Student Bill of Rights

Joint Statement on Rights and Freedoms of Students

Approved and Enacted by the Student Senate, by the Faculty Senate, and by the President of the University on 2012-08-08.

Preamble

All students of this University have a guaranteed safeguard for their rights as members of this Association: these rights exist because they are held to be the means through which mankind achieves its greatest fulfillment. A bill of rights exists to prevent encroachment upon this freedom.

This relationship should be no less for the academic community which seeks to promote similar ideals and associations. Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility.

To ensure that all students of the academic community of Wichita State University have access to the opportunities for growth and learning, this enumeration of the safeguard is intended. To ensure that this freedom is not betrayed, safeguards are incorporated that protect its permanence and create a responsible attitude in the minds of the students enjoying this liberty.

Article I: Classroom Freedom

Section 1. Protection of Freedom of Expression

Students should be free to take reasoned exception to the views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

Section 2. Protection Against Improper Academic Evaluation

Students are responsible for maintaining standards for academic performance established for courses in which they are enrolled. At the same time, they should have protection against prejudiced or capricious academic evaluation. To provide this protection, the Court of Student Academic Appeals is empowered to review all cases of academic dispute that arise; request all information and witnesses necessary to render a decision; and have the final authority in all such cases.

Section 3. Protection Against Improper Disclosure

Information about student views, beliefs, and political associations which professors acquire in the course of their work as instructors, advisors, and counselors should be considered confidential according to the guidelines laid out in the Family Educational Rights and Privacy Act (FERPA). Protection against improper disclosure is a serious professional obligation. Judgment of ability and character may be provided under appropriate circumstances, but only with the knowledge and consent of the student.

Article II: Student Records

Section 1. Maintenance of Records

To minimize the risk of improper disclosure of student records, academic and disciplinary records shall be separate, except in rare cases, and the conditions of access to each shall be set forth in an explicit policy statement. Transcripts of academic records shall contain only information about academic status.

Section 2. Access to Student Records

Information from disciplinary or counseling files shall not be available to unauthorized persons on campus, or to any person off campus without the express consent of the student involved except under legal compulsion or in the cases where the safety of persons or property is involved in following with FERPA.

Section 3. Excluded Records

No records shall be kept which reflect the political activities or beliefs of students unless such information is of vital interest in Conduct Hearing records per the University Code of Conduct.

Section 4. Periodic Elimination of Records

Provision shall be made for periodic routine destruction of non-current disciplinary records according to the University's Records Retention Schedule policy. Administrative staff and faculty members must respect confidential information about students which they acquire in the course of their work.

Article III: Student Affairs

Section 1. Freedom of Association

Students bring to the campus a variety of interests previously acquired and develop many new interests as members of the academic community. They should be free to organize and join associations to promote their common interests.

- Clause 1.** The membership, policies, and actions of a student organization will be determined by vote of only those students who hold bonafide membership on the college or university community.
- Clause 2.** Affiliation with an extramural organization does not of itself disqualify a student organization from institutional recognition.
