George volunteered to go into school early one day to help his teachers decorate their small Christmas trees in their classrooms.

Ms. Ortiz had a medium sized box for two of her trees. The box, which contained 15 blue ornaments , 8 green ornaments, 6 reindeers, 7 yellow ornaments and 6 white ornaments.

Ms. Hall had a basket for her ornaments. In the basket, George found 5 yellow ornaments, 5 red ornaments, 2 Santa clauses, 4 green ornaments and 5 blue ornaments.

Mr. M/s ornament box contained 5 red ornaments, 3 blue ornaments, 6 white ornaments, 7 yellow ornaments and one santa clause.

For two of Ms. Nguyen's trees, she had a box full of very small ornaments. In her box, George counted 6 yellow ornaments, 5 reindeers, 5 red ornaments, 6 white ornaments and 5 gold ornaments.

**How many ornaments did the teachers have all together?**

**How many blue ornaments did the teachers have all together?**

**How many reindeer ornaments were there all together?**

**Which teacher had the most yellow ornaments?**

Name: \_\_\_\_\_

Read the passage carefully and answer the questions below.

Alexa was asked to handout papers to her classmates to help her teacher in the classroom. Mrs. Ortiz gave Alexa a total of 35 papers to handout. As Alexa was passing out the papers, she noticed it would be easier to hand them out per desk row. She counted 5 rows in total with 7 desks in each row, counting her own desk. After handing them out, she was handed back 8 extra papers.

How many students received a paper to work on today?

How many students were absent from their desks today?
