Welcome to Wichita State University and Shocker Nation! As you embark on your journey at Wichita State, you will be given a wide variety of opportunities to get involved and we encourage you to seek out opportunities that you believe are the best fit for you. Wichita State is home to 300+ student organizations that range in size and interest. We hope that one of our fraternities and sororities is an option that you look into.

Our first social, Greek-lettered chapter was established on campus in 1950 and many of our chapters were student organizations long before that, dating back to the early beginnings of Wichita State. Members of our community are exposed to a variety of leadership opportunities, the ability to form life-long bonds and relationships, outreach to the community and much more.

So, what makes fraternities and sororities different from all of our other student organizations? First off, all of our fraternities and sororities are values-based organizations. These values are not only important to our chapters at Wichita State, but serve as the foundation for all fraternities and sororities across the globe. Our organizations value academic success and achievement, leadership, philanthropy, service to the community, networking opportunities and our unique brotherhoods and sisterhoods.

They say it takes a village to raise a family. Our organizations are supported by countless alumni members, advisors, faculty and staff at Wichita State and community partners. Our success is not defined by one singular event or person; rather a series of supporters who help keep our community successful.

Your time here at Wichita State University has the opportunity to be some of the best years of your life and we hope that this guide will give you a glimpse into the history of our fraternities and sororities. We truly believe that fraternity and sorority membership changes lives and we invite you to get to know the members of our family.

How to Join

Interfraternity Council

The Interfraternity Council (IFC) houses WSU’s Fraternities. The recruitment process varies chapter to chapter, but you can expect a few common trends across the Council. Chapters refer to an individual who is a prospective of their chapter as a Potential New Member or PNM. PNMIs will be invited to different chapter hosted recruitment events during the summer, fall, and spring academic semesters. During these time periods, chapters will invite PNMIs out to recruitment events where the PNM would interact with members of the organization while learning more about the values, accolades, and the culture of a specific chapter. Once an organization feels a PNM would be a good fit for their organization, the chapter would extend a bid out to the PNM to become a new member of the organization. The PNM is not obligated to sign the bid, for it is merely an open invitation for membership which typically requires a chapter vote or decision from the Executive Board. In order to be eligible for a bid, a PNM must have registered for recruitment and filled out the form found on the Interfraternity Council Shockersync page (wichita.edu/ifc). If a PNM chooses to accept a bid, he will then become a new member of that chapter and begin the new member education process. Each chapter has a different new member education process and timeline, ask a member of a chapter you are considering membership of about their specific process. If you are interested in learning more about a specific chapter or the IFC as a whole, get in contact with the IFC President or reach out to any of the IFC chapters listed in this book.

Multicultural Greek Council

The Multicultural Greek Council (MGC) houses WSU’s culturally based Greek letter organization. The intake process for these organizations looks vastly different for each organization but there are a few key steps which remain the same. MGC hosts an Informational at the beginning of each semester so you can learn more about our chapters and indicate interest in joining one of our organizations! In addition to this, many of our organizations will also hold an informational to talk to potential new members about their organization’s rich history, service, and actions overall. Following these Informationsals and gauging interest from potential new members, organizations will generally have interviews before holding deliberations within their chapter to select their potential intake class. This is when MGC organizations become unique in their intake. Rather than letting everyone know who is trying to join the organization, our chapters focus on discretion while taking their potential new members through their educational processes and national approval. All of this hard work and discretion culminates in a huge celebration and surprise at a chapter’s New Member Presentation where all of their new members are finally shown to the rest of campus with poems, strolls, greetings, and information which they have learned throughout the semester! Following these new member presentations, our new members wear their letters with pride while beginning the real work within their organizations to uplift our communities! If you are interested in learning more about an organization or joining, make sure to get in contact with one of their current members!
Panhellenic Council

The Panhellenic Council (PC) at Wichita State is home to sororities within the National Panhellenic Conference. There are two different opportunities to join a PC sorority in Shocker Nation. The first option is to sign-up for Primary Recruitment. Primary recruitment happens in August each year prior to the Fall semester starting. When you sign up for recruitment and choose to go through the process, you will be given the opportunity to meet each of the five chapters at their chapter facilities off campus. We have affiliated women serve as Recruitment Counselors to help guide you through the process but ultimately, the choice is your own! If you do not find your home during primary recruitment, then we encourage you to check out our Continuous Open Bidding (COB) events. Not every Panhellenic sorority will participate in COB and we do not fully know who is able to host COB events until after primary recruitment is over. COB is much more informal and gives you the opportunity to seek out one chapter that you are interested in. We hope that you look into our process and find your home within the Panhellenic Council! If you have questions about joining the Panhellenic Council, you can contact our Vice President of Recruitment at wsu.sorority.recruitment@gmail.com.

Recruitment/Intake Policies

A Fraternity/Sorority is defined as a social, values-based organization. The four pillars that Greek Organizations are built upon are Scholarship, Leadership, Brotherhood/Sisterhood, and Service. All Fraternities and Sororities at Wichita State University are affiliated with an Inter/National Organization and governing Council.

