# NSSE 2013

## Engagement Indicators

Wichita State University

---

### About Your Engagement Indicators Report

Engagement Indicators (EIs) provide a useful summary of the detailed information contained in your students' NSSE responses. By combining responses to related NSSE questions, each EI offers valuable information about a distinct aspect of student engagement. Ten indicators, based on three to eight survey questions each (a total of 47 survey questions), are organized into four themes as shown at right.

<i>Theme</i>	<i>Engagement Indicator</i>
<i>Academic Challenge</i>	Higher-Order Learning
	Reflective and Integrative Learning
	Learning Strategies
	Quantitative Reasoning
<i>Learning with Peers</i>	Collaborative Learning Discussions with Diverse Others
<i>Experiences with Faculty</i>	Student-Faculty Interaction Effective Teaching Practices
<i>Campus Environment</i>	Quality of Interactions Supportive Environment

### Report sections

|--|--|

### Interpreting comparisons

Mean comparisons report both statistical significance and effect size. Effect size indicates the practical importance of an observed difference. An effect size of .2 is generally considered small, .5 medium, and .8 large. Comparisons with an effect size of at least .3 in magnitude (before rounding) are highlighted in the Overview.

*EIs vary more among students within an institution than between institutions*, like many experiences and outcomes in higher education. As a result, focusing attention on average scores alone amounts to examining the tip of the iceberg. It's equally important to understand how student engagement varies within your institution. Score distributions indicate how EI scores vary among your students and those in your comparison groups. The Institutional Report Builder and your *Major Field Report* (both to be released in the fall) offer valuable perspectives on internal variation and help you investigate your students' engagement in depth.

### How Engagement Indicators are computed

Each EI is scored on a 60-point scale. To produce an indicator score, the response set for each item is converted to a 60-point scale (e.g., Never = 0; Sometimes = 20; Often = 40; Very often = 60), and the rescaled items are averaged. Thus a score of zero means a student responded at the bottom of the scale for every item in the EI, while a score of 60 indicates responses at the top of the scale on every item.

For more information on EIs and their psychometric properties, refer to the NSSE Web site: [nsse.iub.edu](http://nsse.iub.edu)

## Engagement Indicators: Overview

Engagement Indicators are summary measures based on sets of NSSE questions examining key dimensions of student engagement. The ten indicators are organized within four themes: Academic Challenge, Learning with Peers, Experiences with Faculty, and Campus Environment. The tables below compare average scores for your students with those in your comparison groups.

Use the following key:

- ▲ Your students' average was significantly higher ( $p < .05$ ) with an effect size at least .3 in magnitude.
- △ Your students' average was significantly higher ( $p < .05$ ) with an effect size less than .3 in magnitude.
- No significant difference.
- ▼ Your students' average was significantly lower ( $p < .05$ ) with an effect size less than .3 in magnitude.
- ▲ Your students' average was significantly lower ( $p < .05$ ) with an effect size at least .3 in magnitude.

### First-Year (FY) Students

Theme	Engagement Indicator	Your FY students compared with WSU Peers	Your FY students compared with Carnegie Class	Your FY students compared with NSSE 2013
Academic Challenge	Higher-Order Learning	▼	▼	▼

