

PUBLIC SECTOR INSIGHTS AND
SERVICES THAT CONTRIBUTE
TO YOUR SUCCESS

PUBLIC SECTOR SERVICES

AT RSM, WE FULLY UNDERSTAND OUR GOVERNMENT CLIENTS AND PROVIDE THE INSIGHTS THEY NEED TO MAKE DECISIONS IN A POLITICALLY COMPLEX AND BUDGET- CONSTRAINED ENVIRONMENT

Providing insights and tailored solutions to improve results

The government sector is being challenged by a broader range of constituencies to deliver more transparency, efficiency and accountability than ever before.

Leaders in the public sector are under considerable pressure to ensure that government entities function like businesses—delivering quality services, implementing efficient processes and setting new standards that can withstand examination. At the same time, in the face of ever-changing economic and political conditions, government must function productively and show results, all while focused on achieving its higher mission: to preserve and protect the public interest.

At RSM, we work together to help the public sector address a variety of unprecedented challenges in:

Reporting and compliance requirements

We assist government in establishing controls to enhance accountability and transparency; reduce waste, fraud and abuse; and ensure that federal, state and local entities are not unduly exposed to risk. Our solutions in financial advisory and risk management are strategic and successfully delivered to governments, authorities and public agencies.

Risk and internal controls

Governmental organizations can experience a wide range of risks that may jeopardize their ability to achieve strategic objectives. Inadequate or failed internal processes and systems—in addition to unanticipated external events—can have a devastating effect on a government entity. Our innovative methodologies and talented professionals help government entities protect revenues and prevent risk.

Business process re-engineering and operational transformation

Any effort to streamline government operations must be aligned with your organization's mission and strategy and, ultimately, measured by the results achieved. Our capabilities help the public sector meet and exceed new efficiency standards, delivering immediate, value-added resources to improve government results.

Technology consulting

We help develop tailored solutions—whether implementing a new IT environment, migrating from a legacy platform or transforming business intelligence capabilities. RSM often acts as a *client advocate* to perform project management oversight of large implementations, host certain outsourced applications, or provide specialized technical staff.

Delivering leadership and customized solutions at a critical time

We help public sector entities—including hundreds of federal, state and local government units—across the country improve their performance through a comprehensive understanding of their business models, internal processes, objectives and daily realities. We ask the right questions, read between the lines, listen actively and think holistically—and we build relationships based on experience and trust.

We are a leading provider of federal accounting and program management services with decades of experience in the public sector. We are capable of delivering the proven verification, accountability, compliance and transparency required in today's highly scrutinized public sector environment. Our clients vary in size and complexity with budgets ranging from \$2 million to multi-billion dollars.

Providing respected and highly sought experience

Our government service specialists combine business experience, specialized knowledge and activism in financial issues to help public sector organizations at all levels respond to market conditions, public sector concerns and business trends that may affect their ability to operate effectively and efficiently. We have provided thought leadership positions to key sectors of government, including health and human services; energy; defense; commerce; treasury and financial; transportation; security; education; and nonprofit.

Outstanding service through a team approach

As trusted business advisers to the public sector, we can quickly assemble an experienced, knowledgeable team of professionals who understand your issues, provide insights and tailored services, and have a fervent desire to help you succeed.