- All Recruitment/Intake events will be alcohol-free
- All members of recognized Greek organizations must be registered students at Wichita State University.
- New Member: As a minimum standard a potential new member must have a cumulative college GPA or high school GPA (in the case of new freshmen) of at least a 2.50/4.0. If a student’s GPA falls below the 2.50 minimum, they will be ineligible to participate in a recruitment/intake cycle until their GPA surpasses the requirement.
- Grade Release Form: As a condition of membership in a recognized fraternity or sorority, each member is required to sign a bid card authorizing the release of grades to the Student Involvement Office for the purpose of monitoring the academic performance of chapters and members and other appropriate purposes. Grade reports are prepared to help chapters identify those members in need of academic assistance and to acknowledge those members doing well academically. This information may also be provided to chapter advisors, chapter presidents, and inter/national headquarters.
Greek Retreat

Held over Fall Break in October, Greek Retreat is three days filled with fun, interactive and educational leadership challenges. Each chapter can send a minimum of two representatives from their chapter to attend. Many past participants have stated that the experiences they get on this retreat, change their college experience.

New Member Greek Academy

All new members within the Fraternity and Sorority Community are required to attend either a Fall or Spring session of New Member Greek Academy. This program is designed to educate new members on the community and our values. Session topics include:

- Diversity and Inclusion
- Value’s Congruence
- Fraternity and Sorority History
- Teambuilding
- Accountability
- Professional Development
- Brotherhood/Sisterhood
- Risk Management
- and Much More
Kallistei Sorority Retreat

Held every other spring, Kallistei is a Sorority Wellness retreat that is three days long. This is a great opportunity for women within the fraternity and sorority life community to not only learn useful information, but to also build friendships across all sororities. Topics covered at Kallistei include:

- Wellness
- Nutrition
- Body Image and Body Positivity
- Toxic Relationships
- What does it mean to be a sorority woman?

HIStory Men’s Retreat

Held every other spring, HIStory Men’s Retreat is a fraternity, wellness retreat that is three days long. These gentlemen range from members who have only been in their organizations for a semester to our IFC President. Topics covered at HIStory include:

- Toxic Masculinity
- Men's Health
- Wellness
- What does it mean to be a fraternity man?
Greek Awards

Held every spring, our Greek Awards honor and recognize the accomplishments of our chapters and individual members from the previous year. Each year, we award over $4,500 worth of scholarships thanks to our generous alumni & supporters.

Anti-Hazing Policy

Hazing is defined as any act or action which has the potential to endanger the mental or physical health or safety of any individual as it relates to an individual’s initiation, admission into, or affiliation with any student group or organization. It is not necessary that a person’s initiation or continued membership is contingent upon participation in the activity, or that the activity was sanctioned or approved by the student group or organization, for a charge of hazing to be upheld. The actions of alumni, active, new, and/or prospective members of a student group or organization may be considered hazing. Hazing is not confined to the student group or organization with which the individual subjected to the hazing is associated. Allegations of hazing are considered under the reasonable person standard. Hazing includes:

a. Acts that endanger the physical health or safety of an individual including, but not limited to, whipping, beating, paddling, caning, forced calisthenics, forced consumption of alcohol, drugs, food, or any other substances, exposure to the elements, sleep deprivation, kidnapping, abandonment, forced or coerced poor hygiene, or mutilation or alteration of parts of the body.

b. Acts that endanger the mental health or safety of an individual including, but not limited to personal servitude, forced or coerced exclusion from social contact, forced or coerced wearing of apparel which is conspicuous, out of character, and/or inappropriate, line-ups and berating, morally degrading behavior, or conduct that demeans, disgraces, degrades, humiliates, or embarrasses an individual.

c. Acts that interfere with an individual’s academic attendance, performance or other obligations including, but not limited to, religious or employment responsibilities.

d. Acts that explicitly or implicitly encourage or require participation in activities that would constitute a violation of law or University policy.
FAQ

What is Greek Life?

We prefer to use “Fraternity and Sorority Life” or “FSL.” Our FSL community is comprised of social Greek-letter, values-based organizations. It is a group of students that are bound together by common values, goals, and unique friendships. They are bonds that last a lifetime.

Will joining a Greek organization affect my students’ grades or school work?

We certainly hope not, in fact, we hope it improves it. Academic Achievement is held to a high standard in our community. In order to join a fraternity or sorority at Wichita State, you have to have a minimum of a 2.5 cumulative GPA. Our chapters encourage academic achievement by hosting study sessions with members, rewarding you when you do well, and encouraging you through a rough class. Typically out Greek Lettered organizations maintain GPAs above the all men’s, all women’s, and University average.

What about hazing?

Hazing is illegal and is not promotes or tolerated at Wichita State University. Hazing is a way for members to hold power and control over other members and does not have any place in our community. We are a community build on love and respect. Any organization with allegations of hazing is sent to our Office of Student Conduct and Community Standards to be investigated.

Does my student have to live in a fraternity/sorority house?

We encourage your student to weigh that option and pursue that if they chose too. Our chapter facilities have limited capacity on how many they can house. If your student is interested, we encourage them to talk to their chapter president once they join about their options.

Are Greek organizations expensive?

Membership with a fraternity/sorority is a financial commitment and we hope that your student does their research before the join. There are membership dues that are associated with each fraternity or sorority. Many of our chapters offer payment plans and scholarships to help subsidize the cost.

Are there any chapter on a disciplinary status?

Beta Theta Pi (IFC Affiliated Chapter) is currently on suspension through May 10, 2020.

All disciplinary sanctions can be viewed through the website of our Office of Student Conduct and Community Standards.