### Academic Challenge: First-year students

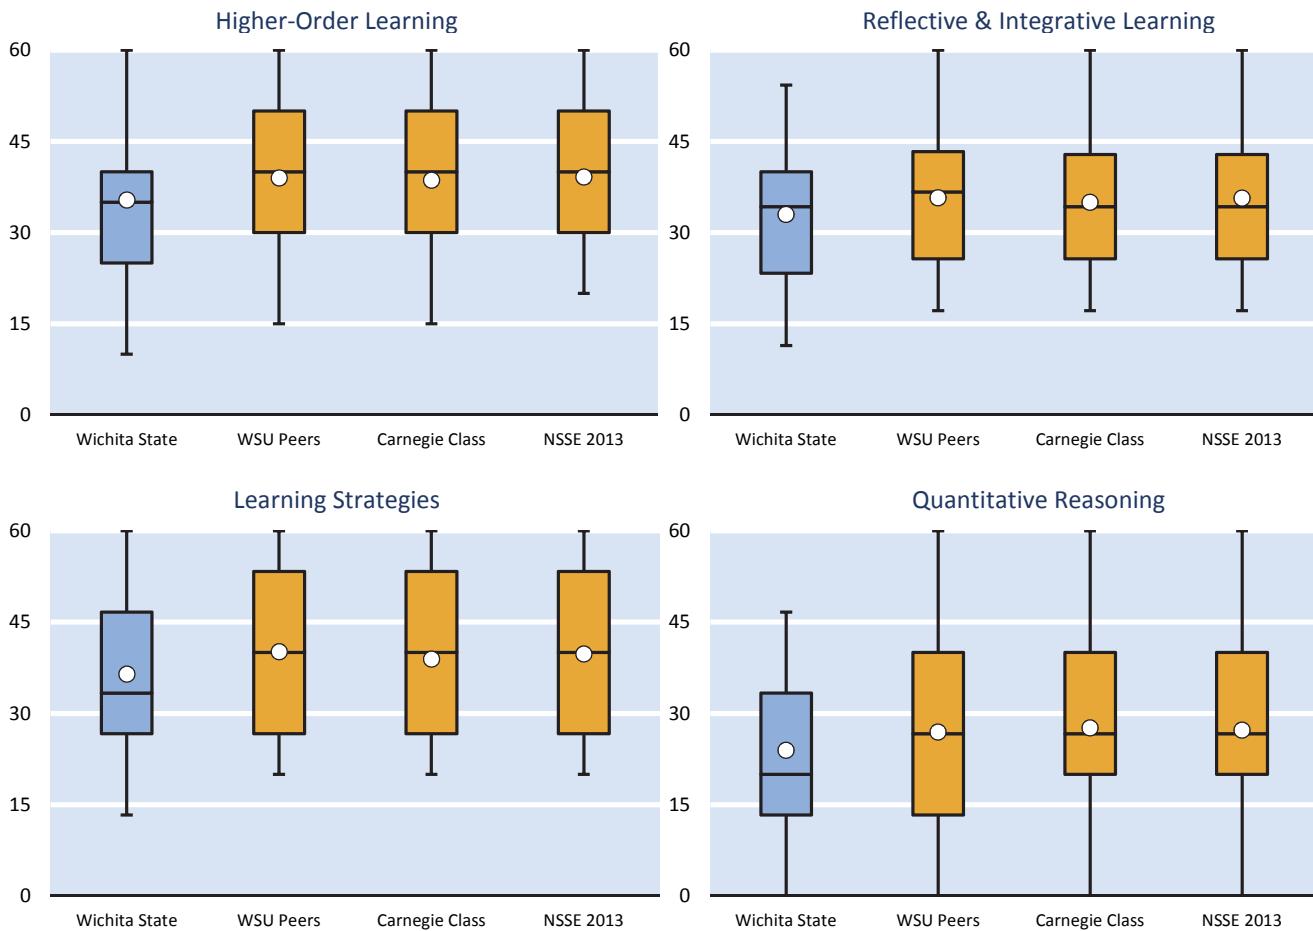

Challenging intellectual and creative work is central to student learning and collegiate quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: *Higher-Order Learning, Reflective & Integrative Learning, Learning Strategies, and Quantitative Reasoning*. Below and on the next page are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State	Your first-year students compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Higher-Order Learning	35.4	39.0 ***	-.26	38.6 ***	-.23	39.1 ***	-.27
Reflective & Integrative Learning	33.0	35.7 ***	-.22	35.0 *	-.16	35.7 ***	-.21
Learning Strategies	36.5	40.2 ***	-.26	38.9 *	-.18	39.8 **	-.23
Quantitative Reasoning	23.9	27.0 **	-.18	27.6 ***	-.23	27.3 **	-.20

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

## Academic Challenge: First-year students (continued)

### Summary of Indicator Items

	Wichita State	WSU Peers	Carnegie Class	NSSE 2013
<b>Higher-Order Learning</b>				
Percentage responding "Very much" or "Quite a bit" about how much coursework emphasized...	%	%	%	%
4b. Applying facts, theories, or methods to practical problems or new situations	64	73	74	74
4c. Analyzing an idea, experience, or line of reasoning in depth by examining its parts	62	73	72	73
4d. Evaluating a point of view, decision, or information source	63	70	67	70
4e. Forming a new idea or understanding from various pieces of information	63	69	67	69
<b>Reflective &amp; Integrative Learning</b>				
Percentage of students who responded that they "Very often" or "Often"...				
2a. Combined ideas from different courses when completing assignments	53	55	55	56
2b. Connected your learning to societal problems or issues	43	53	51	53
2c. Included diverse perspectives (political, religious, racial/ethnic, gender, etc.) in course discussions or assignments	41	50	48	51
2d. Examined the strengths and weaknesses of your own views on a topic or issue	55	64	61	63
2e. Tried to better understand someone else's views by imagining how an issue looks from his or her perspective	63	67	65	66
2f. Learned something that changed the way you understand an issue or concept	58	65	63	66
2g. Connected ideas from your courses to your prior experiences and knowledge	70	77	76	78
<b>Learning Strategies</b>				
Percentage of students who responded that they "Very often" or "Often"...				
9a. Identified key information from reading assignments	70	80	79	81
9b. Reviewed your notes after class	64	68	65	66
9c. Summarized what you learned in class or from course materials	56	66	62	64
<b>Quantitative Reasoning</b>				
Percentage of students who responded that they "Very often" or "Often"...				
6a. Reached conclusions based on your own analysis of numerical information (numbers, graphs, statistics, etc.)	47	51	53	51
6b. Used numerical information to examine a real-world problem or issue (unemployment, climate change, public health, etc.)	31	38	38	38
6c. Evaluated what others have concluded from numerical information	27	36	38	37

