Dear Professor Miller,

Thank you so much for your phone call and your helpful advice! I had no idea that I shouldn't share my Social Security number and credit card in letters.

Here is a new letter to take the place of my previous acceptance letter. Please pass along to the Scholarship Committee that I formally accept your generous scholarship offer!

Also, could you set up my new password to go along with my brand new WSUID? I use my pet's name for all my passwords since it is so easy to remember! Let's make my new password Sparky1, just like it is on my Gmail and online banking.

I can't wait to be a Shocker! See you in August.

Sincerely,

Jane Smith
