

Part 1 Test Question Bank

Module 1

1. Which is true regarding unemployment rates? Answer _____
- The unemployment rate for people with a bachelor's degree and a high school diploma are the same.
 - People with a bachelor's degree experience an unemployment rate that is half that of those with a high school diploma.
 - The unemployment rate depends on how hard you try to get a job, not the level of education you have received.
 - None of the above are true.
2. Which is true regarding earnings? Answer _____
- Someone with a bachelor's degree will earn almost twice as much as someone with just a high school diploma.
 - Earnings mostly depend on how much you work.
 - The amount you earn is not really related to your level of education.
 - All of the above are true.
3. Since the most important priority in college is academic study, you should not distract yourself with clubs, organizations, or activities. This statement is: Answer _____
- True
 - False