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

#### Academic Challenge: Seniors

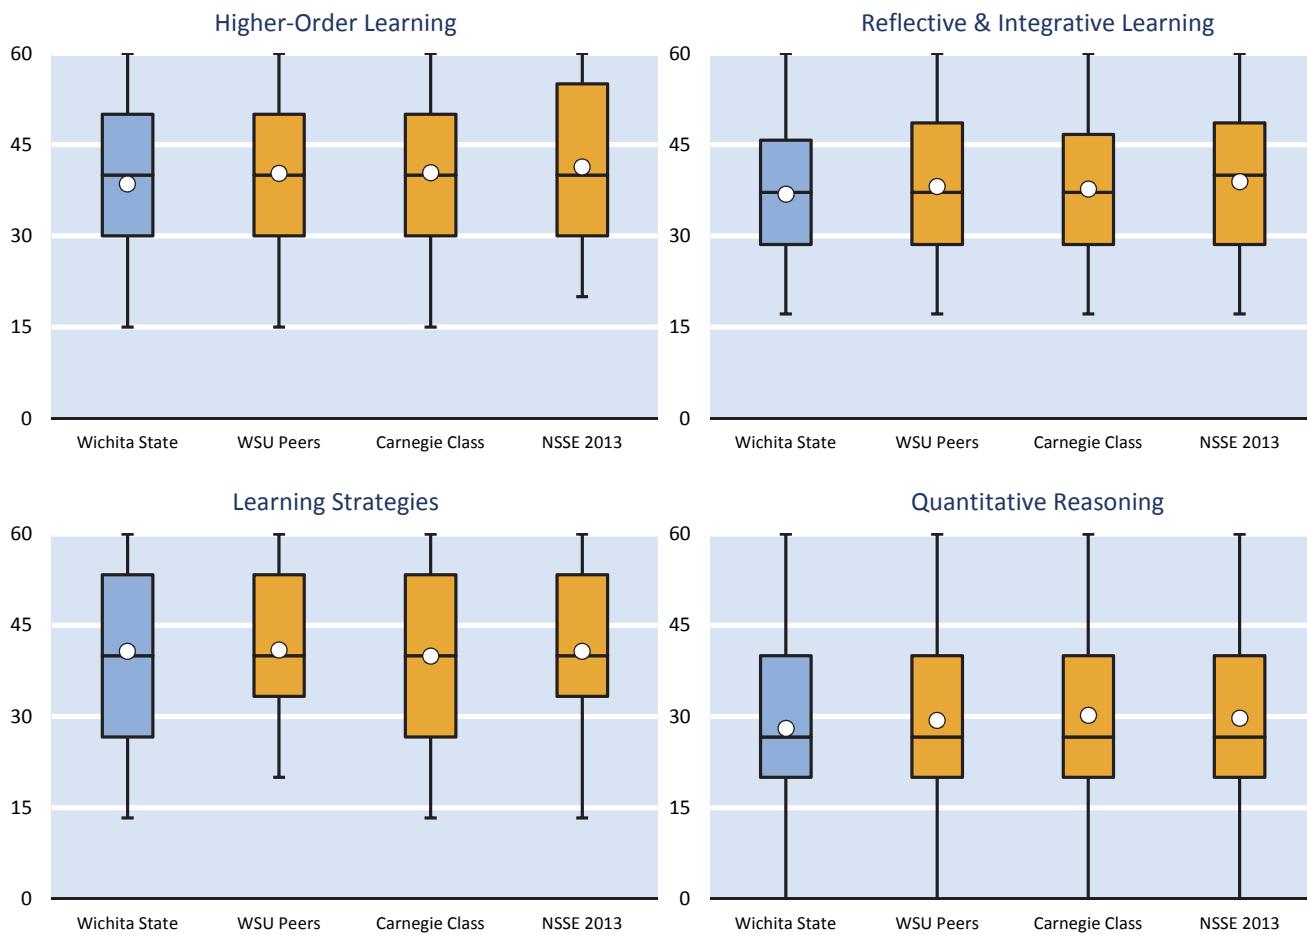

Challenging intellectual and creative work is central to student learning and collegiate quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: *Higher-Order Learning, Reflective & Integrative Learning, Learning Strategies, and Quantitative Reasoning*. Below and on the next page are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State	Your first-year students compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Higher-Order Learning	38.6	40.3 **	-.12	40.4 ***	-.13	41.3 ***	-.20
Reflective & Integrative Learning	36.9	38.1 **	-.10	37.7	-.07	38.9 ***	-.16
Learning Strategies	40.7	41.0	-.01	39.9	.06	40.7	.00
Quantitative Reasoning	28.1	29.4 *	-.08	30.2 ***	-.12	29.7 **	-.10

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

### Summary of Indicator Items

	Wichita State	WSU Peers	Carnegie Class	NSSE 2013
<b>Higher-Order Learning</b>				
Percentage responding "Very much" or "Quite a bit" about how much coursework emphasized...	%	%	%	%
4b. Applying facts, theories, or methods to practical problems or new situations	78	78	79	80
4c. Analyzing an idea, experience, or line of reasoning in depth by examining its parts	70	76	76	78
4d. Evaluating a point of view, decision, or information source	62	70	68	72
4e. Forming a new idea or understanding from various pieces of information	66	71	70	73
<b>Reflective &amp; Integrative Learning</b>				
Percentage of students who responded that they "Very often" or "Often"...				
2a. Combined ideas from different courses when completing assignments	68	71	72	71
2b. Connected your learning to societal problems or issues	59	62	60	64
2c. Included diverse perspectives (political, religious, racial/ethnic, gender, etc.) in course discussions or assignments	49	52	50	56
2d. Examined the strengths and weaknesses of your own views on a topic or issue	59	65	63	67
2e. Tried to better understand someone else's views by imagining how an issue looks from his or her perspective	65	69	67	70
2f. Learned something that changed the way you understand an issue or concept	63	68	67	70
2g. Connected ideas from your courses to your prior experiences and knowledge	81	83	82	84
<b>Learning Strategies</b>				
Percentage of students who responded that they "Very often" or "Often"...				
9a. Identified key information from reading assignments	82	83	82	84
9b. Reviewed your notes after class	67	67	64	65
9c. Summarized what you learned in class or from course materials	63	66	64	66
<b>Quantitative Reasoning</b>				
Percentage of students who responded that they "Very often" or "Often"...				
6a. Reached conclusions based on your own analysis of numerical information (numbers, graphs, statistics, etc.)	50	54	56	54
6b. Used numerical information to examine a real-world problem or issue (unemployment, climate change, public health, etc.)	41	42	44	44
6c. Evaluated what others have concluded from numerical information	39	43	45	44

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Learning with Peers: First-year students

