interest costs on long-term construction projects. As interest costs would no longer be allowed to be capitalized, interest expense reported on the statement of revenue, expenses, and changes in net position will be more consistent with the actual interest costs incurred during the year than in years in which interest costs were capitalized. This statement is effective for the year ending June 30, 2021.
