For employees whose last day worked is the first of the month, coverage will end on the first. A notice of the right to continue coverage under COBRA will be mailed to the address on file in the SEHP member portal. Members have (60) days from the date of the notice to elect continued coverage for up to 18 months and will pay premiums directly to COBRAGuard, the SEHP third-party administrator for COBRA. Any dependent covered by the plan on the last day of employment is eligible for COBRA coverage. Additional information on COBRA coverage can be found online at

Health Reimbursement Accounts (HRA) are not portable. Reimbursement claims for expenses incurred prior to their last day of employment must be submitted within (60) days of the last day of employment, after which any remaining balance is forfeited.

Health Savings Accounts (HSA) are portable and remain open to new contributions through the end of the month in which the last day of employment occurred. There is no time limit on using the remaining balance; funds automatically roll over each year and can be used for qualified medical expenses even if covered by a plan that is not a qualified high-deductible health plan (HDHP).

Retirees: Contributions to an HSA should stop (6) months prior to enrolling in any form of Medicare to avoid a tax penalty. For more information, please contact Human Resources or consult a tax professional.