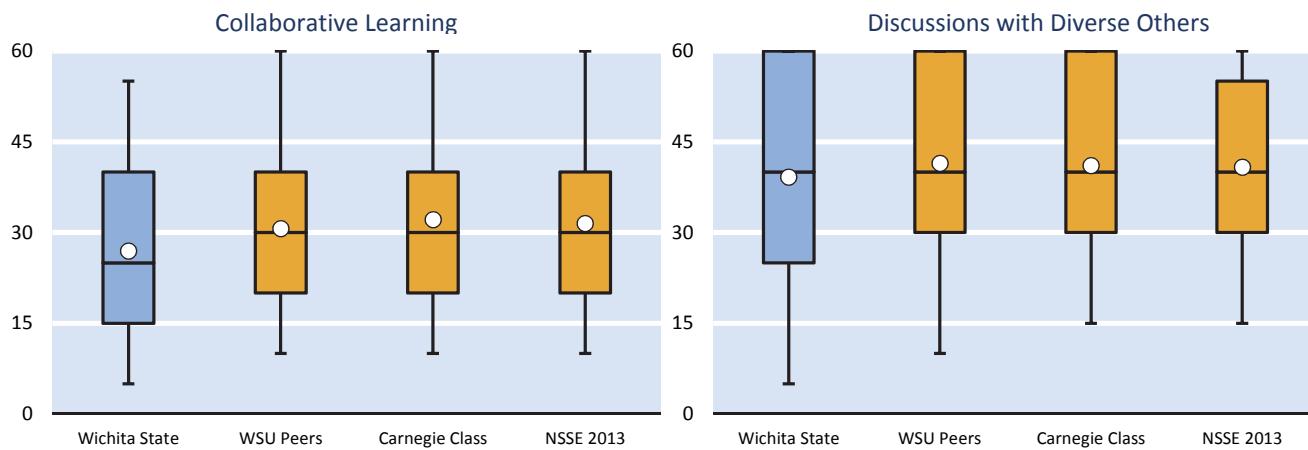

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems they will encounter during and after college. Two Engagement Indicators make up this theme: *Collaborative Learning* and *Discussions with Diverse Others*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State	Your first-year students compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Collaborative Learning	26.9	30.6 ***	-.27	32.1 ***	-.37	31.5 ***	-.32
Discussions with Diverse Others	39.1	41.4 *	-.14	41.0	-.12	40.8	-.10

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

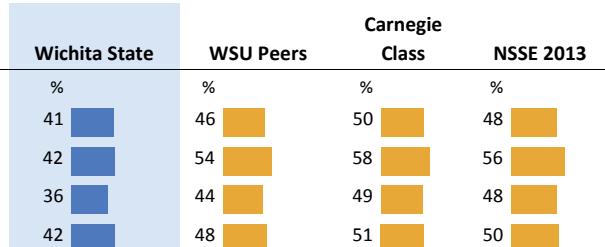

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

#### Summary of Indicator Items

##### Collaborative Learning

Percentage of students who responded that they "Very often" or "Often"...

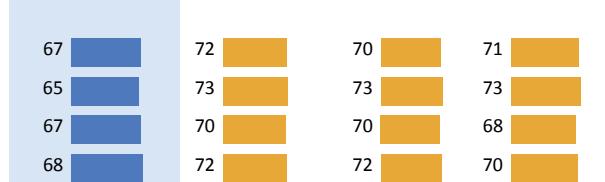

- 1e. Asked another student to help you understand course material
- 1f. Explained course material to one or more students
- 1g. Prepared for exams by discussing or working through course material with other students
- 1h. Worked with other students on course projects or assignments

##### Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with...

- 8a. People from a race or ethnicity other than your own
- 8b. People from an economic background other than your own
- 8c. People with religious beliefs other than your own
- 8d. People with political views other than your own

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Learning with Peers: Seniors

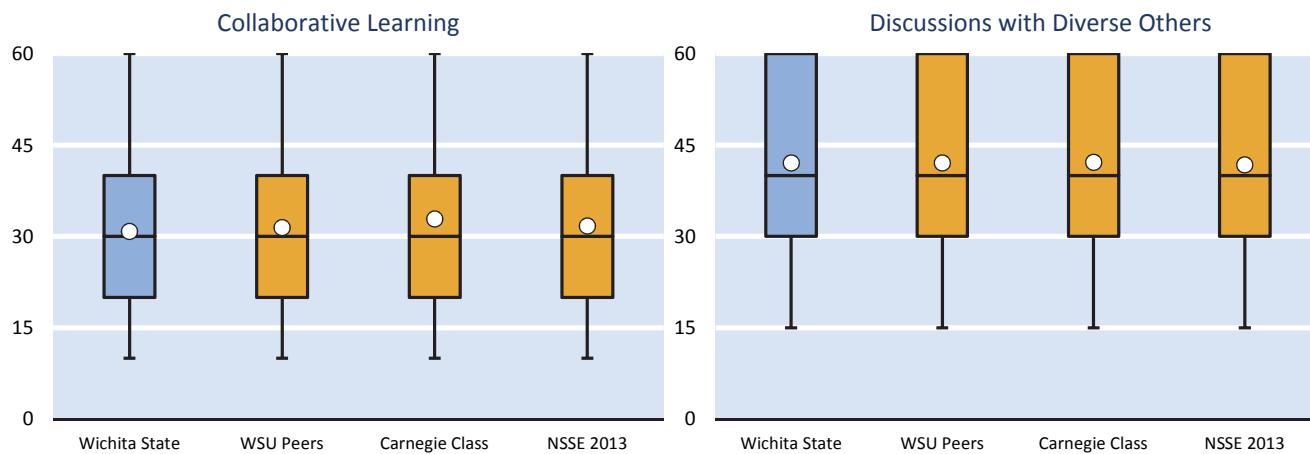

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems they will encounter during and after college. Two Engagement Indicators make up this theme: *Collaborative Learning* and *Discussions with Diverse Others*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State Mean	Your seniors compared with					
		WSU Peers Mean	Effect size	Carnegie Class Mean	Effect size	NSSE 2013 Mean	Effect size
Collaborative Learning	30.8	31.5	-.04	32.9 ***	-.14	31.7	-.06
Discussions with Diverse Others	42.1	42.1	.00	42.2	.00	41.8	.02

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

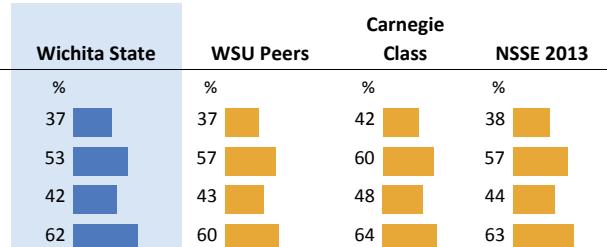

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

#### Summary of Indicator Items

##### Collaborative Learning

Percentage of students who responded that they "Very often" or "Often"...

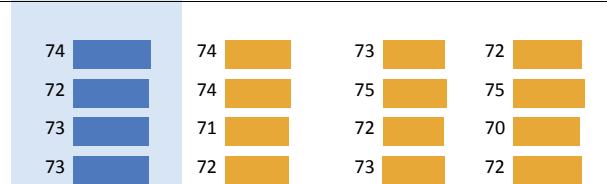

- 1e. Asked another student to help you understand course material
- 1f. Explained course material to one or more students
- 1g. Prepared for exams by discussing or working through course material with other students
- 1h. Worked with other students on course projects or assignments

##### Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with...

- 8a. People from a race or ethnicity other than your own
- 8b. People from an economic background other than your own
- 8c. People with religious beliefs other than your own
- 8d. People with political views other than your own

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Experiences with Faculty: First-year students

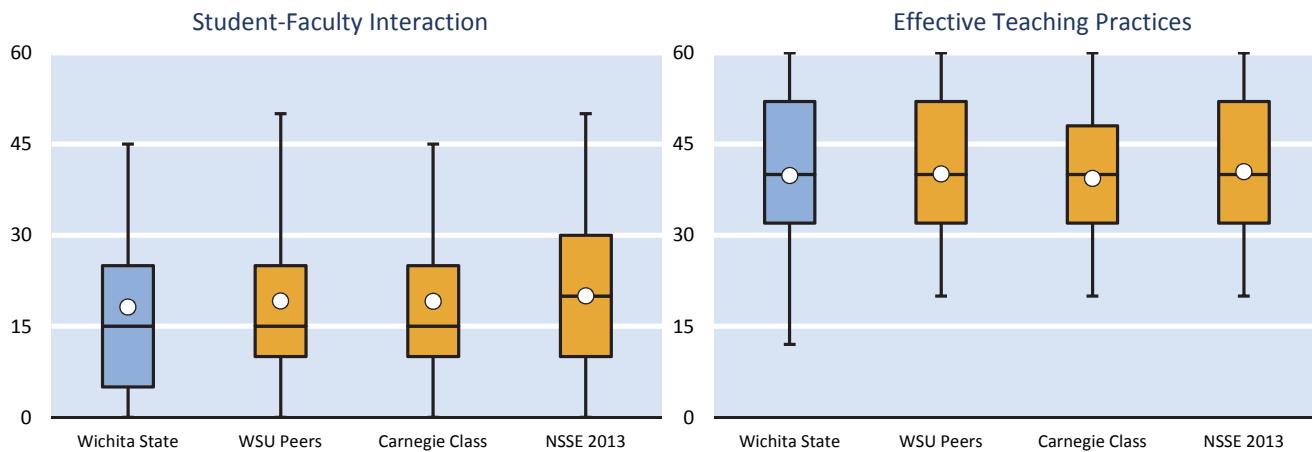

Students learn firsthand how experts think about and solve problems by interacting with faculty members inside and outside of instructional settings. As a result, faculty become role models, mentors, and guides for lifelong learning. In addition, effective teaching requires that faculty deliver course material and provide feedback in student-centered ways. Two Engagement Indicators investigate this theme: *Student-Faculty Interaction* and *Effective Teaching Practices*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State	Your first-year students compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Student-Faculty Interaction	18.2	19.1	-.07	19.1	-.07	20.0 *	-.13
Effective Teaching Practices	39.8	40.1	-.02	39.3	.04	40.4	-.05

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

#### Summary of Indicator Items

##### Student-Faculty Interaction

Percentage of students who responded that they "Very often" or "Often"...

- 3a. Talked about career plans with a faculty member
- 3b. Worked w/faculty on activities other than coursework (committees, student groups, etc.)
- 3c. Discussed course topics, ideas, or concepts with a faculty member outside of class
- 3d. Discussed your academic performance with a faculty member

	Wichita State	WSU Peers	Carnegie Class	NSSE 2013
%	%	%	%	
29	29	31	30	32
17	17	16	17	18
19	19	23	23	24
24	24	28	25	28

##### Effective Teaching Practices

Percentage responding "Very much" or "Quite a bit" about how much instructors have...

- 5a. Clearly explained course goals and requirements
- 5b. Taught course sessions in an organized way
- 5c. Used examples or illustrations to explain difficult points
- 5d. Provided feedback on a draft or work in progress
- 5e. Provided prompt and detailed feedback on tests or completed assignments

84	81	81	82
77	79	79	80
78	77	77	78
63	65	61	65
60	62	59	63

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

## Experiences with Faculty: Seniors

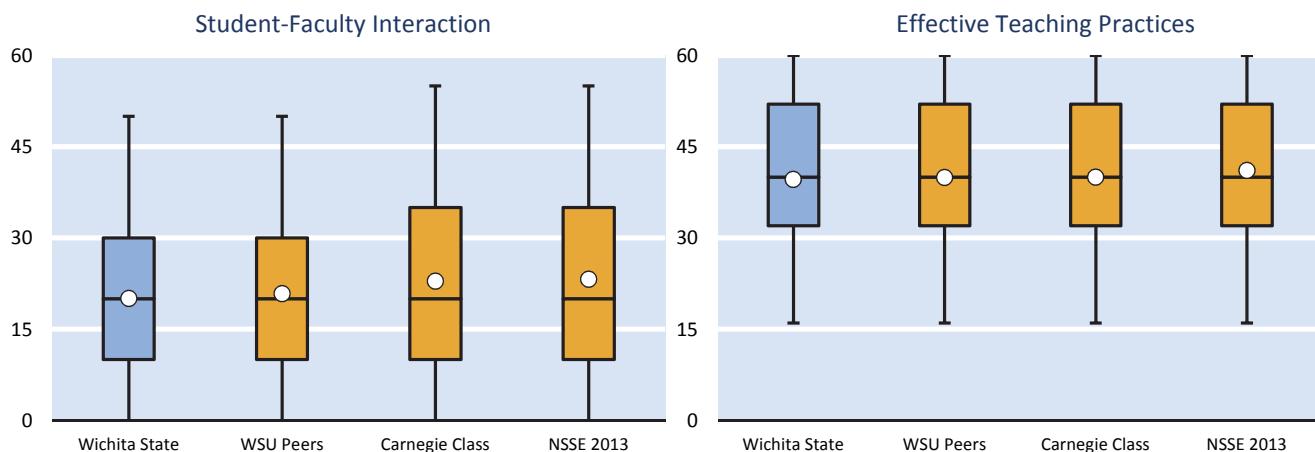

Students learn firsthand how experts think about and solve problems by interacting with faculty members inside and outside of instructional settings. As a result, faculty become role models, mentors, and guides for lifelong learning. In addition, effective teaching requires that faculty deliver course material and provide feedback in student-centered ways. Two Engagement Indicators investigate this theme: *Student-Faculty Interaction* and *Effective Teaching Practices*. Below are three views of your results alongside those of your comparison groups.

### Mean Comparisons

Engagement Indicator	Wichita State	Your seniors compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Student-Faculty Interaction	20.1	20.8	-.05	22.9 ***	-.18	23.2 ***	-.19
Effective Teaching Practices	39.6	39.9	-.02	40.0	-.03	41.1 **	-.11

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

### Score Distributions

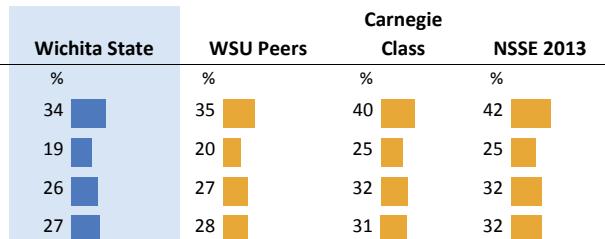

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

### Summary of Indicator Items

#### Student-Faculty Interaction

Percentage of students who responded that they "Very often" or "Often"...

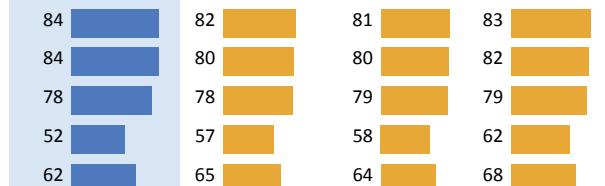

- 3a. Talked about career plans with a faculty member
- 3b. Worked w/faculty on activities other than coursework (committees, student groups, etc.)
- 3c. Discussed course topics, ideas, or concepts with a faculty member outside of class
- 3d. Discussed your academic performance with a faculty member

#### Effective Teaching Practices

Percentage responding "Very much" or "Quite a bit" about how much instructors have...

- 5a. Clearly explained course goals and requirements
- 5b. Taught course sessions in an organized way
- 5c. Used examples or illustrations to explain difficult points
- 5d. Provided feedback on a draft or work in progress
- 5e. Provided prompt and detailed feedback on tests or completed assignments

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Campus Environment: First-year students

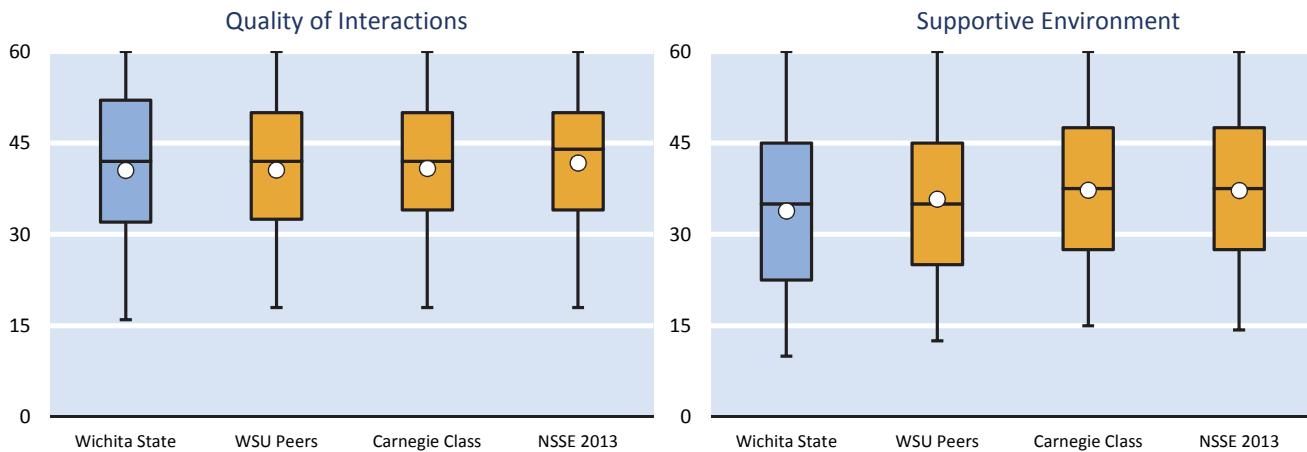

Students benefit and are more satisfied in supportive settings that cultivate positive relationships among students, faculty, and staff. Two Engagement Indicators investigate this theme: *Quality of Interactions* and *Supportive Environment*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State	Your first-year students compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Quality of Interactions	40.5	40.5	-.01	40.8	-.03	41.7	-.10
Supportive Environment	33.8	35.8	-.14	37.2 **	-.25	37.2 ***	-.24

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

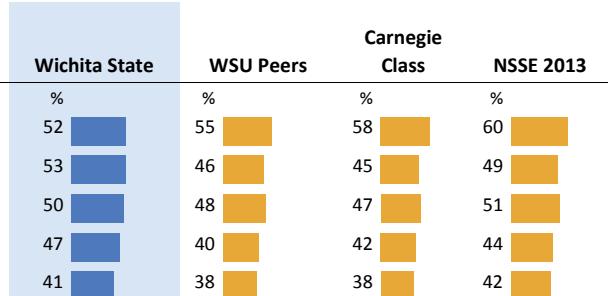

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

#### Summary of Indicator Items

##### Quality of Interactions

Percentage rating a 6 or 7 on a scale from 1="Poor" to 7="Excellent" their interactions with...

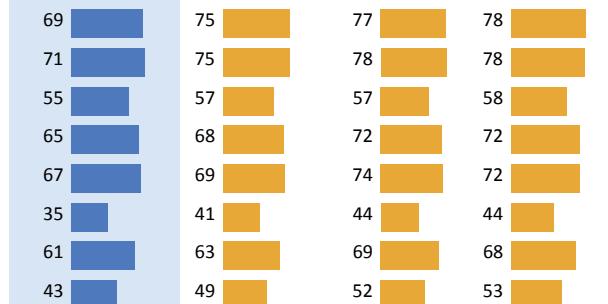

- 13a. Students 52
- 13b. Academic advisors 53
- 13c. Faculty 50
- 13d. Student services staff (career services, student activities, housing, etc.) 47
- 13e. Other administrative staff and offices (registrar, financial aid, etc.) 41

##### Supportive Environment

Percentage responding "Very much" or "Quite a bit" about how much the institution emphasized...

- 14b. Providing support to help students succeed academically 69
- 14c. Using learning support services (tutoring services, writing center, etc.) 71
- 14d. Encouraging contact among students from diff. backgrounds (soc., racial/eth., relig., etc.) 55
- 14e. Providing opportunities to be involved socially 65
- 14f. Providing support for your overall well-being (recreation, health care, counseling, etc.) 67
- 14g. Helping you manage your non-academic responsibilities (work, family, etc.) 35
- 14h. Attending campus activities and events (performing arts, athletic events, etc.) 61
- 14i. Attending events that address important social, economic, or political issues 43

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

### Campus Environment: Seniors

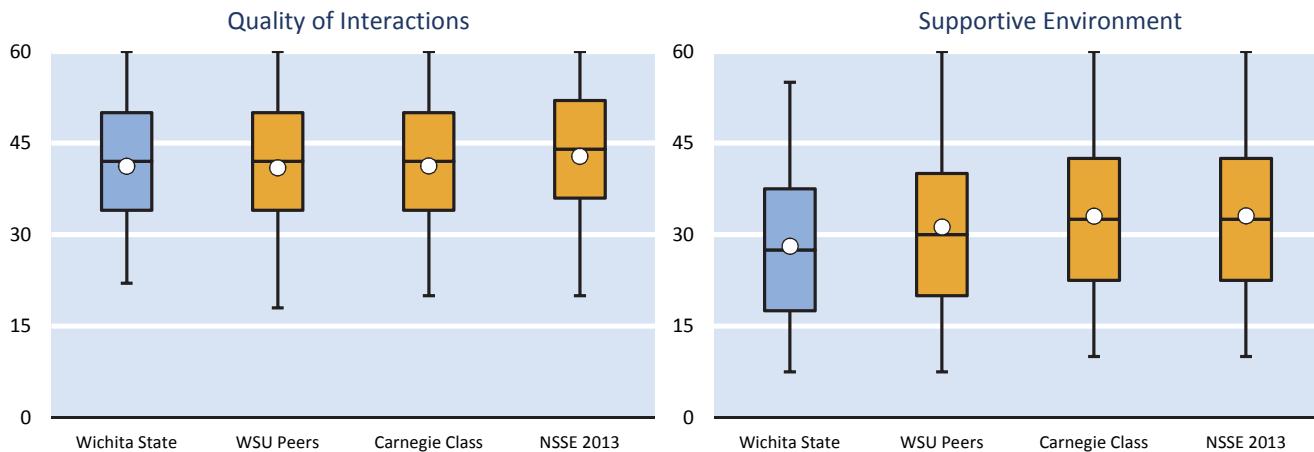

Students benefit and are more satisfied in supportive settings that cultivate positive relationships among students, faculty, and staff. Two Engagement Indicators investigate this theme: *Quality of Interactions* and *Supportive Environment*. Below are three views of your results alongside those of your comparison groups.

#### Mean Comparisons

Engagement Indicator	Wichita State	Your seniors compared with					
		WSU Peers		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Quality of Interactions	41.2	40.9	.02	41.3	.00	42.8 ***	-.13
Supportive Environment	28.1	31.2 ***	-.22	33.0 ***	-.35	33.1 ***	-.35

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

#### Score Distributions

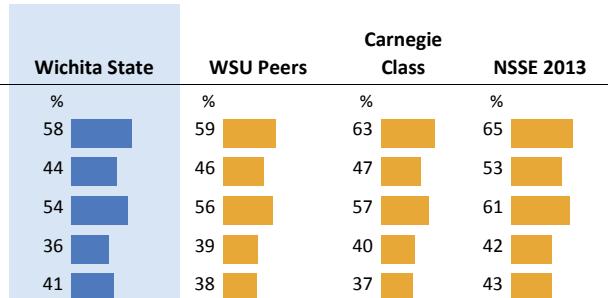

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

#### Summary of Indicator Items

##### Quality of Interactions

Percentage rating a 6 or 7 on a scale from 1="Poor" to 7="Excellent" their interactions with...

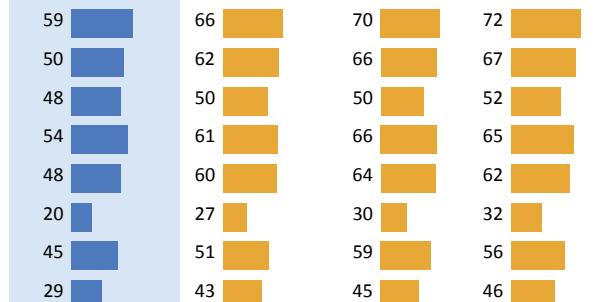

- 13a. Students 58
- 13b. Academic advisors 44
- 13c. Faculty 54
- 13d. Student services staff (career services, student activities, housing, etc.) 36
- 13e. Other administrative staff and offices (registrar, financial aid, etc.) 41

##### Supportive Environment

Percentage responding "Very much" or "Quite a bit" about how much the institution emphasized...

- 14b. Providing support to help students succeed academically 59
- 14c. Using learning support services (tutoring services, writing center, etc.) 50
- 14d. Encouraging contact among students from diff. backgrounds (soc., racial/eth., relig., etc.) 48
- 14e. Providing opportunities to be involved socially 54
- 14f. Providing support for your overall well-being (recreation, health care, counseling, etc.) 48
- 14g. Helping you manage your non-academic responsibilities (work, family, etc.) 20
- 14h. Attending campus activities and events (performing arts, athletic events, etc.) 45
- 14i. Attending events that address important social, economic, or political issues 29

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

This page intentionally left blank.

### Comparisons with Top 50% and Top 10% Institutions

The results below compare the engagement of your first-year and senior students with those attending two groups of institutions identified by NSSE for their high average levels of student engagement:

- (a) institutions with average scores placing them in the top 50% of all current-year NSSE institutions, and
- (b) institutions with average scores placing them in the top 10% of all current-year NSSE institutions.

While the average scores for *most* institutions are below the mean for the top 50% or top 10%, your institution may show areas of distinction where your average student was *as engaged* as (or even *more engaged* than) the typical student at high-performing institutions. A check mark (✓) signifies those comparisons where your average score was at least comparable to that of the high-performing group. However, the absence of a significant difference between your score and that of the high-performing group does not mean that your institution was a member of that group.

It should be noted that most of the variability in student engagement is *within*, not between, institutions. Even "high-performing" institutions have students with engagement levels below the average for all institutions.

Notes: Precision-weighted means (produced by Hierarchical Linear Modeling) were used to determine the top 50% and top 10% institutions for each Engagement Indicator, separately for first-year and senior students. Using this method, Engagement Indicator scores of institutions with relatively large standard errors were adjusted toward the mean of all students, while those with smaller standard errors received smaller corrections. As a result, schools with less stable data—even those with high average scores—may not be among the top scorers. NSSE does not publish the names of the top 50% and top 10% institutions because of our commitment not to release institutional results and our policy against ranking institutions.

Results weighted by gender and enrollment status (and institution size for comparison groups); \*p<.05, \*\*p<.01, \*\*\*p<.001 (2-tailed); Effect size: Mean difference divided by the pooled standard deviation.

a. Results weighted by gender and enrollment status (and institutional size for comparison groups).

b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.

c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the 95% CI is the range of values that is 95% likely to contain the true population mean, equal to the sample mean +/- 1.96 \* SEM.

d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.

e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.

f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.

g. Effect size is the mean difference divided by the pooled standard deviation.

a. Results weighted by gender and enrollment status (and institutional size for comparison groups).

b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.

c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the 95% CI is the range of values that is 95% likely to contain the true population mean, equal to the sample mean +/- 1.96 \* SEM.

d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.

e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.

f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.

g. Effect size is the mean difference divided by the pooled standard deviation.
